

Public Record Summary Information on Underground Storage Tanks (UST's)

Public Record Posted Date: October 3, 2023

Reporting Period: October 1, 2022 to September 30, 2023

General Information

Total Number of UST Facilities:

2,901 Currently in Use Facilities

272 Temporary Closed Facilities

Total Number of UST's:

7,484 Currently in Use Tanks

703 Temporarily Closed Tanks

Tank, facility, and inspection information is based on inspections of all facilities that have underground storage tanks regulated under 40 CFR 280 that satisfy the definition of underground storage tank in 165:25-1-11 and 17 O.S. § 303(40), except those tanks identified in 165:25-1-24 and 17 O.S. § 304 as excluded or deferred.

Summary Information for On-Site Inspections

Total Number of UST facilities Inspected: **3,212**

Inspection Period Dates: **10/1/2022 to 9/30/2023**

Percent Compliant (Technical Compliance Rate): **55%**

The Technical Compliance Rate percentage is the percent of underground storage tank facilities inspected between the inspection period dates described above that were in compliance with EPA and state regulations during the most recent facility inspection. The compliance rate covers spill prevention, overfill, corrosion protection, and release detection compliance.

Summary Information for Releases

Number of Confirmed UST Releases: **83**

Release Reporting Period Dates: **10/1/2022 to 9/30/2023**

Summary Information for Release Source and Cause

SOURCE	CAUSE																	
			Spill		Overfill		Phys/Mech Damage		Corrosion		Install Problem		Other		Unknown			
	#	%	#	%	#	%	#	%	#	%	#	%	#	%	#	%		
Tank	0																	
Piping	4						1	50										
Dispenser	7						1	50										
STP	0																	
Delivery Problem	0																	
Other	1																	
Unknown	71																81	
Spill/Overfill	0																	
Totals	83	100					2	100									81	100

#=number, % = percent of total number

Note: Release, source and cause information is based on reported releases from underground storage tanks regulated under OAC Title 165: Chapter 25 Underground Storage Tanks Effective July 1, 2008. Source and data were compiled from data collected during the initial release reporting as required by 165:25-3-7.

Site specific information regarding UST compliance/facility information and releases can be obtained by registering for an online PST Portal Account. To register, please visit <https://apps.ok.gov/pstportal> and request access to the Public Imaging Portal. All Petroleum Storage Tank Division records are available for viewing and lists of registered tanks and reported releases are available for download.

For any other information, please contact the Petroleum Storage Tank Division at (405) 521-4683.
