- A motion to accept the 2023 RPC meeting dates was made by Russell Martin and seconded by Paula Kaplan. The motion passed 7-0.

- B.** Discussion, consideration, possible action and vote to approve the results of the Trauma Plan Workgroup.....Kenneth Nickels, Chair
Mr. Henke shared the Region 7 Trauma Plan with edits in red. He noted that a lot of the changes were Hospital/EMS name changes which do not have to be presented to the RTAB for approval. Maryavis Howell shared that the Trauma Plan is in need of lots of work such as the table of contents. Mr. Henke suggested they start a new workgroup to review the Trauma Plan. This workgroup must have an end date and stay under quorum. Tessa Cleary-Smith brought up that the T-3 is a State document and there is a workgroup working on changes to the T-3. Jeremy McLemore suggested making the T-3 a reference document to cut down on changes to the Trauma Plan. Ms. Howell suggested adding verbiage to review the TP every so often. A motion to start a workgroup including Jeremy McLemore, Russell Martin, Nathan Phillips, Maryavis Howell, and Dr. John Marc Shellenberger to review the Region 7 Trauma Plan and report back to the Regional Planning Committee by January 10, 2023 was made by Jeremy McLemore and seconded Nathan Phillips. There was no further discussion and the motion passed 7-0.
- C.** Discussion, consideration, possible action and vote to approve a plan to:
1. Decrease the number of Priority 1 patients transported by ambulance services to a Level III or Level IV Trauma Center by 3% by the end of the calendar year 2023.
 2. Decrease the statewide average length of stay at Level III and Level IV Trauma Centers for patients having an ISS of ≥ 16 by 3% by the end of calendar year 2023.
-Kenneth Nickels, Chair
Chris Dew shared that we look at data all the time but the current data is incomplete and not clean. Mr. Martin shared it is hard to tell if we are meeting the goal without current data. Ms. Howell shared the current verbiage is not the best for trying to determine the length of stay at a hospital. Mr. McLemore shared we should take action in regards to what is actually being used in the matrix and come up with ways to decrease the length of stays. Jamie Lee shared some of the top reasons for delays in transporting, Delays: going to radiology for diagnostics, radiology results, initiating the transfer process, and delays in contacting EMS to name a few. Ms. Lee shared that inappropriate triage in EMS contributes to delays also. Ms. Howell shared the RPC is not in a position to make an action plan at this time. Mr. Dew provided that telemedicine is being looked at to see if it has a place in the Emergency Departments but is still new. Ms. Cleary-Smith shared that there are many different programs out there at this time and getting everyone on the same page has not occurred yet. Mr. McLemore suggested the CQI committee write letters to the hospitals sharing what their average length of stay is. Ms. Lee shared the CQI committee needs accurate data to make this happen and that some facilities are two years behind on reporting their data. Mr. Martin shared that without current data the RPC should table Item C. Mr. Martin suggested Item C be tabled until there is current data available. Chair KC Nickels asked the RPC if everyone agreed to table Item C until data is available. The group agreed.
- D.** Discussion, consideration, possible action and vote to approve a Mass Causality Incident appendix.....Kenneth Nickels, Chair
Mr. Henke shared that the Regional Medical Response System should be the contact for a Mass Causality Incident. Mr. Dew suggested putting in the thresholds to activate and MCI. Mr. McLemore suggested the action for Item D be to contact the RMRS to see what plan they have and if Region 7 RPC wants to adopt that plan. Mr. McLemore will obtain a MCI plan from the Region 7 RMRS and it will be shared with the RPC. Once the MCI plan is shared with the RPC, Item D will be placed on the next agenda.
