

Ready to talk about mental health and substance use?

25% of American adults suffer from a diagnosable mental health disorder.

Learn effective techniques to discuss mental health and substance use with adult patients in a primary care setting.

Antoine:
Screen for mental health and substance use

Judith:
Collaborate on a treatment plan

The Oklahoma Department of Mental Health and Substance Abuse Services is sponsoring online training programs and resources to address topics including recognizing and responding to mental and emotional distress among youth and adults; improving resilience; and preventing mental and emotional distress responses.

Build skills by engaging in 2 clinical scenarios with virtual patients.

Accredited for 1.5 ANCC CNE
