Dr. Gilbertson called for the votes on the motion and a roll call.

The roll call/votes were: Dr. Carter, yes; Dr. Gilbertson, abstain; Dr. Koehler, yes; Ms. St. Cyr, yes; Dr. Subera, yes; Ms. Templeton, yes; Dr. Wilkett, yes; Dr. Young, yes.

The motion passed.

Dr. Subera moved to place Dr. Lehman's license on an Interim Order of Temporary Suspension. Dr. Lehman shall complete his previously Ordered KSTAR report and ensure it is focused on OBGYN and his clinical competency. Once this report is received, Dr. Lehman shall reappear for further consideration.
Dr. Carter seconded the motion.

Dr. Gilbertson called for the votes on the motion and a roll call.

The roll call/votes were: Dr. Carter, yes; Dr. Gilbertson, abstain; Dr. Koehler, yes; Ms. St. Cyr, yes; Dr. Subera, yes; Ms. Templeton, yes; Dr. Wilkett, yes; Dr. Young, yes.

The motion passed.

CONTINUED MATTERS

It was announced that the following matter had been continued until the December 2025 meeting.

Clayton Howell, D.O.

STAFF REPORTS

Director Mullins:

Financial Report / Budget

Mr. Mullins presented information regarding the upcoming fiscal year's budget.

Dr. Young moved to approve the FY26 Budget as presented.
Dr. Koehler seconded the motion.

Dr. Gilbertson called for the votes on the motion and a roll call.

The roll call/votes were: Dr. Carter, yes; Dr. Gilbertson, yes; Dr. Koehler, yes; Ms. St. Cyr, yes; Dr. Subera, yes; Ms. Templeton, yes; Dr. Wilkett, yes; Dr. Young, yes.

The motion passed.

Licensure Report

Mr. Mullins stated there were currently 4,516 active licensees with the number growing each year. He also announced that due to the new license software, the number of dispensing permits had drastically dropped and he believes the number active now are more in line with those that actually need them.

Investigative Report

Mr. Mullins informed the Board that the investigative team continues to work incoming complaints thoroughly and efficiently. He also announced that Lead Investigator, Elizabeth Fullbright, had obtained her Certified Medical Board Investigator (CMBI) certification.

Notification of Agreements

Mr. Mullins briefed the Board on agreements that had been reached regarding cases that didn't yet rise to a level of a Board petition.

Policy Discussion and Appointment of Subcommittees by Chair

Dr. Gilbertson made the following appointments to the subcommittees below.

Mid-Level Statutory Changes – Chelsey Gilbertson, D.O., Katie Templeton, J.D., LeRoy Young, D.O., Sheila St. Cyr, M.S., R.N.

Dr. Koehler seconded the motion.

Dr. Gilbertson called for the votes on the motion and a roll call.

The roll call/votes were: Dr. Carter, yes; Dr. Gilbertson, yes; Dr. Koehler, yes; Ms. St. Cyr, yes; Dr. Subera, recuse; Ms. Templeton, yes; Dr. Wilkett, yes; Dr. Young, yes.

The motion passed.

Dr. Carter moved to come out of Executive Session.
Dr. Koehler seconded the motion.

Dr. Gilbertson called for the votes on the motion and a roll call.

The roll call/votes were: Dr. Carter, yes; Dr. Gilbertson, yes; Dr. Koehler, yes; Ms. St. Cyr, yes; Dr. Subera, recuse; Ms. Templeton, yes; Dr. Wilkett, yes; Dr. Young, yes.

The motion passed.

Ms. Templeton moved to table Dr. Schafer's request until total evaluation at a Board approved facility has been received and submitted for review.
Dr. Koehler seconded the motion.

Dr. Gilbertson called for the votes on the motion and a roll call.

The roll call/votes were: Dr. Carter, yes; Dr. Gilbertson, yes; Dr. Koehler, yes; Ms. St. Cyr, yes; Dr. Subera, recuse; Ms. Templeton, yes; Dr. Wilkett, abs; Dr. Young, yes.

The motion passed.

