■ DSH YEAR 2019 EXAMINATION IMPACT

- **Per 42 CFR 455.304**, findings of state reports and audits for Medicaid state plan years 2005-2010 will not be given weight except to the extent that the findings draw into question the reasonableness of the state's uncompensated care cost estimates used for calculating prospective DSH payments for Medicaid state plan year 2011 and thereafter.
- The current DSH year 2019 examination report is a recoupment year.

■ PAID CLAIMS DATA UPDATE FOR 2019

- Medicaid fee-for-service paid claims data
 - Will be uploaded to web portal.
 - Same format as last year.
 - Reported based on cost report year (using discharge date).
 - At revenue code level.

 - At revenue code level.
 - Will exclude non-Title 19 services (such as CHIP).

■ PAID CLAIMS DATA UPDATE FOR 2019

Medicare Cost Report settlement
Direct GME payments
Medicare DSH adjustments
Organ Acquisition payments
Pass-through cost payments

Bad Debt reimbursement
IME payments
Inpatient capital payments

- Note: The expectation is that Critical Access Hospitals are reimbursed at cost after sequestration.

■ PAID CLAIMS DATA UPDATE FOR 2019

- Out-of-State Medicaid paid claims data should be obtained from the state making the payment
 - If the hospital cannot obtain a paid claims listing from the state, the hospital should send in a detailed listing in Exhibit C format.
 - Must EXCLUDE CHIP and other non-Title 19 services.
 - Should be reported based on cost report year (using discharge date).
 - In future years, request out-of-state paid claims listing at the time of your cost report filing.

■ PAID CLAIMS DATA UPDATE FOR 2019

- “Other” Medicaid Eligibles
 - **Definition:** Medicaid-eligible patient services where Medicaid did not receive the claim or have any cost-sharing and, as a result, may not be included in the state’s data.
 - The hospital must submit these eligible services on Exhibit C for them to be eligible for inclusion in the DSH uncompensated care cost (UCC).
 - Must EXCLUDE CHIP and other non-Title 19 services.
 - Should be reported based on cost report year (using discharge date).

■ PAID CLAIMS DATA UPDATE FOR 2019

- “Other” Medicaid Eligibles (cont.)
 - 2008 DSH Rule requires that ***all*** Medicaid eligibles are reported on the DSH survey and included in the UCC calculation.
 - Exhibit C should be submitted for this population. If no “other” Medicaid eligibles are submitted, we will contact you to request that they be submitted. If we still do not receive the requested Exhibit C or a signed statement verifying there are none to report, we may have to list the hospital as non-compliant in the 2019 DSH examination report.
 - Ensure that you ***separately report*** Medicaid, Medicaid MCO, Medicare, Medicare HMO, private insurance, and self-pay payments in Exhibit C.

■ **DSH EXAMINATION SURVEYS**

General Instruction – Survey Files

- The survey is split into 2 separate Excel files:
 - DSH Survey Part I – DSH Year Data.
 - DSH year-specific information.
 - Always complete one copy.
 - DSH Survey Part II – Cost Report Year Data.
 - Cost report year-specific information.
 - Complete a separate copy for each cost report year needed to cover the DSH year.
 - Hospitals with year end changes or that are new to DSH may have to complete 2 year ends.

■ DSH EXAMINATION SURVEYS

General Instruction – Survey Files

- Do not complete a DSH Part II survey for a cost report year already submitted in a previous DSH exam year.
 - Example: Hospital A provided a survey for their year ending 12/31/18 with the DSH examination of SFY 2018 in the prior year. In the DSH year 2019 exam, Hospital A would only need to submit a survey for their year ending 12/31/19.
- Both surveys have an instructions tab that has been updated. Please refer to those tabs if you are unsure of what to enter in a section. If it still is not clear, please contact Myers and Stauffer.

■ DSH EXAMINATION SURVEYS

General Instruction – HCRIS Data

- Myers and Stauffer will pre-load certain sections of Part II of the survey using the Healthcare Cost Report Information System (HCRIS) data from CMS. However, the hospital is responsible for reviewing the data to ensure it is correct and reflects the best available cost report (audited if available).
- Hospitals that do not have a Medicare cost report on file with CMS will not see any data pre-loaded and will need to complete all lines as instructed.

