CREDENTIALS

Credentials Book

Updated 05/16/2025

Health Science Occupational Credentials: **Listed in Alphabetical Order by Assessment Code Number from Approved Assessment List**

Found on CareerTech Testing Center main homepage: www.okcttc.com

- Scroll down to bottom of page for: **Approved Assessment List and Full Credentials Book**

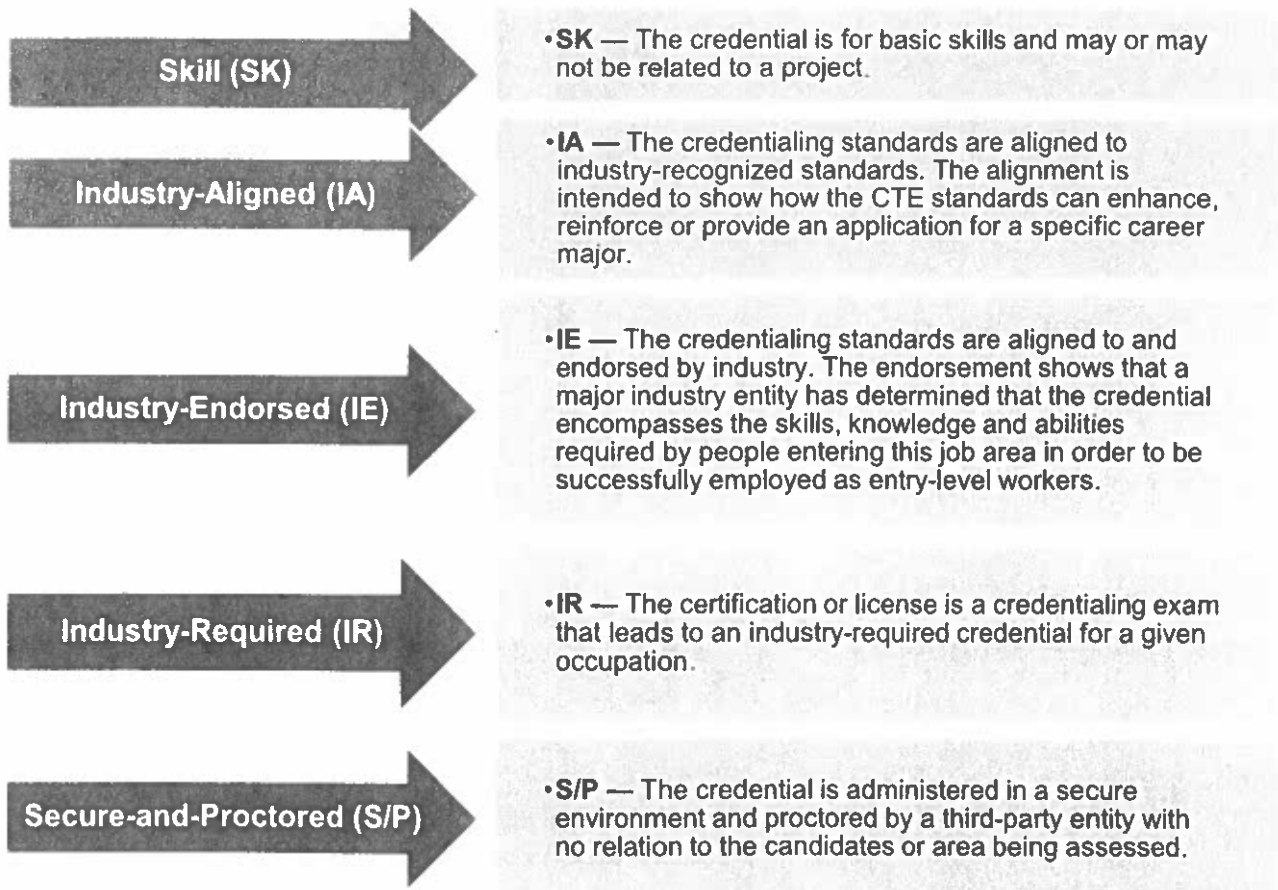

The value of credentials

It is imperative that the educational process focus on successful outcomes that provide individuals with the skills and abilities to enter the workforce and/or enter postsecondary education. For example, completion of industry-recognized certifications and credentials enables individuals to work in high-wage, high-demand occupations. The certifications/credentials that students receive are an essential component to decreasing the educational gap that blocks a more vibrant Oklahoma economy. Oklahoma's future hinges on business and industry's ability to successfully compete in a global economy. A highly skilled workforce is essential for success in today's challenging business environment.

Socioeconomic mobility

To further demonstrate the importance of credentials, the 2016 national data from the U.S. Bureau of Labor Statistics revealed employed people were more likely to hold an active certification or license (25.0%) than unemployed people (12.5%) or those who were not in the labor force (6.0 percent). People who held certifications or licenses also had a lower unemployment rate than those who did not (2.5% versus 5.6%, respectively). Workers with certifications or licenses also earned 35 percent more than those who did not hold such credentials (\$1,032 versus \$765 respectively).
