Subject: Mission Compatibility Certification Letter / ASNs: 2025-WTW-6361-OE

Dear Mr. Gard,

The Military Aviation and Installation Assurance Siting Clearinghouse (Clearinghouse) has reviewed the Duke Energy wind farm project in Braman, Oklahoma. The Clearinghouse found no adverse impacts to DoD missions in the area and has entered a determination of “No Objection with Provision” via the Federal Aviation Administration’s Obstruction Evaluation / Airport Airspace Analysis system.

Our response to the FAA included a notification that further expansion beyond the current project area may be problematic due to proximity to military training routes or military training areas.

We encourage you to consult DoD well in advance of any expansion. If you have any questions, I can be reached at [robbin.e.beard.civ@mail.mil](mailto:robbin.e.beard.civ@mail.mil).

Sincerely,

Robbin E. Beard  
Acting Executive Director  
Military Aviation and Installation  
Assurance Siting Clearinghouse