■ DSH SURVEY PART I – DSH YEAR DATA

Section A

- DSH year should already be filled in.
- Hospital name may already be selected (if not, select from the drop-down box).
- Verify the cost report year end dates (should only include those that were not previously submitted).
 - If these are incorrect, please call Myers and Stauffer and request a new copy.

Section B

- Answer all DSH Qualifying questions using drop-down boxes.

■ DSH SURVEY PART I – DSH YEAR DATA

Section C

- Item 1: Report any Medicaid supplemental payments, including UPL and Non-Claim Specific payments, for the state fiscal year. Do NOT include DSH payments.
- Item 2: Report any Medicaid Managed Care supplemental payments, including all Non-Claim Specific payments for hospital services such as lump sum payments for full Medicaid pricing (FMP), supplementals, quality payments, bonus payments, capitation payments received by the hospital (not by the MCO), or other incentive payments.
 - Hospital portion of supplemental payments reported on DSH Survey Part II, Section E, Question 14 should be reported here if paid on SFY basis.

Certification

- Answer the “Retain DSH” question but please note that IGTs and CPEs are not a basis for answering the question “No”.
- Enter contact information.
- Have CEO or CFO sign this section after completion of Part II of the survey.

1. Did the hospital have at least two obstetricians who had staff privileges at the hospital that agreed to provide obstetric services to Medicaid-eligible individuals during the DSH year? (In the case of a hospital located in a rural area, the term "obstetrician" includes any physician with staff privileges at the hospital to perform nonemergency obstetric procedures.)
2. Was the hospital exempt from the requirement listed under #1 above because the hospital's inpatients are predominantly under 18 years of age?
3. Was the hospital exempt from the requirement listed under #1 above because it did not offer non-emergency obstetric services to the general population when federal Medicaid DSH regulations were enacted on December 22, 1987?
- 3a. Was the hospital open as of December 22, 1987?

The following certification is to be completed by the hospital's CEO or CFO:

I hereby certify that the information in Sections A, B, C, D, E, F, G, H, I, J, K and L of the DSH Survey files are true and accurate to the best of our ability, and supported by the financial and other records of the hospital. All Medicaid eligible patients, including those who have private insurance coverage, have been reported on the DSH survey regardless of whether the hospital received payment on the claim. I understand that this information will be used to determine the Medicaid program's compliance with federal Disproportionate Share Hospital (DSH) eligibility and payments provisions. Detailed support exists for all amounts reported in the survey. These records will be retained for a period of not less than 5 years following the due date of the survey, and will be made available for inspection when requested.

■ DSH YEAR SURVEY PART II

SECTION F, MIUR/LIUR

- The state must report your actual MIUR and LIUR for the DSH year – data is needed to calculate the MIUR/LIUR.
- Section F-1: Total hospital days from cost report. Myers and Stauffer will pre-load CMS HCRIS cost report data into this section. If it is incorrect or does not agree to a more recently audited version of the cost report, please correct as needed and update question #3 in Section D.
- Section F-2: If cash subsidies are specified for I/P or O/P services, record them as such, otherwise record entire amount as unspecified. If any subsidies are directed toward non-hospital services, record the subsidies in the non-hospital cell.
- Section F-2: Report charity care charges based on your own hospital financials or the definition used for your state DSH payment (support must be submitted).

■ DSH YEAR SURVEY PART II

SECTION F, MIUR/LIUR

Section F-3: Report hospital revenues and contractual adjustments.

- Myers and Stauffer will pre-load CMS HCRIS cost report data into this section. If it is incorrect or does not agree to a more recently audited version of the cost report, please correct as needed and update question #3 in Section D.
- Totals should agree with the cost report worksheets G-2 and G-3. If not, provide an explanation with the survey.
- Contractuals by service center are set-up to calculate based on total revenues and the total contractuals from G-3. If you have contractuals by service center or the calculation does not reasonably state the contractual split between hospital and non-hospital, overwrite the formulas as needed and submit the necessary support.

