

OKLAHOMA DEPARTMENT OF CAREER  
AND TECHNOLOGY EDUCATION

**TECHNOLOGY IMPLEMENTATION/UPGRADES FOR K-12 SCHOOLS  
REQUEST FOR PROPOSAL SECOND ROUND  
FY26 (2025-2026)**

**Agency Issuing Request for Proposal**

The Oklahoma Department of Career and Technology Education requests proposals for funding to implement and/or upgrade instructional and training technology for the purpose of (1) innovative “cutting edge” hardware and software, (2) curriculum materials, (3) machinery and equipment for new technologies, and/or (4) instructor training.

All proposed expenditures including instructor training should be related directly to the approved proposal. Curriculum materials purchased should support the technology requested in the proposal and could include digitally delivered curriculum and assessments. The request should not supplant current curriculum expenditures.

For the purpose of this grant request, technology refers to any use of innovative processes, equipment and software that will enhance and/or advance instructional techniques or an advanced interactive learning environment to provide for the needs of the students and clients of the district, including business and industry.

Any and all technology equipment purchased with these funds become the sole property of the local school district and is placed on the local school district inventory. However, technology/equipment must be located in the Careertech program to which it is awarded.
