Subject: Mission Compatibility Certification Letter / ASN: 2020-WTW-2421-OE and 141 related structures

Dear Ms. Dobrzynski,

The Military Aviation and Installation Assurance Siting Clearinghouse (The Clearinghouse) has reviewed the Traverse Wind Energy LLC wind project in Weatherford, OK. The Clearinghouse found no adverse impacts to DoD missions in the area and has entered a determination of "No Objection with Provision" via the Federal Aviation Administration's Obstruction Evaluation / Airport Airspace Analysis system.

Our response to the FAA included a notification that further expansion beyond the current project area may be problematic due to proximity to military training routes or military training areas. We also request installation of Night Vision Goggle compatible lighting on all structures associated with this project.

We encourage you to consult DoD well in advance of any expansion. If you have any questions, please contact me at [steven.j.sample4.civ@mail.mil](mailto:steven.j.sample4.civ@mail.mil) or at 703-571-0076.

Sincerely,

A handwritten signature in blue ink, appearing to read "Steven J. Sample", is positioned above the typed name.