■ DSH YEAR SURVEY PART II SECTION F, MIUR/LIUR

Section F-3: Reconciling Items Necessary for Proper Calculation of LIUR

- Bad debt and charity care write-offs not included on G-3, line 2 should be entered on lines 30 and 31 so they can be properly excluded in calculating net patient service revenue utilized in the LIUR.
- Medicaid DSH payments and state and local patient care cash subsidies included on G-3, line 2 should be entered on line 32 and 33 so they can be properly excluded in calculating net patient service revenue also.
- Medicaid Provider Tax included on G-3, line 2 should be entered on line 34 so it can be properly excluded in calculating net patient service revenue.

■ **DSH SURVEY PART II**

SECTION H, UNINSURED

- If BOTH of the following conditions are met, a hospital is NOT required to submit any uninsured data on the survey nor Exhibits A and B:
 1. The hospital Medicaid shortfall is greater than the hospital's total Medicaid DSH payments for the year.
 - The shortfall is equal to all Medicaid (FFS, MCO, cross-over, In-State, Out-of-State) cost less all applicable payments in the survey and non-claim payments such as UPL, GME, outlier, and supplemental payments.
 2. The hospital provides a certification that it incurred additional uncompensated care costs serving uninsured individuals.

■ DSH SURVEY PART II SECTION H, UNINSURED

NOTE: It is important to remember that if you are not required to submit uninsured data that it may still be to the advantage of the hospital to submit it.

1. Your hospital's total UCC may be used to redistribute overpayments from other hospitals (to your hospital).
2. Your hospital's total UCC may be used to establish future DSH payments.
3. CMS DSH allotment reductions may be partially based on states targeting DSH payments to hospitals with high uninsured and Medicaid populations.

■ DSH SURVEY PART II - SECTION H, IN-STATE MEDICAID AND UNINSURED

- Additional Edits
 - In the far right column, you will see an edit message if your total charges or days by cost center exceed those reported from the cost report in Section G of the survey. Please clear these edits prior to filing the survey.
 - The errors occur when the cost report groupings differ from the grouping methodology used to complete the DSH survey.
 - Calculated payments as a percentage of cost by payor (at bottom).
 - Review percentage for reasonableness.

■ DSH SURVEY PART II - SECTION H, IN-STATE MEDICAID AND UNINSURED

- Additional Edits
 - On Section H and I, in the cross-over columns, there will be an edit above the days section that will pop up if you enter more cross-over days on the DSH survey than are included in Medicare days on W/S S-3 of the cost report per HCRIS data.
 - Please review your data if this occurs and correct the issue prior to filing the survey.

■ DSH SURVEY PART II - SECTION H, IN-STATE MEDICAID AND UNINSURED

- Additional Edits
 - On Section H, in column AY, there is a % Survey to Cost Report Totals column. The percentages listed in this column are calculating total in-state and out-of-state days and charges divided by total cost report days and charges by cost center, and in total.
 - Please review your data for reasonableness and correct any issues prior to filing the survey.

■ **DSH SURVEY PART II**

SECTION I, OUT OF STATE MEDICAID

- Report Out-of-State Medicaid days, ancillary charges and payments.
- Report in the same format as Section H. Days, charges and payments received must agree to the other state's PS&R (or similar) claim payment summary. If no summary is available, submit Exhibit C (hospital data) as support.
- If your hospital provided services to several other states, please consolidate your data and provide support for your survey responses.

■ DSH SURVEY PART II - SECTIONS J & K, ORGAN ACQUISITION

- Total organ acquisition cost and total useable organs may be pre-loaded from HCRIS data. If it is incorrect or does not agree to a more recently audited version of the cost report, please correct as needed and update question #3 in Section D.
- These schedules should be used to calculate organ acquisition cost for Medicaid (in-state and out-of-state) and uninsured for transplants occurring at the hospital.
- Summary claims data (PS&R) or similar documents and provider records (organ counts) must be provided to support the charges and useable organ counts reported on the survey. The data for uninsured organ acquisitions should be reported separately from the Exhibit A.

■ **DSH SURVEY PART II - SECTIONS J & K, ORGAN ACQUISITION**

- All organ acquisition charges should be reported in Sections J & K of the survey and should be EXCLUDED from Section H & I of the survey. (Days should also be excluded from H & I.)
- Medicaid and uninsured charges/days included in the cost report D-4 series as part of the total organ acquisition charges/days, must be excluded from Sections H & I of the survey as those costs are included in the cost per organ amount on Section J & K.

