FY2027-FY2034

Construction Work Plan

Director's Foreword

FFY 2027–2034 EIGHT-YEAR CONSTRUCTION WORK PLAN

Our highway and bridge network serves as the critical infrastructure supporting Oklahoma's economy and daily life, transporting people to work, moving goods to market and connecting communities across the state and beyond. Maintaining this vital system requires careful planning, responsible stewardship and consistent investment.

ODOT updates its Eight-Year Construction Work Plan annually. Developed by district engineers using a data-driven approach, the plan incorporates input from a wide range of stakeholders before receiving final approval from the Transportation Commission. Because the needs of Oklahoma's highway system consistently exceed available resources, each work plan reflects the difficult decisions required to balance competing priorities with current funding to create the greatest positive impacts for the traveling public.

Since 2020, rising construction costs have remained one of the greatest challenges facing transportation agencies nationwide. Across the country, DOTs have experienced nearly 18 years of cost inflation in just the last four years. That significant loss of purchasing power has affected every aspect of our operations. We have responded by reassessing investment strategies and updating project estimates to reflect today's costs.

Those pressures mean the 2027-2034 work plan limits new projects, even as we recognize the many roads and bridges that need attention. Several projects included in last year's plan also had to move beyond the eight-year window. Those projects remain important priorities, and ODOT will continue developing them so they are ready to advance when funding becomes available.

The limitations of the current funding environment also underscore the need for a broader conversation about transportation funding. No new one-time funds were appropriated by the Legislature for ODOT this year, and the one-time RETRO funding provided in previous years has now been fully designated. It is critical that we continue to examine sustainable, reliable and increasing funding sources in order to maintain Oklahoma's transportation system and prevent the state from falling further behind its needs.

Here's what the 2027–2034 plan delivers:

- 708 miles of rural two-lane highway improvements
- 2,975 lane-miles of pavement in fair or poor condition addressed
- 188 at-risk bridges repaired or replaced
- 10 structurally deficient bridges addressed
- 1,229 projects totaling more than $7.3 billion

Significant projects addressed in this plan include the I-40 bridges over the Arkansas River in Muskogee County; I-35 and SH-74 interchange modifications in Goldsby; I-40 interchange modification in Elk City; widening I-35 between the Red River and Springer; further improvements at the I-35 and I-240 interchange in Oklahoma City and a new interchange at US-75 and 106th St. N. in Tulsa.

This plan reflects a continued focus on improving transportation safety as a top priority, maintaining our current transportation system, addressing traffic congestion, improving pavement conditions and statewide connectivity over the next decade. It is a realistic roadmap that balances urgent needs with available resources, while keeping the future in focus.

On behalf of Governor Stitt, ODOT and our many partners, I am proud to present the FFY 2027–2034 Eight-Year Construction Work Plan.

Budget and Balancing the Construction Work Plan

CONSTRUCTION WORK PLAN – FFY 2027 THROUGH FFY 2034

Each year, ODOT builds the Eight-Year Construction Work Plan on a simple but tough reality: our transportation needs are greater than the funding available. To create a balanced plan, we project both state and federal revenues, then match them against the projects that must be delivered.

How we distribute funds

Once total funding is projected, it is divided across ODOT's eight field districts using a formula based on:

- Population
- Highway miles
- Past program history

THE BALANCING PROCESS

Creating a balanced plan is a team effort:

- **Field District Engineers** identify local needs and priorities based on road and bridge conditions, traffic, safety history and input from Transportation Commissioners.
- **Multi-Modal and Planning Division** coordinates with the Metropolitan Planning Organizations, tribal governments and local officials to ensure long-term planning and community priorities are considered.
- **Project Management Division** validates project scopes, schedules and budgets, and helps adjust them as more details develop.
- **Senior Leadership** – the Director, Deputy Director, Chief Engineer, Director of Design, Director of Operations, Director of Project Delivery and the Director of Finance – work together to balance the statewide plan within funding limits.

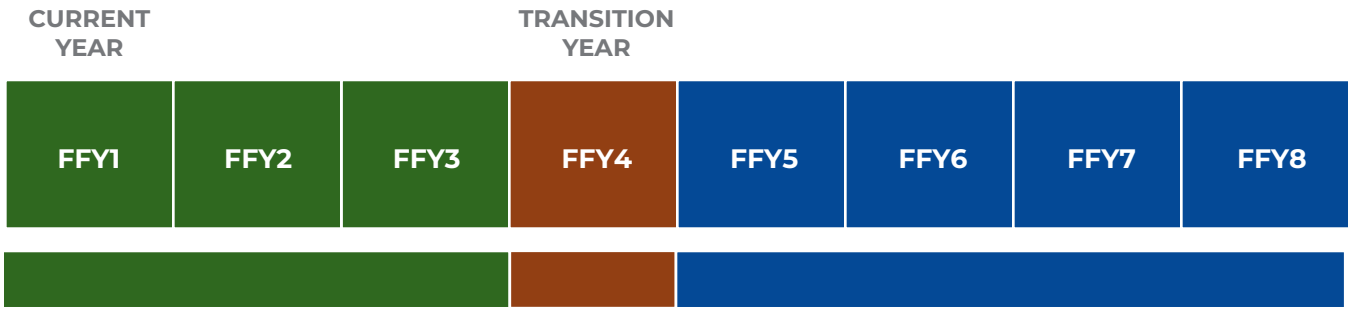

Additional considerations

Because funding and project readiness can shift from year to year, the plan must stay flexible. Adjustments are made to account for:

- Debt service on Corridor Plan projects
- The timing of federal funding categories
- The ability of each district to deliver projects on schedule

Through this process, ODOT ensures that every dollar is accounted for, priorities are respected and the plan reflects a fair and balanced investment across Oklahoma.

Construction Work Plan Management Process

NON-FLEXIBLE

- Projects are “locked”
- Only modified through formal program revision process
- Must remain balanced
- Evaluated yearly (July - August) to prepare for inclusion of extended program

LOW FLEXIBILITY

- Potential projects to be considered for current program “lock”
- Refined project scope/ schedule/budget
- Prioritized by year
- May set minimum criteria for inclusion
- Must remain balanced
- Evaluated yearly (July - August) to prepare for inclusion of extended program

MODERATE FLEXIBILITY

- Varying levels of project development
- Flexible scope/schedule/ budget
- Prioritized by year
- Must remain balanced
- Any project can be advanced for consideration in the transition year
- Evaluated yearly (July - August) to prepare for inclusion of unscheduled projects

COUNTY	POPULATION
Adair	19,495
Cherokee	47,078
Haskel	11,561
McIntosh	18,941
Muskogee	66,339
Okmulgee	36,706
Sequoyah	39,281
Wagoner	80,981

Counties: **8** | Total Population: **320,382**

District One's region in East-central Oklahoma is both diverse and vital featuring some of Oklahoma's premier outdoor destinations, including Lake Eufaula, Fort Gibson, Tenkiller State Park and the Illinois River. The lowlands support cattle production and agriculture, with corn, soybeans, and hay among the top crops. To the east, the terrain shifts to rugged mountains, providing opportunities for recreation and tourism.

Total On-System Lane Miles: **2,915.23 mi.**

Rural Two-Lane Highway Miles with Deficient Shoulders: **411.30 mi.**

Total On-System Bridges: **697**

On-System At-Risk Bridges: **151**

On-System Structurally Deficient Bridges: **2**

On-System Pavement Conditions: **36.92% Good | 61.19% Fair | 1.88% Poor**

Primary Corridors:

