

FREQUENTLY ASKED QUESTIONS (FAQs)

IMPROVEMENTS SH-10 IN GROVE FROM THE US-59 INTERSECTION AND EXTENDING EAST TO SH-25 DELAWARE COUNTY J/Ps 33827(04) & 32699(04)

How will I know if ODOT plans to acquire my property or part of my property?

Right now, no relocations are anticipated. An ODOT representative will reach out to you. The process will start in 2025, but this may change based on funding.

When will construction start?

Construction is set to begin in 2028. The date relies on federal funding and could change.

How will the project be built?

The road will stay open while the construction is happening. They will work in stages to keep traffic moving.

Will I still be able to get to my home, business, or property during construction?

Yes, you'll still be able to get to your property. Sometimes, temporary drives might be needed until they are fixed.

Will noise walls be included in the project?

No noise walls will be constructed.

A study looked at how noise from traffic might affect houses, churches, a sports complex, and commercial establishments. The current traffic doesn't cause any noise problems based on the noise limits set. In the future one place might get close to the noise limit of 67 dB, but the noise increase will be small (3.2 dB).

ODOT looked into noise walls to reduce traffic noise. However, since there is just one residence affected and people need to access their property, a large noise wall would not work. Therefore, no noise walls are recommended.

What happens next? What is the project schedule?

You can share your thoughts on the project until May 13, 2025. ODOT will start buying land and moving utilities in 2025. Construction is scheduled to start in 2028.