■ DSH SURVEY PART II SECTION L, PROVIDER TAXES

- Due to Medicare cost report tax adjustments, an adjustment to cost may be necessary to properly reflect the Medicaid and uninsured share of the provider tax assessment for some hospitals.
- The Medicaid and uninsured share of the provider tax assessment is an allowable cost for Medicaid DSH even if Medicare offsets some of the tax.

■ DSH SURVEY PART II SECTION L, PROVIDER TAXES

- The Medicaid DSH audit rule clearly indicates that the portion of permissible provider taxes applicable to Medicaid and uninsured is an allowable cost for the Medicaid DSH UCC. (FR Vol. 73, No. 245, Friday, Dec. 19, 2008, page 77923)
- By "permissible", they are referring to a "valid" tax in accordance with 42 CFR §433.68(b).

■ DSH SURVEY PART II SECTION L, PROVIDER TAXES

- Section L is used to report allowable Medicaid Provider Tax.
- Added to assist in reconciling total provider tax expense reported in the cost report and the amount actually incurred by a hospital (paid to the state).
- Complete the section using cost report data and hospital's own general ledger.

■ DSH SURVEY PART II SECTION L, PROVIDER TAXES

- Include the Worksheet A line number the tax is included on or provide a reason for the variance between the tax per the general ledger and the amount included in the cost report.
- The tax expense should be reflected based on the cost reporting period rather than the DSH year.
- All permissible provider tax not included in allowable cost on the cost report will be added back and allocated to the Medicaid and uninsured UCC on a reasonable basis (e.g., charges).

■ DSH SURVEY PART II SECTION L, PROVIDER TAXES

- At a minimum the following should still be excluded from the final tax expense:
 - Additional payments paid into the association "pool" should NOT be included in the tax expense.
 - Association fees.
 - Non-hospital taxes (e.g., nursing home and pharmacy taxes).

L. Provider Tax Assessment Reconciliation / Adjustment

An adjustment is necessary to properly reflect the Medicaid and uninsured share of the provider tax assessment for some hospitals. The Medicaid and uninsured share of the provider tax assessment collected is an allowable cost in determining hospital-specific DSH limits and, therefore, can be included in the DSH examination survey. However, depending on how your hospital reports it on the Medicare cost report, an adjustment may be necessary to ensure the cost is properly reflected in determining your hospital-specific DSH limit. For instance, if your hospital removed part or all of the provider tax assessment on the Medicare cost report, the full amount of the provider tax assessment would not have been apportioned to the various payers through the step down allocation process, resulting in the Medicaid and uninsured share being understated in determining the hospital-specific DSH limit. If your hospital needs to make an adjustment for the Medicaid and uninsured share of the provider tax assessment, please fill out the reconciliation below, and submit the supporting general ledger entries and other supporting documentation to Myers and Stauffer, LC along with your hospital's DSH examination surveys.

Exhibit B - Cash Basis Patient Payments

■ EXHIBIT C - HOSPITAL-PROVIDED MEDICAID DATA

- Medicaid data reported on the survey must be supported by a third-party paid claims summary such as a PS&R, Managed Care Plan provided report, or state-run paid claims report.
- If not available, the hospital must submit the detail behind the reported survey data in the Exhibit C format. Otherwise, the data may not be allowed in the final UCC.

■ EXHIBIT C - HOSPITAL-PROVIDED MEDICAID DATA

- Types of data that may require an Exhibit C are as follows:
 - Self-reported Medicaid MCO data (Section H).
 - Self-reported “Other” Medicaid eligibles (Section H).
 - All self-reported Out-of-State Medicaid categories (Section I).
 - Additional or adjusted Medicaid FFS/Crossover claims noted during reconciliation of state and internal hospital data (Section H).