PROPOSED EXECUTIVE SESSION

Dr. Gilbertson called for the scheduled Executive Session to discuss the below:

- Legislative Initiatives
- Shared Services Agreements (Dental Board and Optometry Board)
- Walmart Legal Update
- OHPP Board Appointment
- Discussing the employment, hiring, appointment, promotion, demotion, disciplining or resignation of any individual or employee pursuant to 25 O.S. § 307 (B)(1).

Dr. Young moved to go into Executive Session.
Dr. Koehler seconded the motion.

Dr. Gilbertson called for the votes on the motion and a roll call.

The roll call/votes were: Dr. Carter, yes; Dr. Gilbertson, yes; Dr. Koehler, yes; Ms. St. Cyr, yes; Dr. Subera, yes; Ms. Templeton, yes; Dr. Wilkett, yes; Dr. Young, yes.

The motion passed.

Dr. Young moved to come out of Executive Session.
Dr. Koehler seconded the motion.

Dr. Gilbertson called for the votes on the motion and a roll call.

The roll call/votes were: Dr. Carter, yes; Dr. Gilbertson, yes; Dr. Koehler, yes; Ms. St. Cyr, yes; Dr. Subera, yes; Ms. Templeton, yes; Dr. Wilkett, yes; Dr. Young, yes.

The motion passed.

Dr. Young moved to appoint Michael Felty to the OHPP Board if we receive a Board Member seat.
Dr. Koehler seconded the motion.

Dr. Gilbertson called for the votes on the motion and a roll call.

The roll call/votes were: Dr. Carter, yes; Dr. Gilbertson, yes; Dr. Koehler, yes; Ms. St. Cyr, yes; Dr. Subera, yes; Ms. Templeton, yes; Dr. Wilkett, yes; Dr. Young, yes.

The motion passed.

Ammaar Anwar, D.O.

Dr. Gilbertson called the continued matter of Ammaar Anwar, D.O., from Day One to order. Dr. Anwar's counsel of record, Thomas Stone, appeared on his behalf. Mr. Stone asked Dr. Gilbertson if Dr. Anwar's matter could be continued until September 2025.

Dr. Gilbertson granted this request for continuance.

ADJOURNMENT

Day Two of the meeting was adjourned by consensus at 11:30 am.

Re: Request for Permanent Waiver – Mid-Level Collaboration with First-Degree Relative

Dear Esteemed Members of the Oklahoma State Board of Osteopathic Examiners,

I am writing with the utmost respect and humility to request a permanent waiver regarding collaboration with my daughter, Chelsea Agent-Real, DNP, who currently practices with Mercy Clinic in Sallisaw.

Personal and Professional Background

My family has deep roots in Sallisaw. I graduated from Sallisaw High School in 1982, where our family operated a local funeral home beginning in 1938. Although my brother sold the business

in 2011, he has remained active in its operations, and the funeral home continues to bear our family name to this day.

Chelsea also graduated from Sallisaw High School in 2008, earned her Bachelor of Science in Nursing from the University of Oklahoma in 2013, and subsequently completed her Doctor of Nursing Practice at Oklahoma City University in 2017.

Following high school, I served in the United States Marine Corps, later attended Northeastern State University in Tahlequah, where I obtained a degree in Biology, and pursued my medical education at the Oklahoma State University College of Osteopathic Medicine, graduating in 1995. I completed my residency in Internal Medicine at the University of Oklahoma in Tulsa in 1998.

My career began with Hillcrest Medical Group, where I worked until November 2000. I then joined Cooper Clinic, where I practiced Internal Medicine and served in multiple leadership roles, eventually becoming Vice President of the Cooper Clinic Board of Directors. In 2017, Cooper Clinic transitioned to Mercy Clinic, at which time approximately 60 physicians, 20 mid-level providers, and 500 employees were integrated into the Mercy system.

Transition of Employees

This transition was a challenging time for many of our employees as they adapted to new leadership, expectations, and policies under the Mercy system. I was asked to serve as part of the transition team, where I worked directly with staff to help them adapt to the new environment, policies, and culture. To further support that adjustment, I ultimately felt it best to step out of the Mercy Tower West building, even though it was the largest clinic facility in Fort Smith. I believed that my absence from that location would allow Mercy leadership to gain a stronger foothold with our employees and provide them the space to understand and adjust to Mercy's policies without relying on my prior influence as a Cooper Clinic leader.