- I-40
- US-75
- US-69

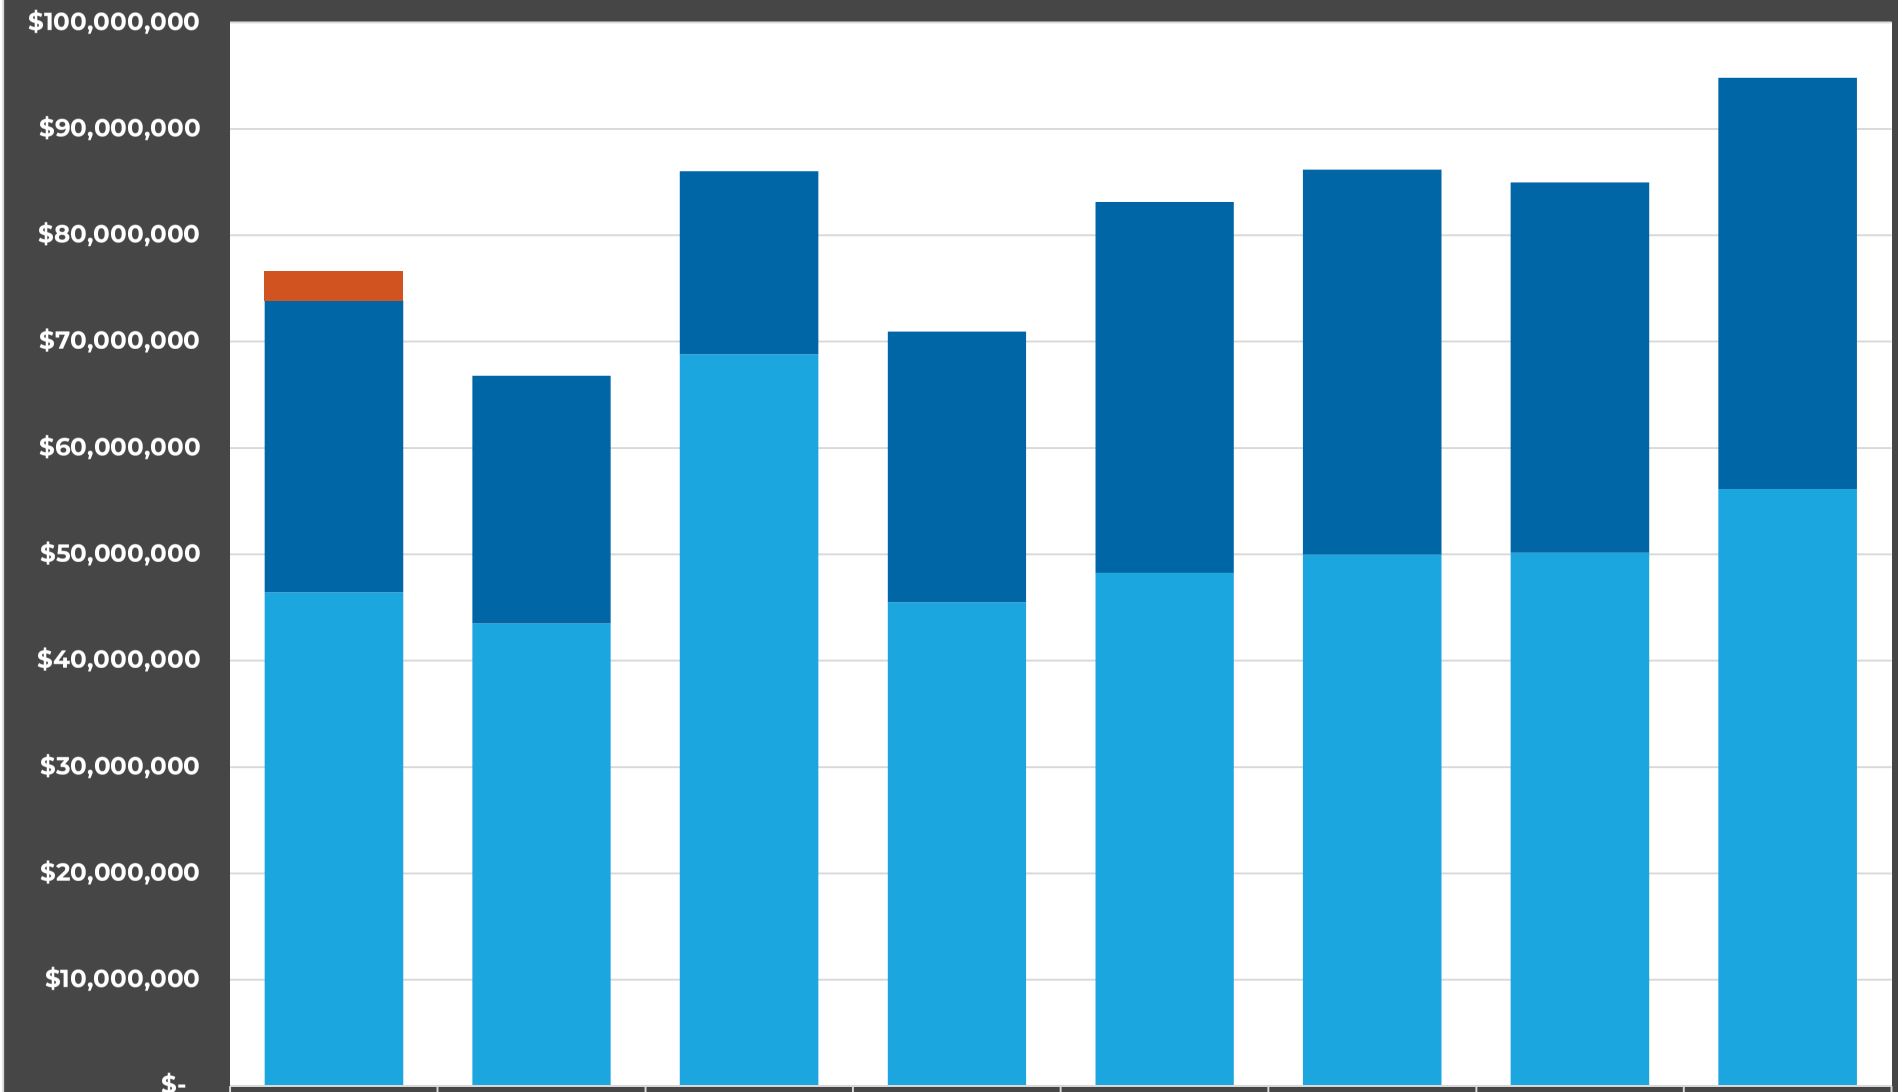

Major Projects:

- SH-51 | Connection to Muskogee Turnpike between Broken Arrow and Coweta
- I-40 | Bridge replacement over the Arkansas River
- SH-10 | Safety improvement at Hanging Rock

Data as reported in the Oklahoma Department of Transportation's 2027-2034 8-Year Construction Work Plan (CWP) and 2027-2030 Asset Preservation Plan (APP).

DISTRICT 2

FY2027-FY2034

Construction Work Plan

District 2

District Engineer:
Anthony Echelle

COUNTY	POPULATION
Atoka	14,143
Bryan	46,067
Choctaw	14,204
Latimer	9,444
Leflore	48,129
McCurtain	30,814
Marshall	15,312
Pittsburg	43,773
Pushmataha	10,812

Counties: **9** | Total Population: **232,698**

District Two in Southeastern Oklahoma is mainly rural in nature with agriculture, timber and tourism being the staples of the economy. With many lakes and mountains across this region, there are several locations focused on tourism and recreation with significant development projects underway. Some of the largest employers to note are the Choctaw Nation and the McAlester Army Ammunition Plant.

Total On-System Lane Miles: **3,862.39 mi.**

Rural Two-Lane Highway Miles with Deficient Shoulders: **670.13 mi.**

Total On-System Bridges: **871**

On-System At-Risk Bridges: **137**

On-System Structurally Deficient Bridges: **5**

On-System Pavement Conditions: **32.01% Good | 66.50% Fair | 1.47% Poor**

Primary Corridors:

