Print Name \_\_\_\_\_

Date \_\_\_\_\_

## APPLICATION REQUIREMENTS:

The pit operator shall attach to the Form 1014F one complete set of documents in support of the application, which documents shall include, but not be limited to, the following:

1. Written permission from the surface owner allowing a pit to be constructed and used on the subject tract.
2. A lithologic log of test borings, identifying the subsurface materials encountered and the depth at which groundwater was encountered pursuant to (5) (A) (v) of this subsection.
3. A topographic map of the pit site.
4. The appropriate Soil Conservation Service (SCS) soil survey aerial photo and legend.
5. A detailed drawing of the site, with complete construction plans drawn to scale by or under the supervision of a registered professional engineer.
6. A plan for closure of the pit which shall provide for a minimum three feet of soil cover and shall specifically state how all aspects of closure shall be accomplished, including volume and fate of liquids, earthwork to close the pit (including placement of stockpiled topsoil), and revegetation of the site.
7. An itemization of projected hauling, closure, reclamation, maintenance, and monitoring costs.
8. A plan for post-closure maintenance and monitoring which shall address maintenance of the site as well as monitoring and plugging of wells. Exemption from the plugging of monitor wells may be obtained upon written request and approval of the Manager of Pollution Abatement.
9. A plan for operation which shall address the method(s) by which excess water will be disposed.

### 10. FAILURE TO COMPLY WITH EITHER THE TERMS OF THIS PERMIT OR APPLICABLE RULES COULD RESULT IN CESSATION OF APPLICATION, REVOCATION OF THIS PERMIT, AND/OR REMEDIAL WORK.
