

Today the facility for women is home to 837 minimum security and 162 community security inmates; with a total population of 999. Community inmates are eligible for employment in the communities surrounding Taft, Oklahoma.

Education

Many inmates lack education, a key component in avoiding re-incarceration. EWCC offers literacy courses as well as Pre-High School Equivalency and High School Equivalency diplomas. College courses (not provided through state funding) are also available to inmates who can pay for them or those who have alternative funding or scholarships.

Substance Abuse Treatment

For those inmates who need substance abuse treatment, EWCC teaches them ways to avoid drug and alcohol use, while also helping them develop cognitive, social, emotional, and coping skills needed to avoid using.

Criminal Thinking

EWCC offers Thinking for a Change, and Associates 4 Success programs to address thinking, judgment errors, and relationships linked with criminal thinking and behavior.

CareerTech

EWCC inmates can get technical training through a CareerTech Skills Center, which trains them for workforce reentry after release.

CareerTech also helps inmates find skill-related employment after release. Courses at EWCC include Career Readiness, as well as Transportation Distribution and Logistics for Manufacturing.

By the end of fiscal year 2020, CareerTech will have served more than 300 students. The Manufacturing, Transportation, Distribution, and Logistics (MGF/TDL) employment success rate for this year is 100%, making on average \$13.99 an hour. All CareerTech students receive industry OSHA credential training in both Career Ready and MFG/TDL programs.

Over the last four years, CareerTech MFG/TDL and Career Ready programs have served 1599 students at Eddie Warrior. Within those four years, only three individuals returned to prison, that's less than .01%

Specialized Units

EWCC's Regimented Treatment Program combines physical training with six cognitive behavioral treatment programs. Inmates learn self-discipline and must show initiative, motivation, and improved behavior to graduate.

Helping Women Recover

This program provides evidence-based, trauma-informed care, offering substance abuse treatment, cognitive processing therapy, domestic violence intervention, and relapse prevention groups.
