ASSESSMENT PRODUCTS & SERVICES

I. WHO WE ARE

CTTC works directly with instructors, industry representatives, and credentialing entities to identify and develop over 100 certification assessments and assessment preparation materials that align with recognized industry standards. Our assessments align to credentials that are required and/or valued by industry. They are given in Oklahoma through our technology centers, comprehensive schools, and in our skill center programs within the prison system. We also work with other states that use our assessments for state-mandated testing. We also utilize our technology center network of over 50 locations to provide test sites to our 14 partnering agencies. We host their certification/licensure exams, and our test site personnel provide a secure, proctored environment for testing. They validate the required documentation required by each agency to test. CTTC also provides a unique opportunity to entities needing a secure testing platform. We provide hosting solutions for your content and assessments. We offer various delivery options to meet your needs.
