My Commission Expires: \_\_\_\_\_

*Instructions*

Please be reminded that certain conditions or stipulations in 165:10-7-17 must be adhered to. Below are some of them. Please refer to subsection (i) of the rule for others.

A. A representative of the operator shall be on the discharge site at all times during which water is being applied.

B. Weather Restrictions:

Surface discharge shall not be done:

1. During precipitation events or when precipitation is imminent;
2. When the soil moisture content is at a level such that the soil would not readily take the additional water;
3. When the ground is frozen; or
4. By spray irrigation when the wind velocity is such that even distribution of water be accomplished or the buffer zones below cannot be maintained.

C. Buffer Zones:

Land application shall not be done within the following buffer zones:

1. 50 feet of a property line boundary;
2. 50 feet of any stream not designated by Oklahoma Water Quality Standards;
3. 300 feet of any actively-producing water well used for domestic or irrigation purposes; and
4. 800 feet of any actively-producing water well used for municipal purposes.

D. Runoff or Ponding Prohibited:

No runoff or ponding of discharged water shall be allowed during application.

E. Application rate:

The maximum application rate of produced water stipulated by the permit shall not be exceeded. Application of produced water outside of the approved plot shall be prohibited. Accurate records shall be kept as to the quantities discharged and the dates of each discharge.

**FOR OCC USE ONLY**

Permit No.  SD
----------------------

This application has been:  **APPROVED** Maximum discharge rate \_\_\_\_\_ bbls/acre.

**DISAPPROVED** Reason for disapproval is:  Application incomplete.  
 Laboratory analysis incomplete.  
 Size of potential discharge area too small.
