

FREQUENTLY ASKED QUESTIONS (FAQs)

**I-40: EB & WB BRIDGES OVER MACARTHUR BLVD. 3.0 MIS E OF THE CANADIAN C/L &
I-40: EB & WB BRIDGES OVER MERIDIAN AVE. 4.0 MIS E OF THE CANADIAN C/L
OKLAHOMA COUNTY
J/Ps 29850(04) & 29851(04)**

How will I know if ODOT plans to acquire my property or part of my property?

Right now, no residential or business relocations are anticipated. Some new right-of-way may be needed to build the project. If you are affected, an ODOT representative will reach out to you. The process will start in 2030, but this may change based on funding.

Click on the Property Rights link under Downloads for more information.

What if ODOT needs temporary access for construction or maintenance?

ODOT may need to temporarily use property during construction. You will still own the property. If this affects you, a representative from ODOT will contact you. The process will start in 2030, but this may change based on funding.

When will construction start?

Construction is set to begin in 2033. The date relies on federal funding and could change.

How will the project affect my commute?

Due to the size of the project, travelers should anticipate delays, longer drive times, and congestion. I-40 will stay open throughout construction with at least two driving lanes in each direction. Access to homes and businesses on MacArthur Blvd. and Meridian Ave. will always be maintained. Sometimes traffic may be reduced to one lane in each direction. Additionally, there will be temporary closures of the on-and-off ramps. This is needed to support bridge construction. We will do our best to keep congestion and delays to a minimum.

Will I still be able to get to my home, business, or property during construction?

Yes, you'll still be able to get to your property. Sometimes, temporary drives might be needed until they are fixed. Gravel may be used for temporary driveways during construction.

What happens to my driveway or entrance?

ODOT may rebuild or repave them up to the existing right-of-way line. Some driveways may be adjusted.

What happens next? What is the project schedule?

You can share your thoughts on the project until September 23, 2025. Construction design will continue. Environmental studies will begin in 2026. ODOT will start buying right-of-way and moving utilities in 2030. Construction is scheduled to start in 2033.
