PUBLIC COMMENTS

There were no public comments.

ADMINISTRATOR'S REPORT

Ms. Hubbard reported that a list of Board appointed committee seats expiring in 2026 could be found in the binders and that the agency would be sending out letters and following the same notice procedures as the past two years.

Ms. Hubbard reported that the Annual Employee Appreciation luncheon was held on December 5th, 2025, to recognize staffs' years of service and let staff know they are important and that their contribution to the CIB is appreciated.

Ms. Hubbard reported that the remaining two office staff vacancies had been filled in the last few weeks. She stated that the office is now fully staffed for the first time in two years. She stated that training is going well and she thanked Windy for her hard work in handling the more than 200 applications received during this process.

Ms. Hubbard reported that after the November public hearing on the Electrical Administrative Rules, all required documents and reports were submitted timely to the Office of Administrative Rules. She thanked Stephanie for her work on those rules. She stated that the rules would now be considered by the Legislature this session.

Ms. Hubbard reported that many of the statutory agencies like CIB were created with term limits to allow the Legislature to review and sunset agencies no longer needed. She stated that the review cycle happens generally about every 3-4 years. She stated that this year is CIB's turn to be reviewed for an extension of sunset. She stated that the Joint House and Senate Administrative Rules Committee had a meeting last week to consider extending CIB's sunset provision, along with other agencies. She stated that she attended that hearing and she wanted to extend a thank you to Chairman Buxton for attending in support of the agency and also making himself available in case they had questions of the Board.

Ms. Hubbard reported that she had previously reported that in the LiUNA case against CIB the District Court had dismissed the case and LiUNA appealed. She stated that since then the Court of Civil Appeals, Tulsa Division, has reversed and remanded the case back to District Court for, basically, lack of evidence in support of dismissal at this stage of the case. She stated that the District Court will resume jurisdiction and proceed with the next step. She stated that the CIB continues to be represented by the Office of the Attorney General and that she will keep the Board informed of developments.

Ms. Hubbard reported that since the Board's approval of the contract with HBE's software contract at the previous meeting, the agency has held several meetings with HBE and been presented with demonstrations of software. She stated the agency has also been able to test the citation and CEU parts of the software and provide feedback. She stated that she expects the citation and CEU parts to go live in mid-February. She stated that it is not often that you hear positive feedback from agencies about software systems, but that so far staff has been impressed by the service, responsiveness, accuracy, speed and product HBE has shown at this point so staff is very optimistic about the success of this contract.
