

TITLE 310. OKLAHOMA STATE DEPARTMENT OF HEALTH

CHAPTER 670. CITY AND COUNTY DETENTION FACILITY STANDARDS

310:670-1-3. Implementation and inspection

A local facility administrator shall develop and implement written policies and procedures pertaining to the daily management and operation of the facility. Each facility shall develop and maintain an operations manual sufficient to demonstrate compliance with the standards in Section 1 of Subchapter 3 of this Chapter, or Section 1 of Subchapter 5 of this Chapter.

Sight Checks Lockup

310:670-1-2. Definitions The following words or terms, when used in this Chapter, shall have the following meaning unless the context clearly indicates otherwise:

"Sight check" means when a Detention Officer physically observes an inmate.

SUBCHAPTER 3. STANDARDS FOR LOCKUP FACILITIES

310:670-3-1. Basic standards The facility administrator shall develop and implement written policies and procedures for the operation of a lockup facility which shall include and address at a minimum, the following:

Sight Checks

(10) Hourly visual sight checks shall be conducted and documented.

SUBCHAPTER 5. STANDARDS FOR DETENTION FACILITIES

310:670-5-2. Security and control The facility administrator shall develop and implement written policies and procedures for the safety, security and control of staff, inmates and visitors. Policies and procedures shall address at least the following:

Sight Checks

(3) There shall be at least one (1) visual sight check every hour which shall include all areas of each cell, and such sight checks shall be documented.

310:670-5-8. Medical care and health services

Adequate medical care shall be provided in a facility. The administrator shall develop and implement written policies and procedures for complete emergency medical and health care services. Policies and procedures shall include at least the following:

(2) Intake screening shall be performed on all inmates immediately upon admission to the facility and before being placed in the general population or housing area. An inmate whose screening indicates a significant medical or psychiatric problem, or who may be a suicide risk, shall be observed frequently by the staff consistent with the facility's policy and the identified need until the appropriate medical evaluation has been completed.
