Agenda

- Introduction/Welcome
- Vaccine Storage/Transportation
- Excursion, Power Outage, VSIR
- Vaccine Reporting-OSIIS
- Burn Rate Goals- Ordering Process
- Building on local resources/connections
- Questions

Vaccine Storage/Transportation, Excursion, Power Outage, VSIR

Tina Shatto
Immunization Field Consultant

Temperature Range

Vaccine	Temp
Frozen Ultra Cold Pfizer (6-month duration at Ultra Cold temp)	-60°C TO -80°C
Refrigerated Pfizer (5-day duration)	2°C TO 8°C (36° to 46° F)
Frozen Moderna (6-month duration)	-25°C TO -15°C (-13° to 5° F)
Refrigerated Moderna (30-day duration)	2°C TO 8°C (36° to 46° F)
Refrigerated Janssen (3-month duration unpunctured)	2°C TO 8°C (36° to 46°F)
Frozen Janssen (needs to be thawed and maintained refrigerated)	-25°C TO -15°C (-13° to 5° F)

Vaccine Transportation

- Transport Containers
- Proper pack out for transport
- Digital Data Logger (DDL) placement
- Hourly Temp log

Transport Containers

Type of Unit	Emergency Transfer	Routine Transfer	Off-site Clinic
Portable Vaccine Refrigerator or Freezer	YES	YES	YES
Certified Container and Packout*	YES	YES	YES
Conditioned Water Bottle Transport System	YES	YES	NO
Manufacturer's Original Shipping Container	YES (LAST RESORT ONLY)	NO	NO
Hard-sided cooler	YES	YES	NO
Pre-approval Required	NO	YES	YES

Excursion, power outage, VSIR

- **What is an Excursion?**
 - An Excursion is any length of time the COVID Vaccine is outside of the recommended temperature range set by the EUA
- **VSIR**
 - Vaccine Storage Incident Report
 - The VSIR excursion form is available to download on OSDH website

Excursion reporting process

- Move the vaccine to the refrigerator and put it on the clock for use. (Don't use until OSDH has followed up with manufacturer).
- Notify local IFC, share temp logs and complete VSIR with all details.
- Send the VSIR to Tina Shatto- tinas@health.ok.gov
- Tina Shatto will respond with a determination from the manufacturer within 48 working hours.
- PLEASE DO NOT use the vaccine until you hear back from Immunization Services.

Provider COVID-19 Vaccine Storage Incident Report (VSIR) Form

1. Complete Clinic Information
2. Type of excursion
3. Excursion occurrence Information
4. Data logger reports must be included
5. Problem with temps documented
6. Cause of problem
7. What type of unit with details
8. Certificate of calibration must be included
9. A full description with as many details with times and dates as possible
10. Cell contact for additional interview questions
11. All vaccine information MUST be completed
12. Signatures are required and completed report with all supporting documentation must be submitted to tinas@health.ok.gov

Data Entry issues/OSIIS

Data entry issues/OSIIS

- Turning on notifications in OSIIS
- Receiving vaccine shipment/transfer
- Adding Wasted Doses
- Assure correct patient is selected in OSIIS before documenting vaccination
- Record Race/Ethnicity
- Dose added but not administered

Burn Rate Goals- Ordering Process

Buffy Heater
Assistant Deputy Commissioner, OSDH

Burn Rate Goals- Ordering Process

- Providers will place COVID orders in OSIIS.
- Separate orders need to be placed for each vaccine type. COVID-19 vaccine orders cannot be lumped together or ordered with other vaccines. For example, if you are wanting Pfizer, Janssen and Moderna you will need to place 3 orders.
- Providers will need to reconcile their inventory through OSIIS by Mondays at 12:00pm and place orders by close of business every Monday. After 5:00 pm orders will not be accepted.
- Orders will be received in 10 days at the facility(in case of weather delays, OSDH will keep you posted).
- Providers that have ordered vaccines but have not reconciled will have their orders canceled.
- Trainings are available on vaccine ordering and reconciling inventory. Please reach out to OSIISHELP@health.ok.gov

Building on local resources/connections

Mendy Spohn
Regional Administrative Director, OSDH