■ EXHIBIT C - HOSPITAL-PROVIDED MEDICAID DATA

- Exhibit C
 - Include *Primary Payor Plan, Secondary Payor Plan, Hospital MCD #, PCN, Patient's MCD Recipient #, Name, Admit, Discharge, Service Indicator, Rev Code, Total Charges, Days, Medicare Traditional Payments, Medicare Managed Care Payments, Medicaid FFS Payments, Medicaid Managed Care Payments, Private Insurance Payments, Self-Pay Payments, and Sum All Payments* fields. *DOB, Social, and Gender* may also be requested.
 - A complete list (key) of payor plans is required to be submitted separately with the survey.
 - Submit Exhibit C in the format shown using Excel or a CSV file using the tab or | (pipe symbol above the enter key).

■ EXHIBIT C - HOSPITAL-PROVIDED MEDICAID DATA

- Exhibit C:
 - Data not submitted in the correct format may be returned to the hospital with a letter to request revisions to get the data into the prescribed Exhibit C format.
 - In particular, claims data submitted with days, charges, and/or payments in separate Excel files rather than combined into one Exhibit document as prescribed in Exhibit C may be sent back to the hospital to combine.
 - Note that payments being repeated on every line of an Exhibit C claim is acceptable and will be properly accounted for during the desk review.

■ UPDATES

- Consolidated Appropriations Act (CAA) of 2021
 - Effective October 1, 2021
 - Allotment reductions delayed until SFY 2024-2027 (\$8B reduction per year)
 - The CAA calls for the exclusion of dual eligible cost and payments from the uncompensated care cost calculation (UCC), unless the hospital qualifies for the 97th percentile SSI exception.
 - Hospital should continue to report all dual-eligible information as in previous years.
 - At this time, additional guidance is needed from CMS as to how the CAA should be applied.

Note: Due to CAA, hospitals should review query logic to ensure claims are reported in the proper payor buckets and primary/secondary payors are clearly and accurately labeled.

■ UPDATES

- Provider Relief Funds
 - Under the CARES act enacted March 27, 2020, a portion of the provider relief funds were used to reimburse health care providers who provided COVID-19 treatment for uninsured individuals with a COVID-19 primary diagnosis on or after February 4, 2020.
 - Providers could request claims reimbursement and were generally reimbursed at Medicare rates.
 - Impact to DSH and UCC survey
 - Hospitals must include all claims-based provider relief fund payments for uninsured patients
 - Must include all payments applicable to their cost report period (accrual basis)
 - Included in Exhibit B

■ **PRIOR YEAR DSH EXAMINATION (2018)**

Significant Data Issues during 2018 Examination

- Incomplete DSH Survey Part I and Part II files.
- Charges, Days and/or payment amounts reported on DSH Survey Pt. II Sec. H did not tie to detail claims data submitted in Exhibits A, B, or C.
- No Uninsured payment data submitted (Exhibit B).
- No support or crosswalk did not accurately support the mapping of days and charges to cost centers in the DSH Survey Part II file, Section H & I.
- Provided templates (e.g., Exhibit A-C, crosswalk) not utilized for data submissions
 - Please do not use the old version of the Exhibit A-C templates.

■ PRIOR YEAR DSH EXAMINATION (2018)

Common Issues Noted During Examination

- Hospitals had duplicate patient claims in the uninsured, cross-over, and state's Medicaid FFS data.
- Patient payor classes that were not updated. (ex. a patient was listed as self-pay and it was determined that they later were Medicaid eligible and paid by Medicaid yet the patient was still claimed as uninsured).
- Incorrectly reporting elective (cosmetic surgeries) services, and non-Medicaid untimely filings as uninsured patient claims.

■ **PRIOR YEAR DSH EXAMINATION (2018)**

Common Issues Noted During Examination

- Charges and days reported on survey exceeded total charges and days reported on the cost report (by cost center).
- Inclusion of patients in the uninsured charges listing (Exhibit A) that are concurrently listed as insured in the payments listing (Exhibit B).
- Patients listed as both insured and uninsured in Exhibit B for the same dates of service.

■ **PRIOR YEAR DSH EXAMINATION (2018)**

Common Issues Noted During Examination

- Patient-level documentation on uninsured Exhibit A and uninsured patient payments from Exhibit B did not agree to totals on the survey.
- Some hospitals did not include their charity care patients in the uninsured even though they had no third party coverage.
- Under the December 3, 2014 final DSH rule, hospitals reported “Exhausted” / “Insurance Non-Covered” on Exhibit A (Uninsured) but did not report the payments on Exhibit B.