- US-69
- US-70
- US-259

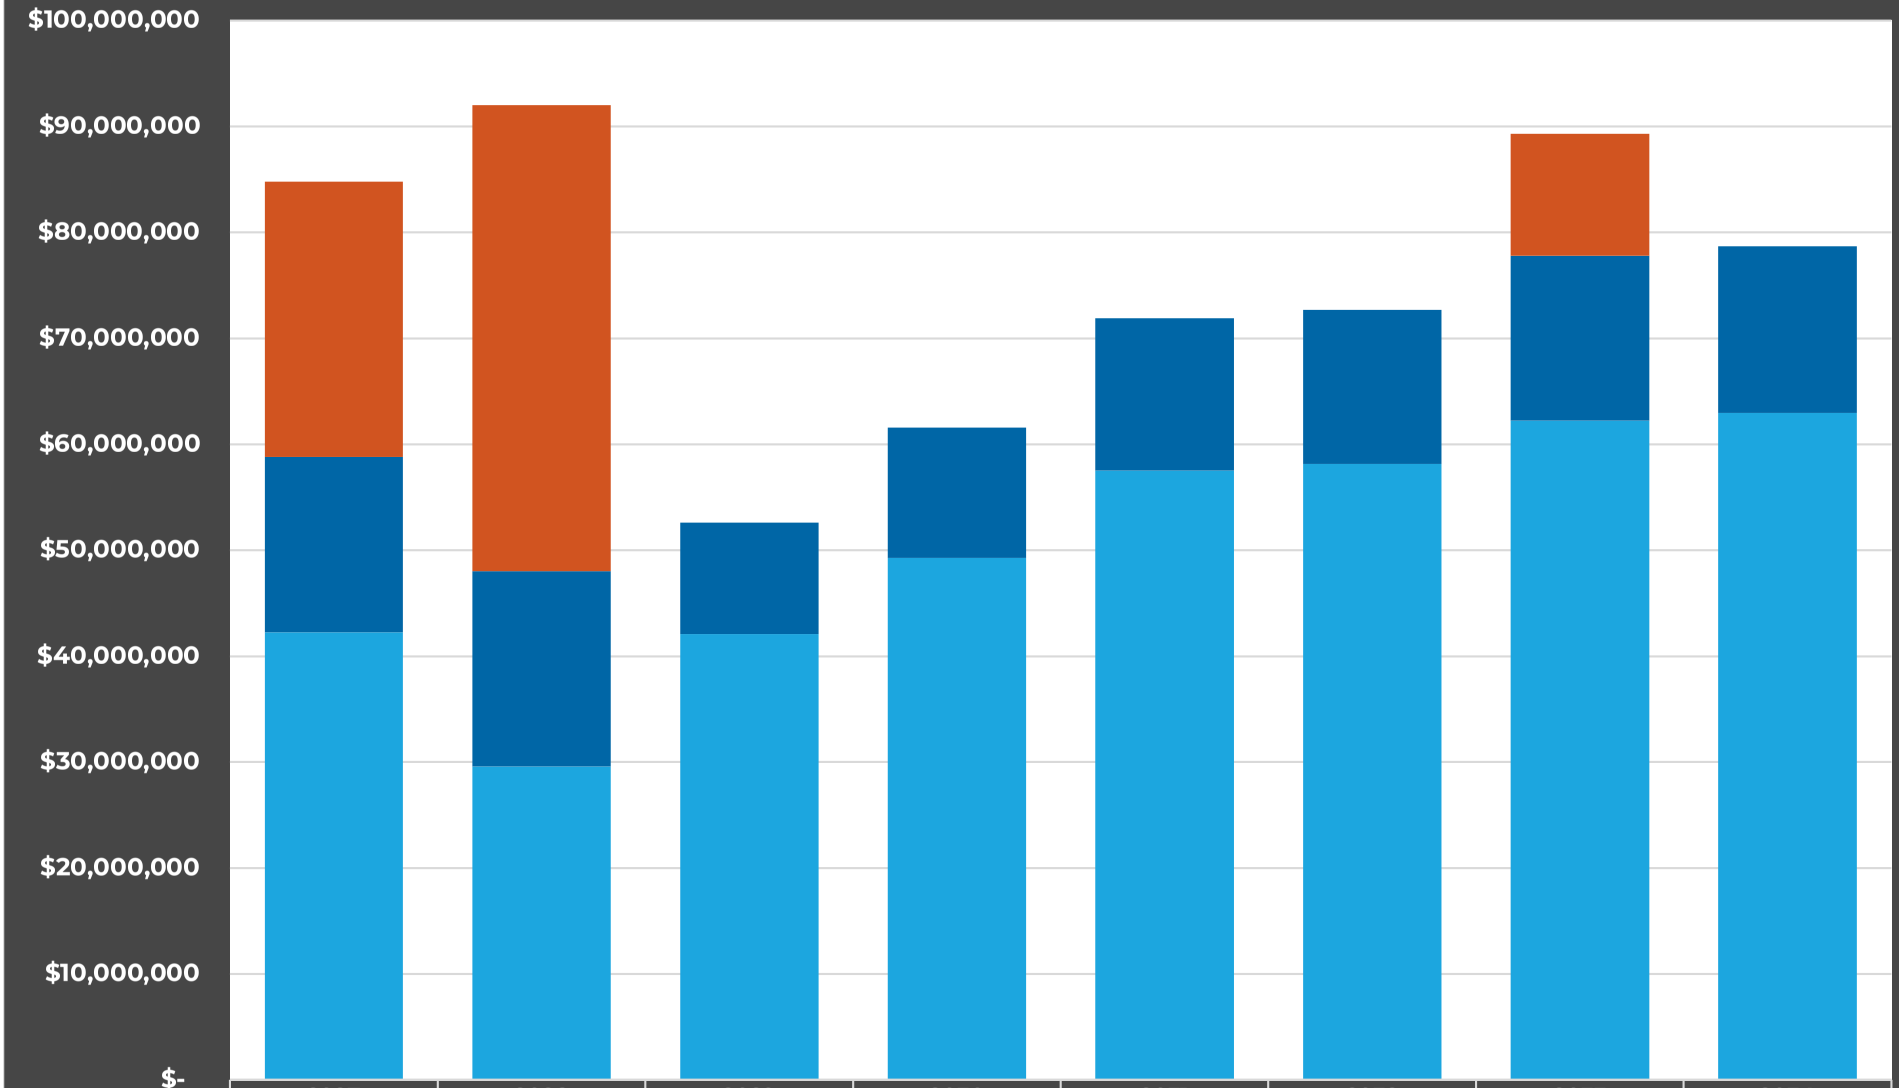

Major Projects:

- US-69 | Widening in Tushka, Stringtown, and Savanna
- US-259 | Widening from Broken Bow to Hochatown
- SH-3 | Bridge replacement over Boktuklo Creek

Data as reported in the Oklahoma Department of Transportation's 2027-2034 8-Year Construction Work Plan (CWP) and 2027-2030 Asset Preservation Plan (APP).

DISTRICT 3

FY2027-FY2034

Construction Work Plan

District 3

District Engineer:
Ron Brown

COUNTY	POPULATION
Cleveland	295,528
Coal	5,266
Garvin	25,656
Hughes	13,367
Johnston	10,272
Lincoln	33,458
McClain	41,662
Okfuskee	11,310
Pontotoc	38,065
Pottawatomie	72,454
Seminole	23,556

Counties: **11** | Total Population: **570,594**

District Three spans South-central Oklahoma and features diverse topography such as the Arbuckle Mountains and Red Bed Plains to the south. This region has seen significant development near many of its lake and mountain tourist attractions. While the University of Oklahoma Norman Campus and Norman Regional Hospital are the two largest employers, many economies in District Three are based on agriculture and other supporting industries.

Total On-System Lane Miles: **4,263.79 mi.**

Rural Two-Lane Highway Miles with Deficient Shoulders: **866.37 mi.**

Total On-System Bridges: **929**

On-System At-Risk Bridges: **89**

On-System Structurally Deficient Bridges: **11**

On-System Pavement Conditions: **39.68% Good | 59.82% Fair | 0.37% Poor**

Primary Corridors:

