

SBIRT INCENTIVE PROGRAM Q&A

In the exclusions it mentions contracted physicians. How do we know if this incentive pertains to us or if we are excluded?

Please see [SoonerSelect Provider Incentive DPP.pdf](#) for guidance or email ProvReimb@okhca.org with questions.

For all CE's are the screening tools available to print in other languages?

Providers should allow for cultural adaptations of SBIRT processes and tools in policy and procedure such as using a screening tool in the member's preferred language. Many of the screening tools mentioned in the presentation have been translated into different languages and are free and searchable.

If we are a primary care provider and are contracted with the managed care plans, are we excluded from participating?

You may be eligible. See [SoonerSelect Provider Incentive DPP.pdf](#) for guidance.

If a referral is required, can we use our own internal referral system?

A referral to treatment is not required, unless the person is screened to be moderate to high risk. The referral will depend on the score on the screening tool. If a referral to treatment is indicated, you as the provider decide if that referral is internal or external, depending on the needs of the member.

Who is Brave Health?

Brave Health is contracted with all three CE's as a resource for virtual behavioral health services for primary care offices.
