

## Newborn Screening Referral Testing

The OSDH PHL Newborn Screening Laboratory sends out-of-range results for confirmatory “second-tier” testing to reference laboratories for the following disorders:

- Congenital Adrenal Hyperplasia (17-OHP)
- Lysosomal Storage Disorders (Pompe (GAA) & Mucopolysaccharidosis Type 1 (IDUA))
- X-Linked Adrenoleukodystrophy (X- ALD)

Laboratory	Tests Performed	Turn-around Time (Working Days)
<a href="#">Mayo Clinic Laboratories</a> 200 First Street SW, Rochester, MN 55905	Congenital Adrenal Hyperplasia (17-OHP)	Seven (7)
	Lysosomal Storage Disorders: Pompe (GAA) & Mucopolysaccharidosis Type 1 (IDUA)	Seven (7)
<a href="#">Revvity Omics</a> 250 Industry Drive, Pittsburg, PA 15275	X-Linked Adrenoleukodystrophy (X- ALD)	Seven (7)