- I-35
- I-40
- US-377/SH-99
- SH-9
- SH-76

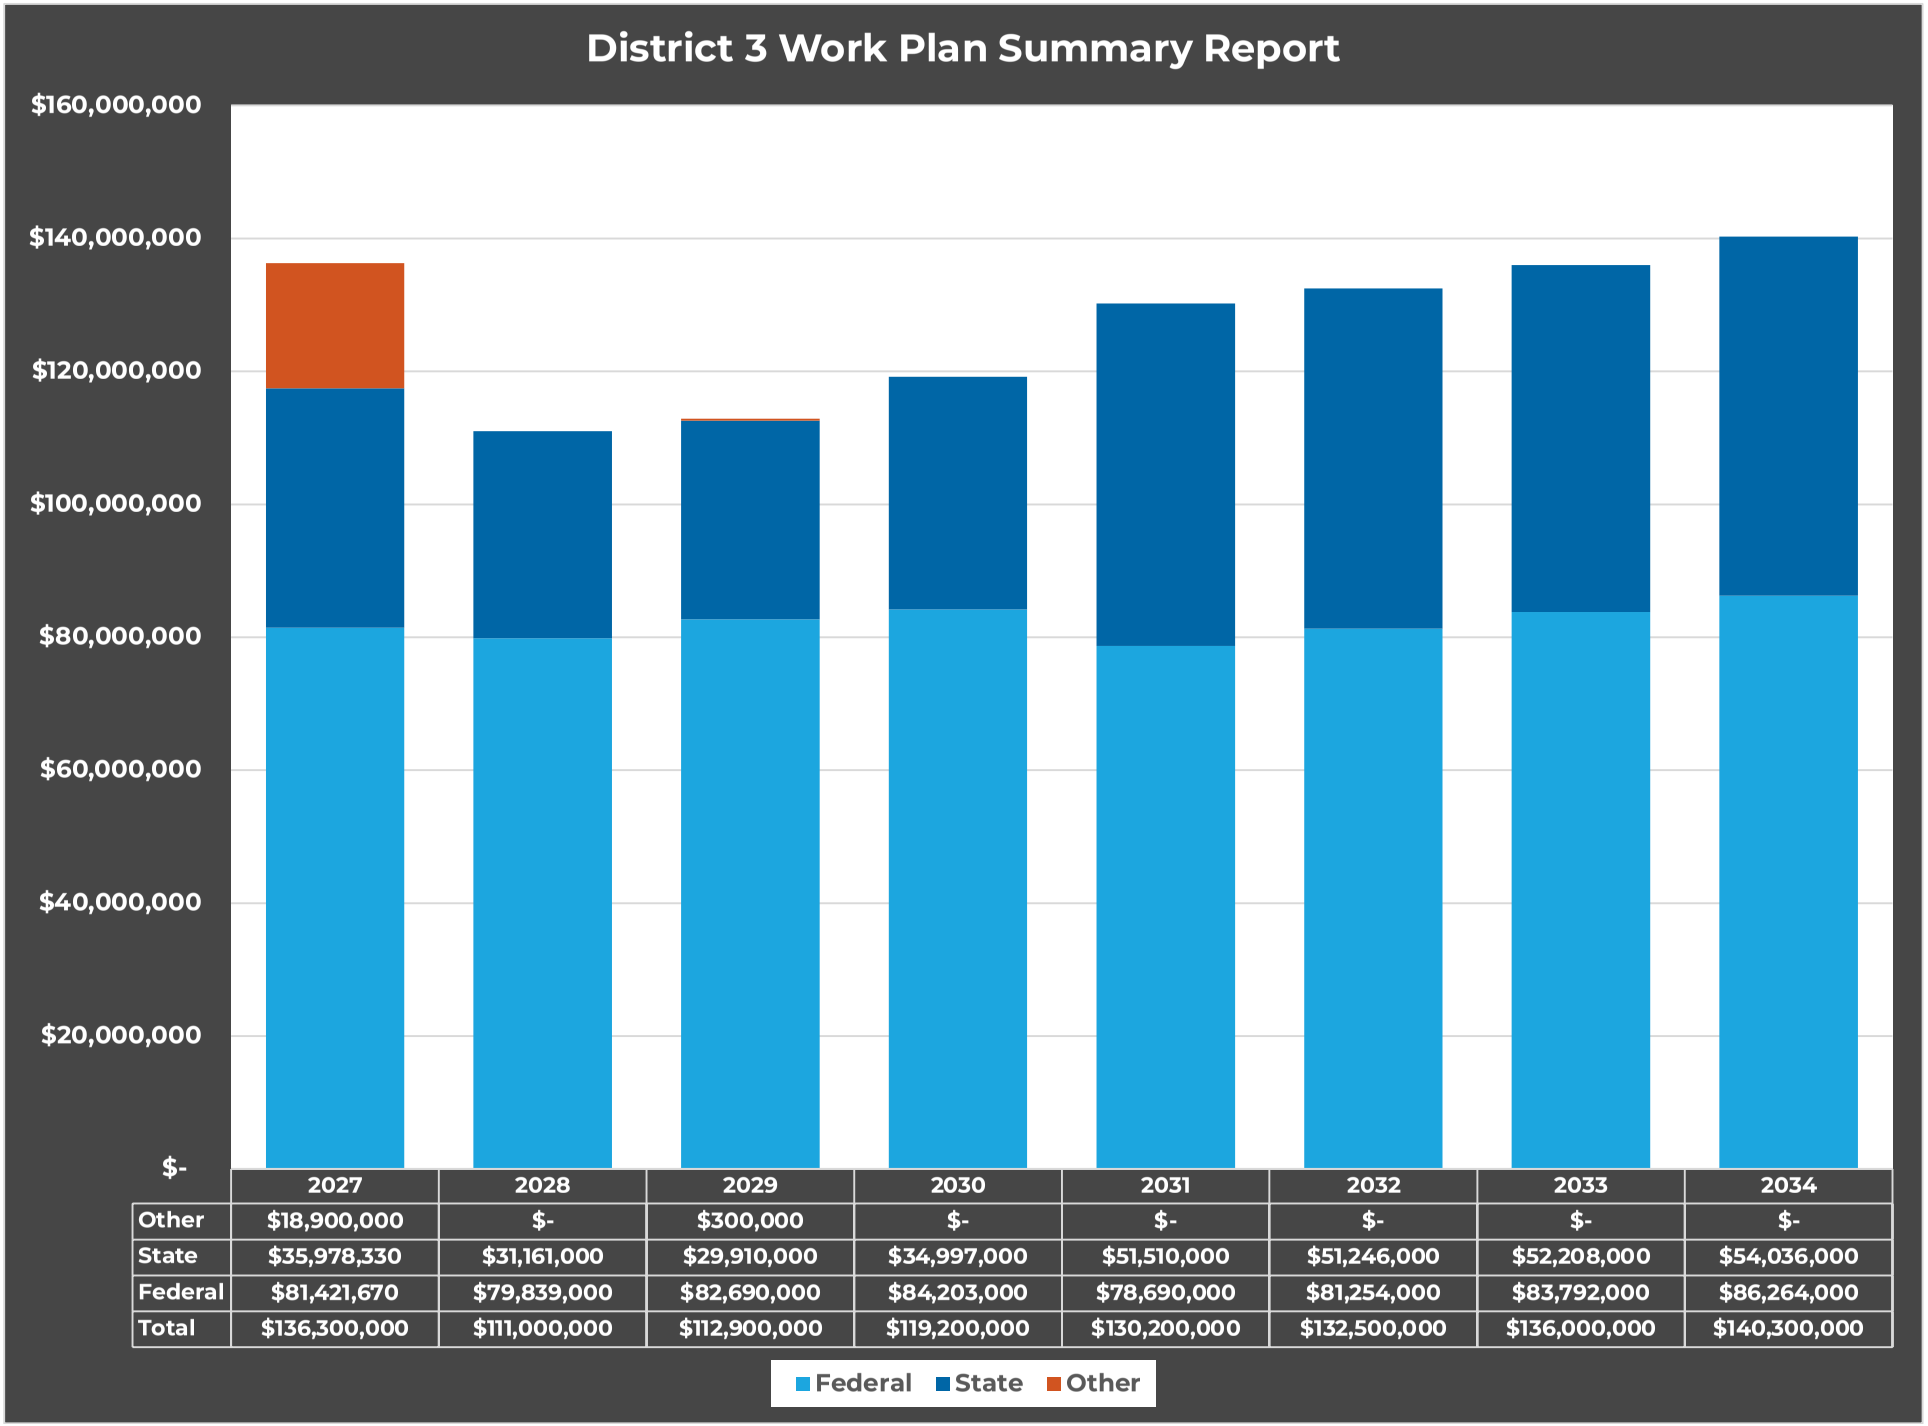

Major Projects:

- SH-74 | Bridge replacement and interchange modification at I-35 in Goldsby
- SH-99 | Capacity increase through Bowlegs
- SH-27 | Shoulder widening from SH-9 near Wetumka

Data as reported in the Oklahoma Department of Transportation's 2027-2034 8-Year Construction Work Plan (CWP) and 2027-2030 Asset Preservation Plan (APP).

Construction Work Plan

District 4

District Engineer:
Matthew Mitchell

COUNTY	POPULATION
Canadian	154,405
Garfield	62,846
Grant	4,169
Kay	43,700
Kingfisher	15,184
Logan	49,555
Noble	10,924
Oklahoma	796,292
Payne	81,646

Counties: **9** | Total Population: **1,218,721**

District Four is located in North-central Oklahoma between the Oklahoma City Metro and the Kansas state line. This region's topography varies from flat farmland to rolling hills and features several lakes and rivers. Serving nearly one-third of the state's population, District Four is responsible for the greatest amount of interstate miles (I-35, I-40, and I-44) and the highest count of on-system bridges compared to the other districts.

Total On-System Lane Miles: **4,268.03 mi.**

Rural Two-Lane Highway Miles with Deficient Shoulders: **505.37 mi.**

Total On-System Bridges: **1,107**

On-System At-Risk Bridges: **233**

On-System Structurally Deficient Bridges: **8**

On-System Pavement Conditions: **36.16% Good | 61.06% Fair | 2.62% Poor**

Primary Corridors:

