4. Adjourn—Next Tribal Consultation Scheduled for 11 AM, May 5th , 2020

Proposed Rule, State Plan, and Waiver Amendments

Insure Oklahoma (IO) Termination — Revisions to several authorities, including but not limited to, the 1115(A) waiver, Title XXI state plan, and OHCA policy are necessary for the phase-out of the Insure Oklahoma program. IO enrollees will transition to the adult Medicaid expansion population or be encouraged to purchase health insurance on the federal marketplace.

SoonerPlan Termination — SoonerPlan is being terminated as adults currently being served by SoonerPlan will transition to the new adult Medicaid expansion population and will be eligible to receive more comprehensive services.

Removal of Hospital Presumptive Eligibility (HPE) for the Adult Expansion Population— HPE was erroneously chosen for adult expansion populations during changes in 2013 to comport with the Affordable Care Act (ACA), when the State did not seek authority to expand Medicaid. Changes to the State Plan are needed to correct the error. This item requests an expedited 30-day tribal consultation comment period.

Supplemental Hospital Offset Payment Program - OHCA is seeking to amend the Supplemental Hospital Offset Payment Program (SHOPP) assessment policy. According to current policy, the base year Medicare cost report, used to calculate the hospital assessment, is required to be updated every two years based on the hospital's fiscal year that ended two years prior. The proposed policy change will update the base year Medicare cost report, used to calculate the hospital assessment, to be every year based on the hospital's fiscal year that ended two years prior. This item requests an expedited 30-day tribal consultation comment period.

Adding the Newly Eligible Adult Group to the Existing 1115 Waiver – The OHCA is seeking to add newly eligible adults as a covered group under the existing 1115 waiver in order to allow services to be provided by the PCMH service delivery model. Additionally, adding the newly eligible adult population to the existing 1115 waiver will waive retroactive eligibility for this population. This item requests an expedited 30-day tribal consultation comment period.

Increase Care Coordination Rate for PCMH American Indian/Alaskan Native (AI/AN) Providers – The OHCA is seeking to increase the care coordination rate for AI/AN Patient Centered Medical Home (PCMH) providers. The care coordination rate will be increased to \$27.25 per member per month with successive annual increases throughout the waiver approval period. This item requests an expedited 30-day tribal consultation comment period.

Section 5022 of the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment for Patients and Communities (SUPPORT) Act— The proposed revisions will update policy to demonstrate compliance with the requirement of Section 5022 of the SUPPORT Act in areas related to coverage of developmental and behavioral health related screenings and applicable preventive services.

Institutes for Mental Disease (IMD) Waiver- The OHCA and Department of Mental Health and Substance Abuse Services (ODMHSAS) are proposing to submit a serious mental illness (SMI)/substance use disorder (SUD) section 1115 waiver to waive the exclusion of Medicaid reimbursement for services provided to individuals within IMD. This waiver will allow federal financial participation (FFP) for Medicaid-eligible adults, ages 21-64, to receive acute inpatient psychiatric care or residential substance abuse treatment in facilities with 16 beds or more (IMDs). These services are not intended to decrease or replace services in less restrictive settings but rather to support the continuum of care.

Pharmacists Medication Therapy Services – The OHCA is seeking federal and state authority to allow contracted, qualified, and trained pharmacists to provide medication therapy services. Medication therapy services optimize therapeutic outcomes for members and reduce incidence of morbidity associated with chronic conditions or inappropriate use of medications.

through SoonerCare

Executive Order 2020-03 - The OHCA will revoke sections that are duplicative, no longer applicable, or can be combined into other sections of Agency policy. Revocation of aforementioned policies are an effort to be in compliance with Executive Order 2020-03, also known as the "1-in-2-out" requirement. None of the sections being revoked will have any impact to members, providers, or the SoonerCare program.