Transition to Sallisaw and Current Situation

At the time of this transition, Chelsea was employed by Cooper Clinic's Pro-Med Urgent Care, which was absorbed into Mercy's urgent care system. Shortly after, Dr. Bob Nowlin, MD, and Ms. Aaliyah Walker, PA, both longtime Sallisaw natives, retired, leaving the Mercy Clinic in

Sallisaw without a physician or mid-level coverage.

Mercy leadership initially relied on providers from the Poteau clinic, including Dr. Arthur Pearson, MD, and Tim Olive, APN, but this arrangement proved unsustainable given their busy practice. They also approached Dr. Brent Reeves, DO, my former partner, but he declined as he did not hold an Oklahoma license. Mercy leadership then asked me to provide collaboration for Chelsea in the Sallisaw clinic.

Mercy leadership emphasized that having someone with a direct connection to Sallisaw was important to ensure continuity of care and trust in the community following the retirement of Dr. Nowlin and Ms. Walker. That emphasis was crucial to my decision to agree, given both my lifelong ties to Sallisaw and my daughter's presence in the community.

I initially expressed concern regarding potential nepotism. Mercy leadership assured me that Chelsea's direct supervision lies with the Clinic Director in Fort Smith, the lead APN, and the Senior Medical Executive, Dr David Hunton, MD at that time now Dr. Lance Faddis, MD. My role is limited to being an in-office collaborator and resource, reviewing her charts and offering professional input. I have no authority over her employment, bonuses, or business decisions. In fact, Mercy has multiple supervisors in place for Chelsea to reach out to, in addition to myself, ensuring she has robust oversight beyond our collaborative arrangement.

Mercy had originally planned to expand the clinic and approached Dr. Reeves again, but COVID-19 disrupted those plans, and the project was abandoned. Although land has been secured for a future clinic in Sallisaw, funding has not been allocated. Dr. Reeves has since left Mercy to join Remedy Health in Fort Smith.

Awareness of Rule and Temporary Waiver

Until recently, I was unaware that collaborating with a first-degree relative as a mid-level provider placed me in violation of Board rules. I became aware of this only after reading the July 2025 Board newsletter, which outlined the updated rules for collaboration with mid-level providers.

Upon discovering this, I immediately contacted the Board for guidance and subsequently followed up with an email to the Executive Director, who was kind enough to grant a temporary waiver while I submitted this formal request for a permanent waiver.

Current Healthcare Landscape in Sallisaw

The healthcare landscape in Sallisaw remains strained. Where there were once eight physicians serving the community, there are now essentially two: Dr. Chris Orendorff, MD, and myself. I am aware that Dr. Orendorff is not under the jurisdiction of this Board; however, I believe it is important to note that he collaborates with two of his own first-degree relatives — his wife and his sister — in his clinic. This underscores that such arrangements are common and are often necessary in rural communities where recruiting physicians and providers is particularly difficult.

In addition to direct patient care, our clinic provides a large volume of services and referrals to the local hospital, which is under significant financial strain. Although we are Mercy employees, many of our patients' studies, laboratory work, and x-rays are performed at the local hospital, which depends heavily on this flow of services for financial stability. Rural critical access hospitals across Oklahoma have been under immense pressure, and in the past five years, two local eastern Oklahoma hospitals — Stigler Hospital and Stilwell Hospital — have been forced to close due to these strains. The loss of additional providers in Sallisaw would not only affect patient care directly but would further exacerbate the challenges facing our rural hospitals.

Though I spent much of my career in Fort Smith, I remained connected to Sallisaw by providing sideline consultations at football games, sports physicals for students, and ongoing community health support. Recruiting physicians to this area has proven extremely difficult. Our clinic currently serves approximately 4,700 active patients and consistently maintains some of the highest productivity, quality metrics, and patient satisfaction ratings in the Mercy Fort Smith region.

Request for Consideration

Given this background, I respectfully and humbly request that the Board grant a permanent waiver to allow me to collaborate with my daughter, Chelsea Agent-Real, DNP, in her role at Mercy Clinic Sallisaw. This waiver is essential for ensuring stability of care for thousands of patients in our community, supporting the financial viability of our local hospital, and maintaining essential healthcare infrastructure in a region already struggling with provider shortages.