- I-35
- I-40
- I-44
- SH-11

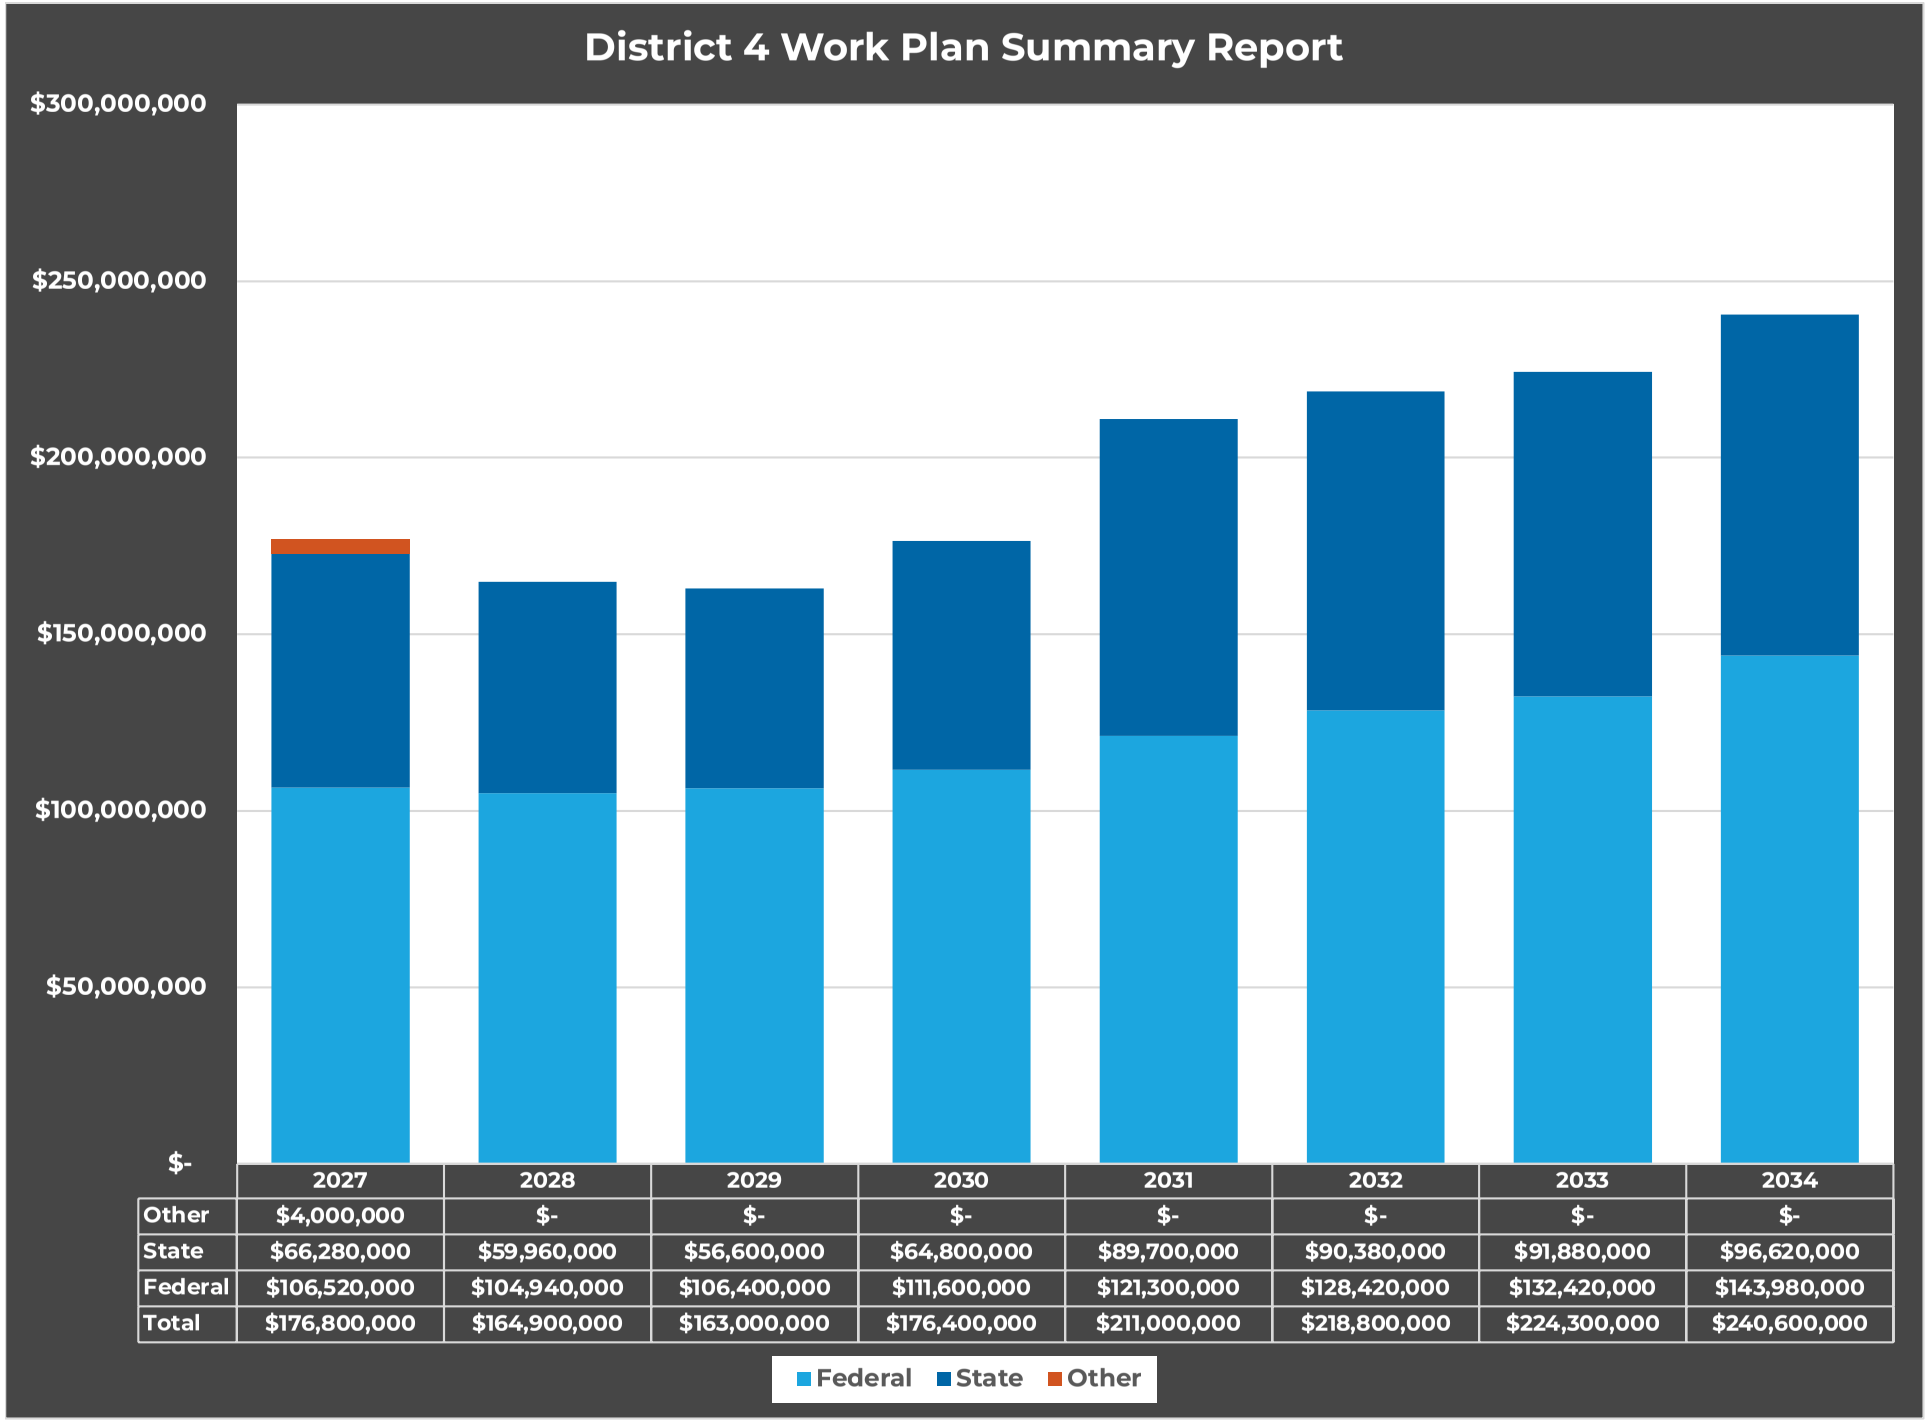

Major Projects:

- I-35 I-240 | Interchange modification
- I-35 | Frontage road modifications in Edmond
- SH-74 | Shoulder widening through Garber

Data as reported in the Oklahoma Department of Transportation's 2027-2034 8-Year Construction Work Plan (CWP) and 2027-2030 Asset Preservation Plan (APP).

DISTRICT 5

FY2027-FY2034

Construction Work Plan

District 5

District Engineer:
Will Snipes

COUNTY	POPULATION
Beckham	22,410
Blaine	8,735
Custer	28,513
Dewey	4,484
Greer	5,491
Harmon	2,488
Jackson	24,785
Kiowa	8,509
Roger Mills	3,442
Tillman	6,968
Washita	10,924

Counties: **11** | Total Population: **126,749**

District Five in Western Oklahoma has a diverse topography that includes rolling hills, mountains and flatlands. State parks in this area include Foss, Roman Nose, Quartz Mountain, Tom Steed Reservoir located north of Snyder and Mountain Park and the Black Kettle National Grasslands. District Five is home to various industries including oil and gas, agriculture, manufacturing and wind turbine energy, as well as Altus Air Force Base.

Total On-System Lane Miles: **3,971.97 mi.**

Rural Two-Lane Highway Miles with Deficient Shoulders: **764.31 mi.**

Total On-System Bridges: **785**

On-System At-Risk Bridges: **69**

On-System Structurally Deficient Bridges: **5**

On-System Pavement Conditions: **47.25% Good | 52.24% Fair | 0.24% Poor**

Primary Corridors:

