

Document Retention

USAC states “E-Rate participants must keep these records for a period of 10 years after the latter of the last day of the applicable funding year or the service delivery deadline for the funding request, whichever is later.”

The last day of the applicable funding year or the service delivery deadline determines the retention period.

For recurring services (Category 1):

- Recurring services must be delivered during the relevant funding year (July 1 through June 30). There are no extensions available for the installation deadline for recurring services.
- **For example**, for Funding Year 2026 (July 1, 2026 – June 30, 2027), records must be kept for Funding Year 2016 (July 1, 2016 – June 30, 2017) through Funding Year 2026.
- ODL recommends keeping a few additional years.

For non-recurring services (Category 2):

- In general, non-recurring services must be delivered and installed between July 1 of the relevant funding year and September 30 following the June 30 close of that funding year (i.e., 15 months after the beginning of the funding year). Certain recipients may receive extensions of the deadline for delivery and installation of these non-recurring services, which can occur for various reasons.
- **For example**, if in Funding Year 2014 the library applied to extend the service delivery deadline date past the normal deadline of September 30, 2015 to a later date of December 30, 2015 with a Form 500 then the records must be retained until December 30, 2025. And if the Funding Year 2014 service delivery deadline ended on September 30, 2015 then the records would need to be retained until September 30, 2025.
- ODL recommends keeping a few additional years.

Document needed for:	USAC's Description	What the library will need:
Applicant Eligibility	Documentation that shows a library receiving discounted services is eligible to receive funds from a state library administrative agency under the Library Services and Technology Act (LSTA).	A letter from ODL. Reach out to the Library Development Consultant who manages E-Rate.
Discount Eligibility Calculation	Library square footage documentation/maps	If USAC asks for this information, they might be specific about what to provide. If USAC isn't specific, some documents that might be useful in providing a library's square footage include: blueprints or architectural drawings; property deeds; tax assessor records; appraisal reports; and more. See the list below.

Documents Containing Building Square Footage

1. Property Deeds

- These legal documents often include the square footage of the property as part of the property description.

2. Tax Assessor Records

- County tax assessor records typically provide square footage information for tax purposes.

3. Appraisal Reports

- When a property is appraised, the report usually details the square footage based on professional measurements.

4. Real Estate Listings

- Listings for homes or commercial properties often state the square footage to inform potential buyers.

5. Architectural Plans

- Blueprints or architectural drawings include detailed measurements, including square footage.

6. Purchase Agreements

- Documents from the sale of a property may specify the square footage as part of the property details.

7. Building Permits

- Permits issued for construction or renovation may include square footage as part of the project specifications.

8. Lease Agreements

- Commercial leases often specify the square footage of the leased space, particularly in multi-tenant buildings.
