- 
1. Incidence rates represent the number of injuries or illnesses per 100 full-time workers and were calculated as  $(N \times 200,000) / EH$  where:  
N = number of injuries and illnesses,  
EH = total hours worked by all employees during the calendar year, and  
200,000 = base for 100 full-time equivalent workers (working 40 hours per week, 50 weeks per year).

N.R. = Non-respondent

- 
1. Incidence rates represent the number of injuries or illnesses per 100 full-time workers and were calculated as (Nx200,000)/EH where:  
N = number of injuries and illnesses,  
EH = total hours worked by all employees during the calendar year, and  
200,000 = base for 100 full-time equivalent workers (working 40 hours per week, 50 weeks per year).

N.R. = Non-respondent

1. Incidence rates represent the number of injuries or illnesses per 100 full-time workers and were calculated as (Nx200,000)/EH where:  
N = number of injuries and illnesses,  
EH = total hours worked by all employees during the calendar year, and  
200,000 = base for 100 full-time equivalent workers (working 40 hours per week, 50 weeks per year).

- 
1. Incidence rates represent the number of injuries or illnesses per 100 full-time workers and were calculated as (Nx200,000)/EH where:  
N = number of injuries and illnesses,  
EH = total hours worked by all employees during the calendar year, and  
200,000 = base for 100 full-time equivalent workers (working 40 hours per week, 50 weeks per year).

- 
1. Incidence rates represent the number of injuries or illnesses per 100 full-time workers and were calculated as (Nx200,000)/EH where:  
N = number of injuries and illnesses,  
EH = total hours worked by all employees during the calendar year, and  
200,000 = base for 100 full-time equivalent workers (working 40 hours per week, 50 weeks per year).

TULSA PUBLIC SCHOOLS	5590	6.5	0.3	3.5	2.8

1. Incidence rates represent the number of injuries or illnesses per 100 full-time workers and were calculated as (Nx200,000)/EH where:  
N = number of injuries and illnesses,  
EH = total hours worked by all employees during the calendar year, and  
200,000 = base for 100 full-time equivalent workers (working 40 hours per week, 50 weeks per year).