- I-40
- US-270
- US-283
- US-6

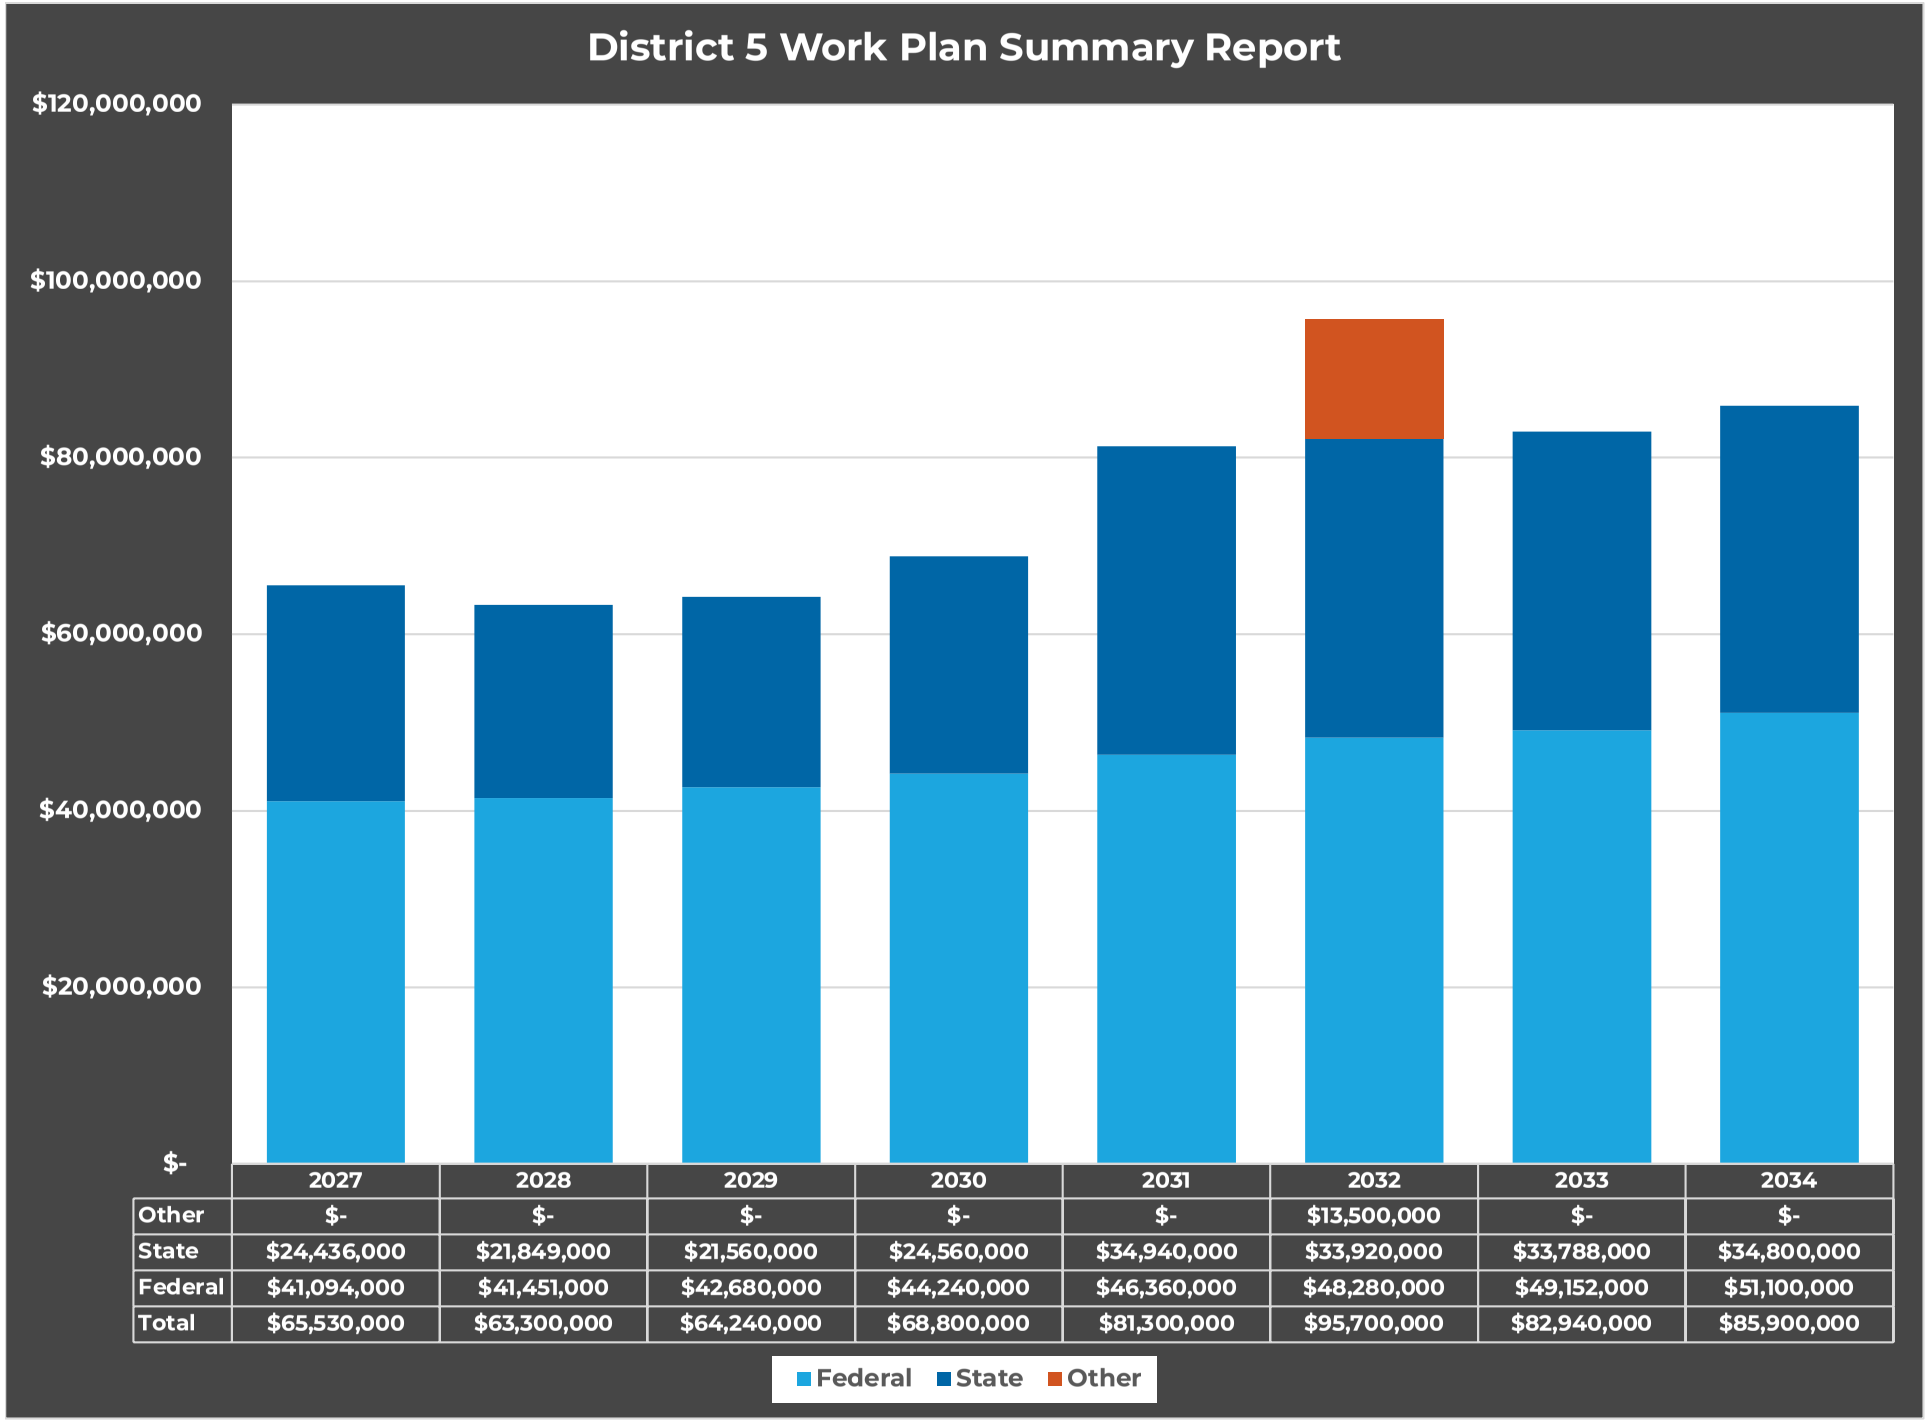

Major Projects:

- I-40 | Pavement and bridge rehabilitation in Caddo County
- I-40 | Interchange modification in Elk City
- SH-44 | Shoulder widening south of Quartz Mountain State Park

Data as reported in the Oklahoma Department of Transportation's 2027-2034 8-Year Construction Work Plan (CWP) and 2027-2030 Asset Preservation Plan (APP).

DISTRICT 6

FY2027-FY2034

Construction Work Plan

District 6

District Engineer:
Jon Logan

COUNTY	POPULATION
Alfalfa	5,699
Beaver	5,049
Cimarron	2,296
Ellis	3,749
Harper	3,272
Major	7,782
Texas	21,384
Woods	8,624
Woodward	20,470

Counties: **9** | Total Population: **78,325**

District Six has notable geographic features in Northwestern Oklahoma that include Black Mesa, Gloss Mountain State Park, Alabaster Caverns and the Little Sahara Sand Dunes. This region experiences a gamut of challenging weather, from heavy snow accumulations to extreme summer heat. With a lack of local aggregate sources and contractor limitations, District Six also contends with significantly higher material costs and higher bid prices on projects.

Total On-System Lane Miles: **3,296.33 mi.**

Rural Two-Lane Highway Miles with Deficient Shoulders: **716.74 mi.**

Total On-System Bridges: **479**

On-System At-Risk Bridges: **39**

On-System Structurally Deficient Bridges: **1**

On-System Pavement Conditions: **32.85% Good | 65.91% Fair | 0.86% Poor**

Primary Corridors:

- US-270/US-283/SH-3
  The Northwest Passage
- US-54
- US-412
- US-287
- US-64

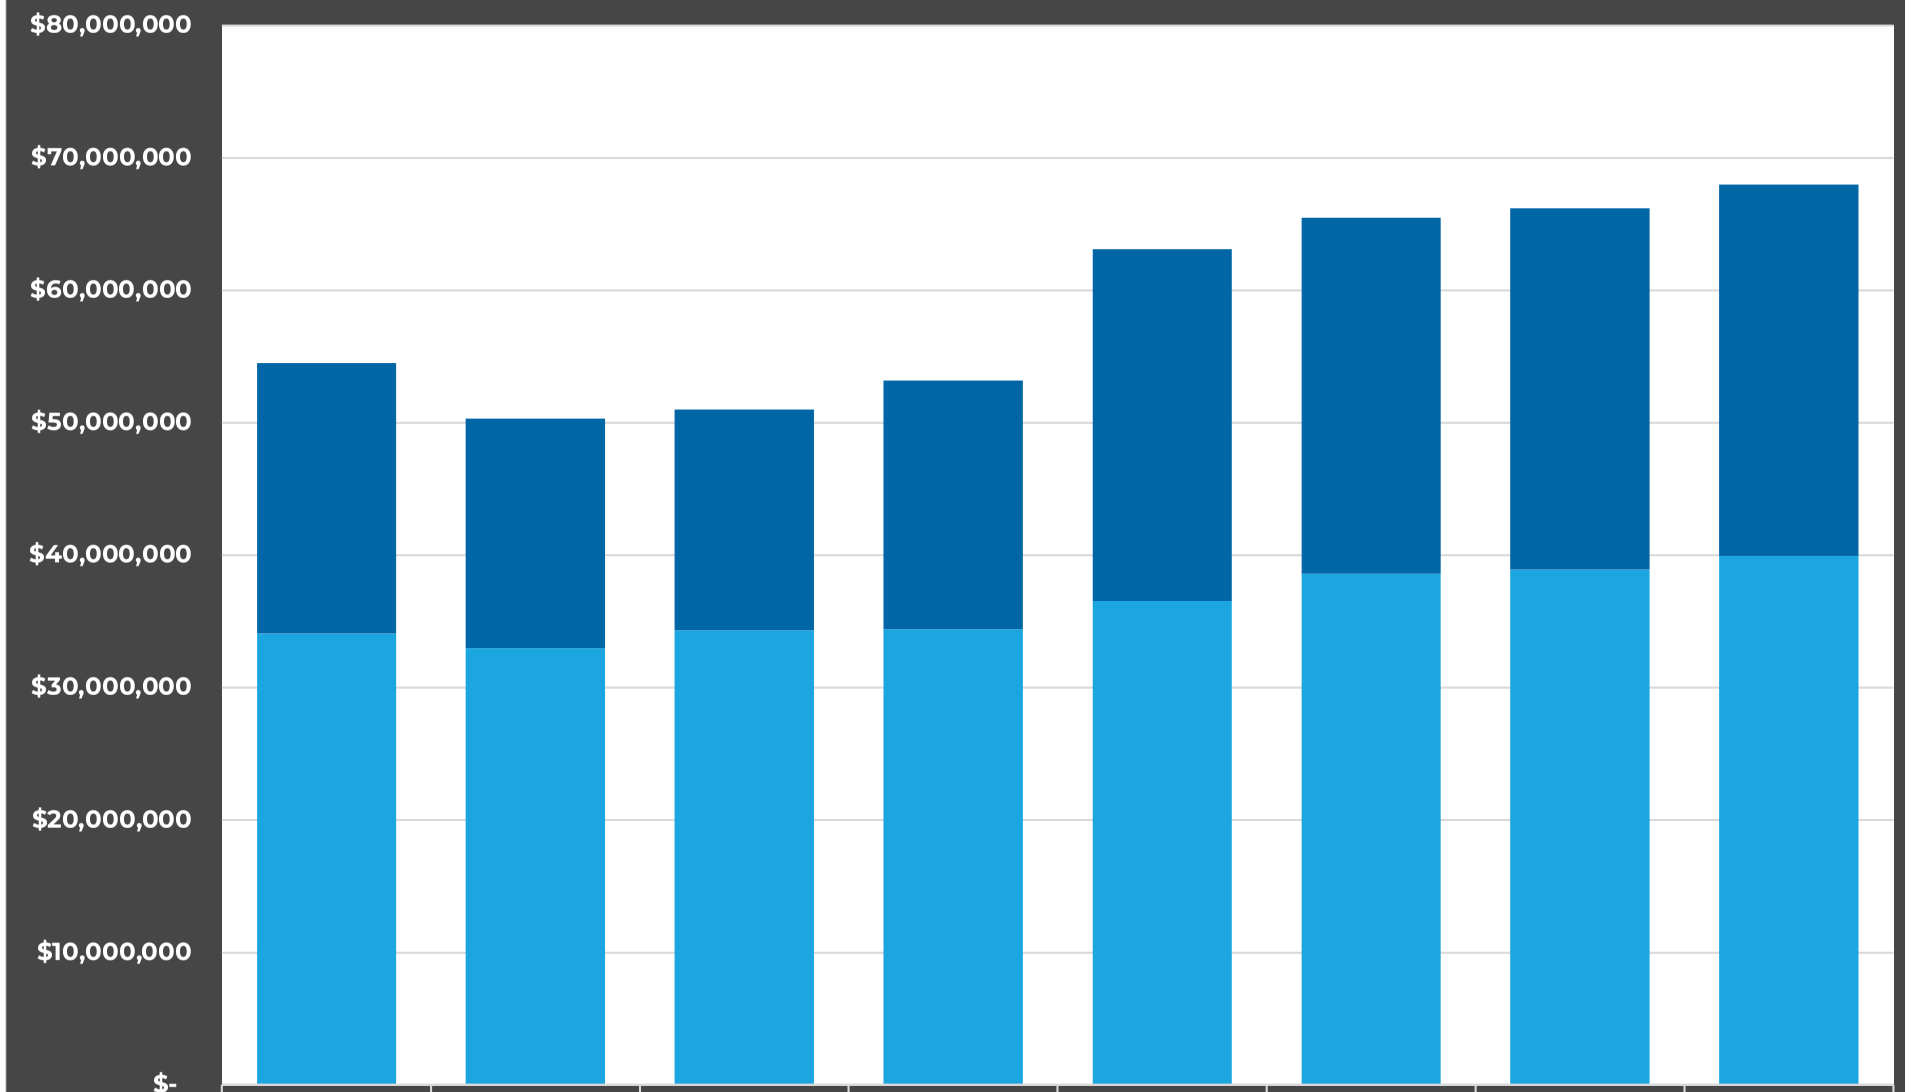

Major Projects:

