

SUB-RECIPIENT QUESTIONNAIRE

Information Sheet

The OSDH is required to complete a risk assessment for each Subrecipient subaward and file the required reports as outlined by the Federal Funding Accountability and Transparency Act (FFATA). The attached questionnaire is utilized for the purpose of assessing the capacity and ability of the Subrecipient to manage the Federal subaward. This assessment will assist OSDH to determine the necessary contractual and programmatic monitoring activities in conjunction with the level of risk.

2 CFR 200.1 – Definitions

A Subaward means an award provided by a pass-through entity (PTE) to a subrecipient for the subrecipient to carry out a part of a Federal award received by the pass-through entity. It does not include payments to a contractor (vendor) or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

Pass-through entity (PTE) means a non-Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

A Subrecipient means an entity, usually but not limited to non-Federal entities, that receives a subaward from a PTE to carry out part of a Federal award. A Subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

2 CFR 200.331 – Subrecipient Determination

Characteristics of a Subrecipient after a subaward may include any or all of the following elements:

- Determines who is eligible to receive what Federal assistance;
- Has its performance measured in relation to whether objectives of a Federal program were met;
- Has responsibility for programmatic decision-making;
- Is responsible for adherence to applicable Federal program requirements specified in the Federal award; and
- In accordance with its agreement (contract), uses the Federal funds to carry out a program for a public purpose specified in authorizing statute, as opposed to providing goods or services for the benefit of the pass-through entity.

2 CFR 200.332 – Requirements for pass-through entities (PTE):

As a PTE, the Oklahoma State Department of Health must ensure that every subaward is clearly identified to the subrecipient as a subaward and includes the following information at the time of the subaward and if any of these data elements change, include the changes in subsequent subaward modification. When some of this information is not available, the PTE must provide the best information available to describe the Federal award and subaward.
