**PHYSICIAN INSTRUCTIONS**

All applicants for original or renewal driver licenses and licensed drivers whose traffic records cause doubt as to their ability to drive safely, may have their vision screened by a Driver License Examiner. When more accurate measurements are needed, the licensee is asked to have an examination performed by an ophthalmologist or optometrist. A report from such a specialist is particularly valuable if the fitness of a person to drive is questionable.

Please sign this visual screening report to indicate your medical license number. Also, for proper identification, please ask the person examined to sign the report in your presence. Visual screening reports from licensed practitioners will be acceptable. The specialist assumes no responsibility in making this report other than that of truthfully representing the facts.