I am grateful for your time and careful consideration of this request. Please let me know if any

additional documentation, clarification, or testimony is required.

With great respect,

J. Phil Agent, DO
Mercy Clinic-Sallisaw

MATTHEW
PRIEST, D.O.
#7124

Dr. Matthew Priest, DO
Pawhuska Family Medical Clinic
1109 E. 15th St,
Pawhuska, OK 74056
&
Pawhuska Hospital
1101 E. 15th St,
Pawhuska, OK 74056

Dr. Priest currently serves as the Chief of Staff at Pawhuska Hospital and oversees the Pawhuska Family Medical Clinic. These two are in close proximity. Both the hospital and clinic are situated in an underserved rural healthcare area. The hospital depends on Dr. Priest to supervise mid-level practitioners working within the hospital and clinic. This ensures the community has access to a staffed hospital, emergency room, and outpatient services.

At the time he requested an increase in his supervisory responsibilities, Dr. Priest was overseeing six mid-level practitioners. This request was made following the departure of a physician from Pawhuska Hospital, which impacted the supervision of these mid-level practitioners.

Dr. Priest holds an active, unrestricted Oklahoma license to practice osteopathic medicine, with a specialization in Family Practice. He is present on-site and available daily to assist his mid-level providers as needed. Dr. Priest covers 15% of cases, reviews emergency room notes, and conducts monthly chart reviews. His mid-level providers are not immediate family members.

After temporary approval to increase mid-levels, Dr. Priest is currently overseeing five full-time mid-levels working between 40 and 72 hours per week and 4 PRN mid-levels with hours that vary each week but do not exceed 40 hours per week.

Dr. Priest is currently overseeing a total of nine mid-levels listed as follows:

Bridget Wyatt, APRN	Cardiology 2018 – 2024	Full-Time
Pawhuska Family Medical Clinic	Primary Care Clinic 2024-current; Total years as a provider 7+ years.	
	ICU RN 2007-2018	

Kyla Cowen, APRN Pawhuska Family Medical Clinic	Cardiology 2015 to 2025 Primary Care clinic 2025 to current Total years as a provider 10 years ICU RN 3 years	Full-Time
Ronald (Ron) Dunkle, APRN Pawhuska Hospital	Orthopedics and Trauma Surgery 2014-2015 ER 2015 to current Inpatient Rounding (current) Total years as a provider 11 years ICU RN 3 years	Full-Time
Thomas (Tom) Engle, PA Pawhuska Hospital	ER 2009 to current Wound Care Inpatient Rounding Total years as a provider 16 years	Full-Time
Monique Brink, APRN Pawhuska Hospital	ER 2013-2015, 2017 to current, Critical Access Hospitals, Level 2 Trauma 2+ years Urgent Care 13 years Interventional Cardiology Inpatient Rounding 2015 to 2016 Total years as a provider 12 years	Full-Time

	Sexual Assault Nurse Examiner	
Sean Mills, APRN Pawhuska Hospital	ER 2017 to current, Critical Access Hospital and Level 1 Trauma ER Combat Medic 2006-2009 Inpatient Rounding Total years as a provider 8 years	PRN
William (Bill) Wyatt, APRN Pawhuska Hospital	ER 2023 to current Paramedic and ER Nurse Total years as a provider 5 years	PRN
Deanna Harmon, APRN Pawhuska Hospital	ER and clinic 2022 to current Total years as a provider 3 years	PRN
Ashley Cooper, APRN Pawhuska Hospital	Primary Care, Urgent Care ER 2018 to current Total years as a provider 7 years	PRN

Dr. Priest and mid-level providers execute high-risk procedures in accordance with established protocol. Please refer to the high-risk protocol outlined below.

Procedures or conditions the providers see through the ER that are considered high risk:

- STEMI
- Stroke
- Obstetrical Emergency

- Behavioral Health Emergency (SI/HI)
- Trauma
- Rapid Sequence Intubation
- Central Line
- Moderate Sedation

When the ER receives a patient with a high-risk emergency medical condition, staff will follow ER protocols to provide stabilizing treatment to the extent of their capabilities. Mid-level providers (nurse practitioners and physician assistants) should notify the supervising physician of high-risk procedures and conditions or as needed. Supervising physicians must be available at all times, either in person, by phone, or electronically to provide guidance or oversight.

