How can you support stressed parents in public?

All parents can be challenged while out with their child in public, especially when the child is tired, hungry, confined or bored. We can lessen parents stress by doing the following:

1. **BE KIND** and supportive. A gentle smile can go a long way.
2. **CONNECT** with the parent or child. "It's not easy, is it? I remember when my kids were toddlers, too." Think about how you would want to be treated in a similar situation.
3. **ASSIST** the parent by offering help. Examples include offering to read a book in a waiting room or providing an extra set of hands at the supermarket.

*Parenting isn't easy.
All parents need support.*
