## February 2023

**OKLAHOMA**  
Health Care Authority

OHCA's Provider Network is defined as providers who are contracted to provide health care services by locations, programs, types, and specialties. Providers are being counted multiple times if they have multiple locations, programs, types and/or specialties. The term "contracted" is defined as a provider that was enrolled with Oklahoma SoonerCare and/or Insure Oklahoma within the reporting period, it does not necessarily indicate participation. Group Practices are excluded, but the individual providers of the group practice are included in the count.

OHCA may currently be in a provider contract renewal period. Some of the totals below may indicate a decrease in the provider counts due to this process. This occurrence is typical during all renewal periods.

\* The data is based on the new provider IDs and locations added to the system during the reporting month. The effective date of the contract may or may not be in that month.
