

SoonerCare Provider Reimbursement Notice

Supplemental Hospital Offset Payment Program (SHOPP) Update

OHCA PRN 2020-03

March 27, 2020

SHOPP Hospital Providers

Due to the Covid-19 pandemic, CMS temporarily increased the Federal Medical Assistance Percentages (FMAP) by 6.2 percentage points effective January 1, 2020. The increase allows us to recalculate the SHOPP assessments for CY2020 Q1 and Q2. All Q1 SHOPP assessments were paid, and Q2 SHOPP assessment invoices were sent out prior to the FMAP change. Hospitals will receive an updated Q2 SHOPP assessment invoice. All assessments for Q1 were overpaid, and the overpayment will be credited on the Q2 invoices.

If the Q2 assessment has already been received, we will refund the difference back to the hospital via a voucher request. No action is necessary from the provider to receive the refund.

If you have any questions or require additional information please contact Jimmy Witcosky by email at ProvReimb@okhca.org.

Thank you for your continued service to Oklahoma's **SoonerCare** members.