■ PRIOR YEAR DSH EXAMINATION (2018)

Common Issues Noted During Examination

- Medicare cross-over payments did not include all Medicare payments (outlier, cost report settlements, lump-sum/pass-through, payments received after year end, etc.).
- Only uninsured payments are to be on cash basis – all other payor payments must include all payments made for the dates of service as of the examination date.
- Exhibit B – Patient payments did not always include all patient payments – some hospitals incorrectly limited their data to uninsured patient payments.
- Hospitals did not report their charity care in the LIUR section of the survey or did not include a break-down of inpatient and outpatient charity.

■ PRIOR YEAR DSH EXAMINATION (2018)

Common Issues Noted During Examination

- “Exhausted” / “Insurance Non-Covered” reported in uninsured incorrectly included the following:
 - Services partially exhausted.
 - Denied due to timely filing.
 - Denied for medical necessity.
 - Denials for pre-certification.
- Liability insurance claims were incorrectly included in uninsured even when the insurance (e.g., auto policy) made a payment on the claim.

■ FAQ

1. What is the definition of uninsured for Medicaid DSH purposes?

Uninsured patients are individuals with no source of third party health care coverage (insurance) for the specific inpatient or outpatient hospital service provided. Prisoners must be excluded.

- On December 3, 2014, CMS finalized the proposed rule published on January 18, 2012 Federal Register to clarify the definition of uninsured and prisoners.
- Under this final DSH rule, the DSH examination looks at whether a patient is uninsured using a “service-specific” approach.
- Based on the 2014 final DSH rule, the survey allows for hospitals to report “fully exhausted” and “insurance non-covered” services as uninsured.

■ FAQ

1. What is the definition of uninsured for Medicaid DSH purposes? (Continued from previous slide)

Excluded prisoners were defined in the 2014 final DSH rule as:

- Individuals who are inmates in a public institution or are otherwise involuntarily held in secure custody as a result of criminal charges. These individuals are considered to have a source of third party coverage.
- Prisoner Exception
 - If a person has been released from secure custody and is referred to the hospital by law enforcement or correction authorities, they can be included.
 - The individual must be admitted as a patient rather than an inmate to the hospital.
 - The individual cannot be in restraints or seclusion.

■ FAQ

2. What is meant by “Exhausted” and “Non-Covered” in the uninsured Exhibits A and B?

Under the December 3, 2014 final DSH rule, hospitals can report services if insurance is “fully exhausted” or if the service provided was “not covered” by insurance. The service must still be a hospital service that would normally be covered by Medicaid.

■ FAQ

3. What categories of services can be included in uninsured on the DSH survey?

Services that are defined under the Medicaid state plan as a Medicaid inpatient or outpatient hospital service may be included in uninsured. (Auditing & Reporting pg. 77907 & Reporting pg. 77913)

- There has been some confusion with this issue. CMS attempts to clarify this in #24 of their FAQ titled “*Additional Information on the DSH Reporting and Audit Requirements*”. It basically says if a service is a hospital service it can be included even if Medicaid only covered a specific group of individuals for that service.
- EXAMPLE : A state Medicaid program covers speech therapy for beneficiaries under 18 at a hospital. However, a hospital provides speech therapy to an uninsured individual over the age of 18. Can they include it in uninsured? The answer is “Yes” since speech therapy is a Medicaid hospital service even though they would not cover beneficiaries over 18.

■ FAQ

4. Can a service be included as uninsured, if insurance did not pay due to improper billing, late billing, or lack of medical necessity?

No. Improper billing by a provider does not change the status of the individual as insured or otherwise covered. In no instance should costs associated with claims denied by a health insurance carrier for such a reason be included in the calculation of hospital-specific uncompensated care (would include denials due to medical necessity). *(Reporting pages 77911 & 77913)*

■ FAQ

5. Can unpaid co-pays or deductibles be considered uninsured?

No. The presence of a co-pay or deductible indicates the patient has insurance and none of the co-pay or deductible is allowable even under the 2014 final DSH rule. (*Reporting pg. 77911*)

6. Can a hospital report their charity charges as uninsured?

Typically a hospital's charity care will meet the definition of uninsured but since charity care policies vary there may be exceptions. If charity includes unpaid co-pays or deductibles, those cannot be included. Each hospital will have to review their charity care policy and compare it to the DSH rules for uninsured.

