

#### Give your baby a great start! Breastfeeding is good for both of you.

- Get back in shape faster.
- Improve your baby's health.
- Bond with your baby.
- Save money.

#### The all-natural ingredients in breastmilk are good for your new baby.

- It's the best food for your baby's growth and development.
- It's all your baby needs for the first six months.
- It reduces chances of infection.
- It helps to keep your baby healthy, and lower chances for obesity, diabetes and other diseases.

Raising a healthy baby is the most important thing in your life right now. Use all of your resources.

# A healthy baby is a happy baby.

#### What kind of help is available if I have problems or questions about breastfeeding?

- Check to see if a lactation consultant is available at your local WIC clinic or ask your doctor to refer you to one.
- WIC staff are available to help; call the office nearest you.
- Ask your healthcare provider about the benefits of breastfeeding.
- Peer Counselors may be available at your WIC clinic to provide breastfeeding support.

### "I have to go back to work soon after I have the baby."

A lot of mothers go back to work a couple of weeks after delivering or sooner. Start planning your breastfeeding strategy once you decide to breastfeed:

- Find a babysitter or daycare near your job.
- Start talking to relatives, your babysitter and/or daycare about your plans to breastfeed.
- Talk to friends, relatives or coworkers who have breastfed to learn all you can before your baby is born.
- Talk to your baby's father about your plans to breastfeed, so he understands how he can help.
- Talk to your local WIC clinic about your need for a breast pump prior to returning to work.

#### U.S. DEPARTMENT OF AGRICULTURE WIC BREASTFEEDING SUPPORT LEARN TOGETHER. GROW TOGETHER.

#### Breastfeeding has many health-related benefits to help you feel better sooner.

- It helps shrink your uterus to its pre-pregnancy size.
- It helps prevent excessive bleeding.
- It helps you lose weight quicker.
- Breastfeeding is one way to bond with your baby.
- Breastfeeding releases hormones that help you relax.

#### How does breastfeeding help save money?

- You won't have to purchase expensive formula.
- It reduces sick days for working moms.
- It can result in lower medical bills.

#### Find people who will support you.

When the people around you support your choice to breastfeed, it can make breastfeeding easier.

**WIC** - Can answer breastfeeding questions and provide you with a breast pump if you are returning to work. Your - If you plan to breastfeed, you

**Employer** 

will need a private place to pump or express your breastmilk.
