Subscribed and sworn to before me this _____ day of _____, _____.

My commission expires: _____ Notary Public _____

LIST MULTIPLE WELLS BELOW:

WELL NAME/NUMBER

Please be reminded that certain conditions or stipulations in OAC 165:10-7-19, 10-7-25, and 10-7-26 must be adhered to. Below are only some of them; please refer to the respective rules for others.

- A. The applicant shall notify the appropriate Field Inspector at least 24 hours prior to the commencement of land application to allow a Commission representative an opportunity to be present.
- B. A representative of the applicant shall be on the land application site at all times during which materials are being applied.
- C. Weather Restrictions:
Land applications, including incorporation, shall not be done:
 - 1. During precipitation events or when precipitation is imminent;
 - 2. When the soil moisture content is at a level such that the soil cannot readily take the addition of materials;
 - 3. When the ground is frozen; or
 - 4. By spray irrigation when the wind velocity is such that even distribution of materials cannot be accomplished or the buffer zones below cannot be maintained (drilling fluids only).

- D. Buffer Zones:
Land application shall not be done within the following buffer zones:
 - 1. 50 feet of a property line boundary;
 - 2. 300 feet of any actively-producing water well used for domestic or irrigation purposes; and
 - 3. One-quarter mile of any actively-producing water well used for municipal purposes.
 - 4. Runoff or Ponding Prohibited:
No runoff or ponding of land applied materials shall be allowed during application.
 - 5. Time Period:
Land application shall be completed within 90 days from the date of the permit. At the end of the 90-day period, the permit shall expire by its own terms.
To renew the permit, the applicant shall resample the fluids and/or cuttings to be land applied, submit a new analysis, and receive a notification of renewal from a Field Operations office.