■ FAQ

7. Can bad debts be considered uninsured?

Bad debts cannot be considered uninsured if the patient has third party coverage. The exception would be if they qualify as uninsured under the 2014 final DSH rule as an exhausted or insurance non-covered service (but those must be separately identified).

■ FAQ

8. How do IMDs (Institutes for Mental Disease) report patients between 22-64 that are not Medicaid-eligible due to their admission to the IMD?

- Many states remove individuals between the ages of 22 and 64 from Medicaid eligibility rolls; if so these costs should be reported as uncompensated care for the uninsured. If these individuals are reported on the Medicaid eligibility rolls, they should be reported as uncompensated care for the Medicaid population. *(Reporting pg. 77929 and CMS Feb. 2010 FAQ #28 – Additional Information on the DSH Reporting and Audit Requirements)*
- Per CMS FAQ, if the state removes a patient from the Medicaid rolls and they have Medicare or private insurance, they cannot be included in the DSH UCC.
- Under the 2014 final DSH rule, these patients may be included in the DSH UCC if Medicare or private insurance is exhausted.

■ FAQ

9. Can a hospital report services covered under automobile policies as uninsured?

Not if the automobile policy pays for the service. We interpret the phrase “who have health insurance (or other third party coverage)” to broadly refer to individuals who have creditable coverage consistent with the definitions under 45 CFR Parts 144 and 146, as well as individuals who have coverage based upon a legally liable third party payer. The phrase would not include individuals who have insurance that provides only excepted benefits, such as those described in 42 CFR 146.145, unless that insurance actually provides coverage for the hospital services at issue (such as when an automobile liability insurance policy pays for a hospital stay). *(Reporting pages 77911 & 77916)*

■ FAQ

10. How are patient payments to be reported on Exhibit B?

Cash-basis! Exhibit B should include patient payments collected during the cost report period (cash-basis). Under the DSH rules, uninsured cost must be offset by uninsured cash-basis payments.

11. Does Exhibit B include only uninsured patient payments or ALL patient payments?

ALL patient payments. Exhibit B includes all cash-basis patient payments so that testing can be done to ensure no payments were left off of the uninsured. The total patient payments on Exhibit B should reconcile to your total self-pay payments collected during the cost report year.

■ FAQ

12. Should we include state and local government payments for indigent in uninsured on Exhibit B?

Uninsured payments do not include payments made by State-only or local only government programs for services provided to indigent patients (no Federal share or match).
(Reporting pg. 77914)

13. Can physician services be included in the DSH survey?

Physician costs that are billed as physician professional services and reimbursed as such should not be considered in calculating the hospital-specific DSH limit. *(Reporting pg. 77924)*

STAUFFER** LC
CERTIFIED PUBLIC ACCOUNTANTS

■ FAQ

14. Do dual eligible patients (Medicare/Medicaid) have to be included in the Medicaid UCC?

Yes. CMS believes the costs attributable to dual eligible patients should be included in the calculation of the uncompensated care costs, but in calculating the uncompensated care costs, it is necessary to take into account both the Medicare and Medicaid payments made. In calculating the Medicare payment, the hospital should include all Medicare adjustments (DSH, IME, GME, etc.). *(Reporting pg. 77912)*

15. Does Medicaid MCO and Out-of-State Medicaid have to be included?

Yes. Under the statutory hospital-specific DSH limit, it is necessary to calculate the cost of furnishing services to the Medicaid populations, including those served by Managed Care Organizations (MCO), and offset those costs with payments received by the hospital for those services. *(Reporting pages 77920 & 77926)*

■ FAQ

16. Do other Medicaid eligible claims (private insurance/Medicaid) have to be included in the Medicaid UCC?

Yes. Since Section 1923(g)(1) does not contain an exclusion for dually eligible individuals, CMS believes the costs attributable to dual eligibles should be included in the calculation of the uncompensated costs of serving Medicaid eligible individuals. *(Reporting pages 77912)*