- US-64 | Shoulder widening between US-64 and Jet
- SH-34 | Pavement reconstruction and railroad crossing in Woodward
- SH-136 | Shoulder widening north of Guymon

Data as reported in the Oklahoma Department of Transportation's 2027-2034 8-Year Construction Work Plan (CWP) and 2027-2030 Asset Preservation Plan (APP).

Construction Work Plan

District 7

District Engineer:
Jay Earp

COUNTY	POPULATION
Caddo	26,945
Carter	48,003
Comanche	121,125
Cotton	5,527
Grady	54,795
Jefferson	5,337
Love	10,146
Murray	13,904
Stephens	42,848

Counties: **9** | Total Population: **328,630**

District Seven is in Southcentral Oklahoma and has a wide variety of geographic features including the Arbuckle Mountains, Wichita Mountains, Lake Murray, Lake of the Arbuckles, portions of Lake Texoma and vast amounts of pasture and farmland. This district has three major rivers, the Red, Washita and South Canadian. Some of the larger towns in the district include Anadarko, Chickasha, Lawton, Duncan and Ardmore.

Total On-System Lane Miles: **3,509.09 mi.**

Rural Two-Lane Highway Miles with Deficient Shoulders: **561.82 mi.**

Total On-System Bridges: **782**

On-System At-Risk Bridges: **91**

On-System Structurally Deficient Bridges: **1**

On-System Pavement Conditions: **42.83% Good | 56.91% Fair | 0.25% Poor**

Primary Corridors:

- I-35
- I-44
- US-81
- US-62
- US-70

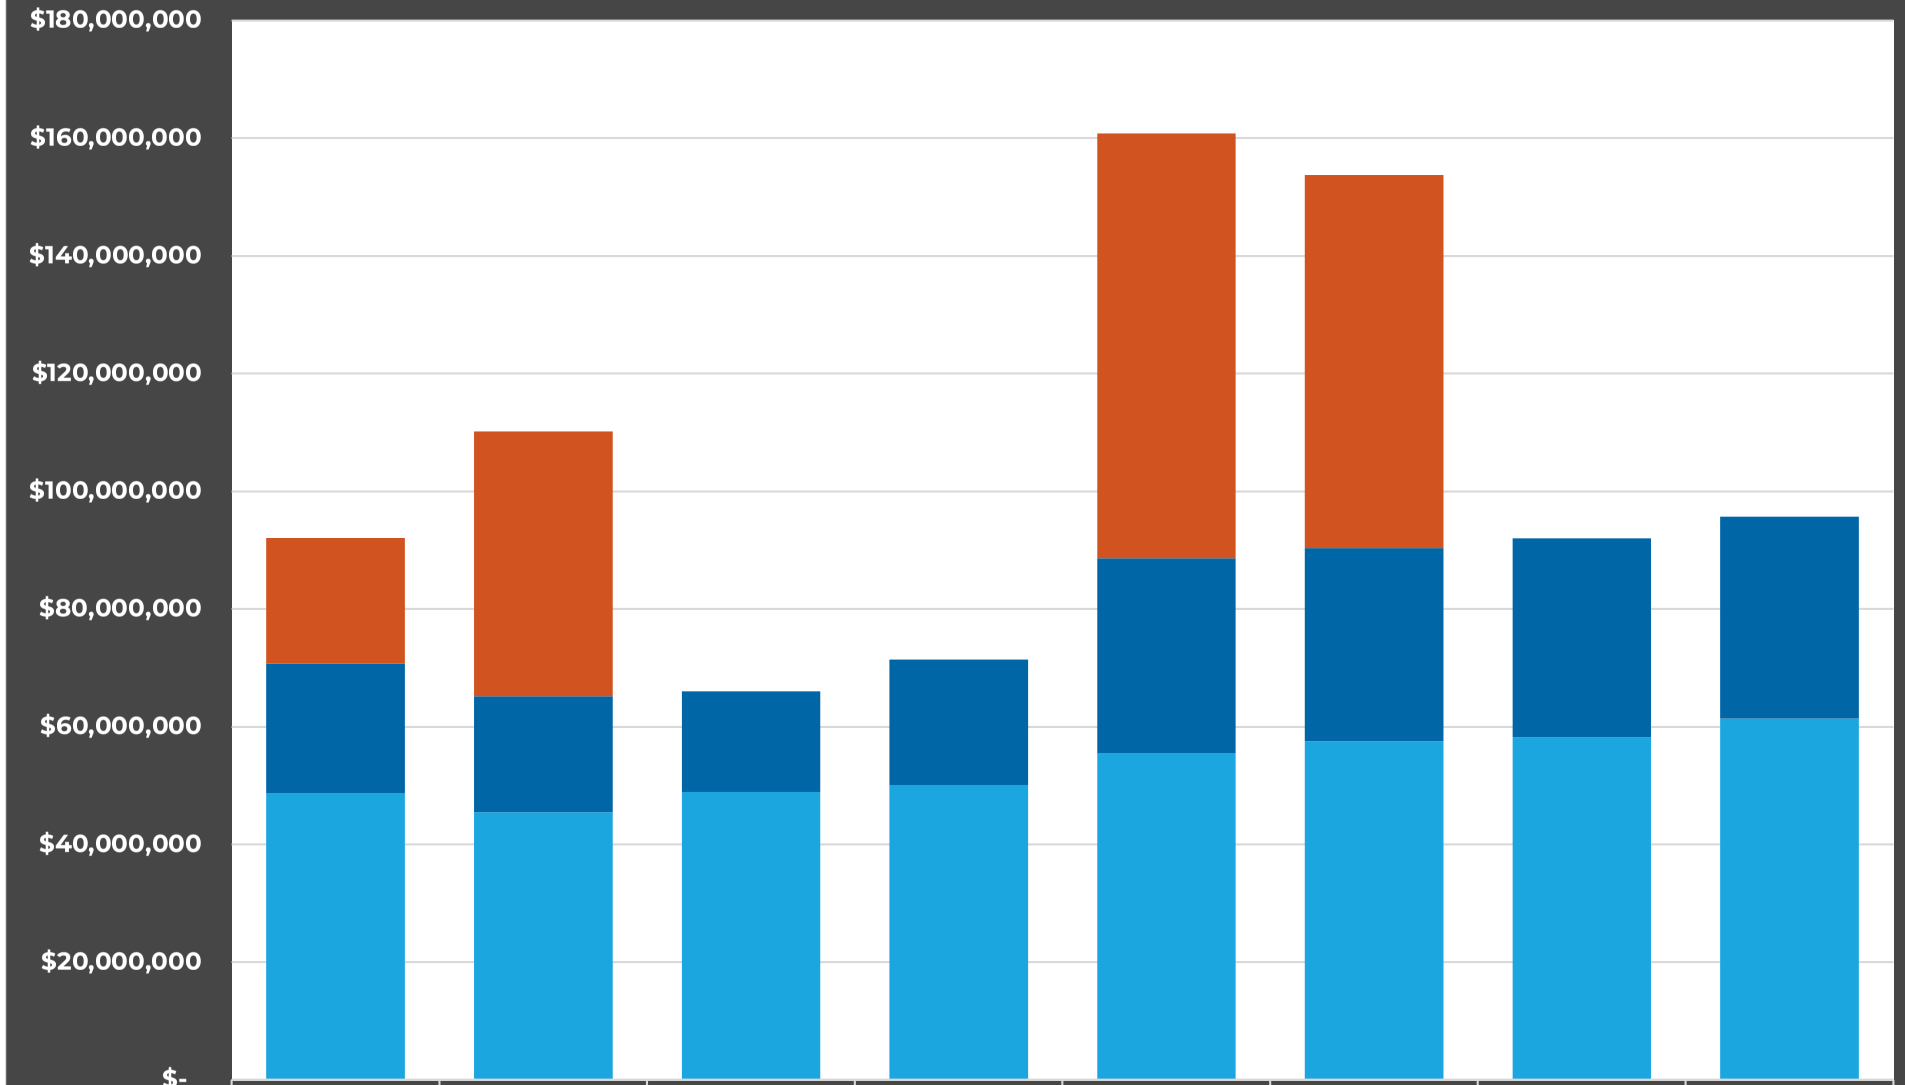

Major Projects:

- I-35 | Capacity increase from Texas State Line to mile marker 40
- US-81 | Chickasha Bypass
- US-277 | Shoulder widening east of Cement

Data as reported in the Oklahoma Department of Transportation's 2027-2034 8-Year Construction Work Plan (CWP) and 2027-2030 Asset Preservation Plan (APP).

