

### AssetWorks/M5 Preventive Maintenance (PM) Service for ODOC Fleet Vehicles

An AssetWorks/M5 preventive maintenance schedule will be followed for all ODOC fleet vehicles. Each regional garage will maintain a master list of vehicles for which it is responsible and a service schedule as indicated below. Any deviation from this schedule will require a detailed justification from the regional garage to the Administrator of Fleet Management for review and written approval. If the vehicle is equipped with a maintenance minder/oil change indicator, complete Maintenance "I" from the list below when the service message appears. If the vehicle is not equipped with a maintenance minder/oil change indicator, complete Maintenance "I" every 6,000 mile interval. Beginning July 1, 2018, each new vehicle purchased by ODOC will have a sticker adhered inside the glove box indicating proper tire pressure and weight of oil to be used when servicing the vehicle.

	Maintenance		Comments (to include date completed)	Complete "X"
I.	Maintenance Requirements			
	A.	Change Oil and Filter (reset maintenance minder if equipped)		
	B.	Chassis Lubrication
