Rivendell MEMORY CARE GUIDELINES We will make every effort to allow residents as many choices as possible. We will respect and treat them with dignity and courtesy. We will learn as much as we can about what they like to do and what their interests are. We will work around their normal routines of sleep and wake patterns. If a resident has always preferred to wake up early, then we will help them get ready for the day when they wake up. If they prefer to sleep later, they can. Remember, this is their home. Sometimes we may like to sleep later too. However, we do not want them to miss meal times and the activities that they enjoy. Breakfast will be served between 7:00 a.m. and 9:00 a.m. and will be kept warm in a warmer, obtained for this purpose. A dietary associate will be in the Memory Care during this time period to serve the resident. The warmer is somewhat warm to touch and the residents should not touch the warmer or be left unattended while the warmer is in the Memory Care. Residents need to wake up in time to be served breakfast. They may choose to come to the dining room in their robe and go back to their rooms after breakfast for their morning care. A system for making sure that all residents' care plans have been followed, will be overseen by the LPN supervisor and checked daily. Residents will all be on a two-hour toileting and re-hydration schedule. All residents will have a large container of ice water filled every be on a two-hour toileting and re-hydration schedule. All residents will have a large container of ice water filled every morning to help insure proper hydration. The cups will be put through the dishwasher every Sunday. Staff will assist with all aspects of ADL's. Some people may only need reminders and prep work, such as laying their toothbrush and toothpaste out and then making sure they have brushed their teeth. Other people may need more assistance. The staff will know what each resident needs and the frequency. A care plan will be provided for every resident. If a resident refuses personal care or becomes agitated, the LPN supervisor is to be notified. If a pattern of refusal of care develops, the family will be notified for assistance. The patio doors will be kept unlocked during nice weather so that residents can enjoy walking outside as they wish. Staff should keep a close eye on residents when they are outside. If the weather is very hot or very cold, the patio door should be locked. Also, the door should be locked during meal times. Room checks will be done every hour. Residents who are incontinent will be taken to the bathroom during the 2:30 a.m. room check. If in-continance is still a problem even though we are taking them at 2:30, they will be placed on a two-hour toileting schedule at night as well. All residents will be taken to the restroom just prior to going to bed. We will ensure that the adult protective undergarments are on residents requiring them before going to bed. The supervisory care staff is to notify the LPN supervisor of any change in a residents condition, of any falls, and if a PRN narcotic needs to be given. The LPN supervisor is to make regular rounds in the Memory Care Center, noting resident's needs and ensuring quality care. The Housekeeping department will clean the resident's room and bathroom, thoroughly, weekly. Trash will be emptied daily, linens will be changed as needed, and rooms will be checked daily and cleaned as needed. If the housekeeping department has left for the day, the nursing staff will be responsible for taking care of any soiled linens or laundry. The nursing staff will leave a note for the housekeeping department, indicating whose laundry they have left. The housekeeping department will work around the residents' schedule and will not disrupt their sleep routines. The community restroom will be cleaned and disinfected twice a day. Activities will focus on success-oriented activities. Residents will be encouraged to participated, but will also have a choice. We will provide a compassionate, secure environment with supportive assistance. We will promote emotional and physical well-being, dignity, and quality of life.