FY2027-FY2034

Construction Work Plan

District 8

District Engineer:
Trapper Parks

COUNTY	POPULATION
Craig	14,107
Creek	71,754
Delaware	40,397
Mayes	39,046
Nowata	9,320
Osage	45,818
Ottawa	30,285
Pawnee	15,553
Rogers	95,240
Tulsa	669,279
Washington	52,455

Counties: **11** | Total Population: **1,083,254**

District Eight in Northeastern Oklahoma encompasses a diverse landscape, from expansive grasslands to timber-covered hills featuring numerous lakes, rivers and creeks. With remote rural areas and a major metropolitan center, there are unique challenges in highway design and construction due to the region's complex geology and terrain. District Eight is committed to collaborating on these challenges and delivering transportation projects that not only enhance the condition of roads and bridges but also advance safety for all users.

Total On-System Lane Miles: **4,459.61 mi.**

Rural Two-Lane Highway Miles with Deficient Shoulders: **616.17 mi.**

Total On-System Bridges: **1,098**

On-System At-Risk Bridges: **130**

On-System Structurally Deficient Bridges: **4**

On-System Pavement Conditions: **31.36% Good | 64.88% Fair | 3.67% Poor**

Primary Corridors:

- US-412
- US-69
- US-75
- I-44
- SH-66
- US-169

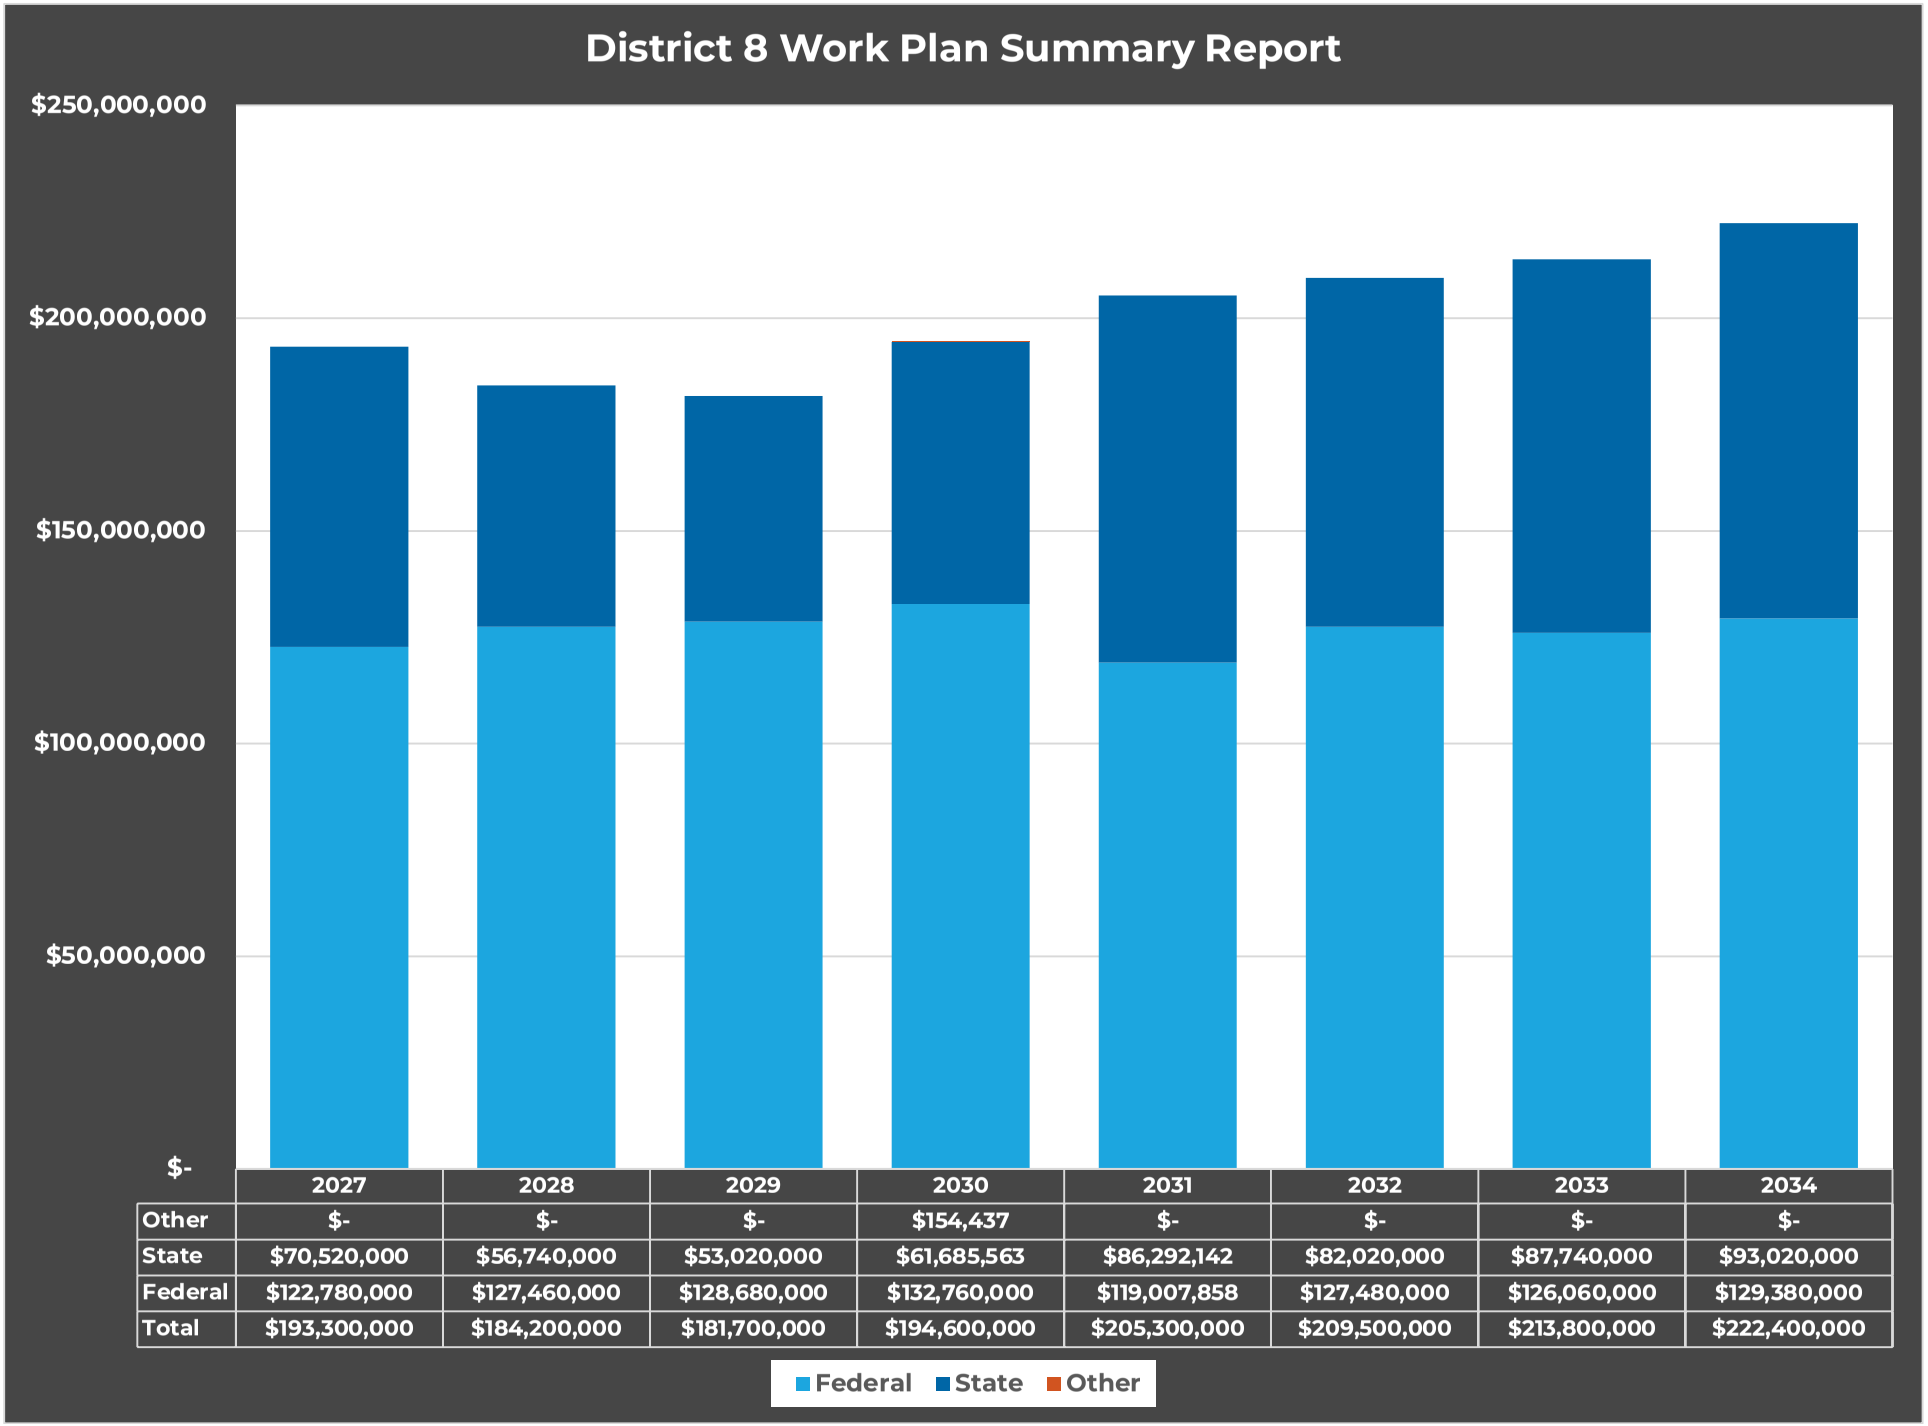

Major Projects:

- SH-151 | Pavement reconstruction between SH-51 and US-64
- US-75 | New interchange at 106th St N in Tulsa
- SH-10 | Capacity increase in Grove

Data as reported in the Oklahoma Department of Transportation's 2027-2034 8-Year Construction Work Plan (CWP) and 2027-2030 Asset Preservation Plan (APP).
