Becky Novak shared she is now the representative for the Region 1 RTAB, and that we at the State Department of Health welcome Norma Perez, who volunteered to come and help get the CQI program back up and running. A meeting was held last Thursday with Dr. Frazier and the chairs of the RTAB's and Chad will probably have more to say about that later.

Chad Campbell shared that the RTAB chairs met across the state along with the OTERAC Chair of Dr. Teague, and some representatives from the State Department of Health. By the third quarter RTAB we will be ramping back up on CQI starting with administrative items such as contacts, right people, right charts, etc... Be sure to watch your emails for more information. A big topic was the American College of Surgeons will be coming in to do a survey of the Oklahoma trauma system to give recommendations for policies, protocol updates, whether it be for the State Department of Health as well as the regions, how we can move forward as a state since there has not been a review done in the past 10 or more years. RTAB chairs will be working on continued communication avenues for RTAB's to make a better meeting and worth your travel.