1. When the Procedure or Condition Is High-Risk

- Supervising physicians are expected to be consulted for diagnoses, treatments, or procedures that represent a significant risk to the patient.
- This includes procedures involving Class II controlled substances, invasive interventions (central line, IV sedation), or any situation where the patient's condition is unstable or deteriorating.

2. When the Case Exceeds the Provider's Scope or Experience

- If the situation goes beyond the intent of standardized procedures or the competence or scope of practice of the mid-level provider, physician consultation is required.

3. For Documentation and Compliance

- For example, when an APRN issues or carries out a Schedule II drug order, the supervising physician must review and countersign the medical record.

4. Anytime the Mid-Level Provider Feels It's Necessary

- Providers are encouraged to seek consultation whenever they feel the situation warrants it, even if not explicitly required by policy.

"Practice Agreement" means a written agreement between a physician assistant and the delegating physician concerning the scope of practice of the physician assistant to only be determined by the delegating physician and the physician assistant based on the education, training, skills and experience of the physician assistant. The agreement shall involve the joint formulation, discussion and agreement on the methods of supervision and collaboration for diagnosis, consultation and treatment of medical conditions. 59 O.S. § 519.2(9).

1. DESCRIPTION OF THE SCOPE OF PRACTICE OF THE PHYSICIAN ASSISTANT

Assess, evaluate, diagnose & provide treatment in the ED setting.

"Supervision" means overseeing or delegating the activities of the medical services rendered by a physician assistant through a practice agreement between a medical doctor or osteopathic physician performing procedures or directly or indirectly involved with the treatment of a patient, and the physician assistant working jointly toward a common goal of providing services. Delegation shall be defined by the practice agreement. The physical presence of the delegating physician is not required as long as the delegating physician and physician assistant are or can be easily in contact with each other by telecommunication. At all times a physician assistant shall be considered an agent of the delegating physician. 59 O.S. § 519.2(7).

2. DESCRIBE THE METHOD(S) OF SUPERVISION AND COLLABORATION OF THE PHYSICIAN ASSISTANT WHICH INCLUDES REVIEWING A SAMPLE OF OUTPATIENT MEDICAL RECORDS. THIS REVIEW OF A SAMPLE OF OUTPATIENT MEDICAL RECORDS MAY OCCUR USING ELECTRONIC OR VIRTUAL CONFERENCING OR AN AGREED UPON SITE.

Supervision will include in person, telephonically & electronically.

All practice agreements and any amendments shall be filed with the State Board of Medical Licensure and Supervision within ten (10) business days of being executed.

By signing the agreement below, we agree to follow the Physician Assistant Act and Rules as listed at the Oklahoma State Board of Medical Licensure and Supervision. Osteopathic Physicians will also follow rules as listed at the Oklahoma State Board of Osteopathic Examiners.

MOTION
TO
APPROVE
PRECEPTOR
PLAN

TRISZA RAY, D.O. # 4143

Re-Entry to Practice Plan for OSBOE

Physician: Dr. Trisza L. Ray, DO

License #: 4143

Date of Plan: September 2025

Dear Members of the Board,

I respectfully submit this addendum to my re-entry application.

Since my prior correspondence, I have maintained stability in my health. [REDACTED]

[REDACTED] these are well-compensated and do not interfere with my ability to provide safe and effective patient care.

In May 2025, I completed a **Master of Science in Healthcare Administration** at Oklahoma State University Health Sciences Center. This achievement reflects my continued commitment to professional growth during my absence from practice.

Upon successful completion of my structured re-entry program under the supervision of my Preceptor, Dr. Gordon Laird, DO, I intend to transition back into **ambulatory family medicine in an outpatient clinical setting**. This scope of practice builds on my prior experience in urgent care and emergency medicine while aligning with the Board's recommendations.

For clarity and transparency, I have included **Appendix A: Reasons for Absence (2017–2025)**, which provides a comprehensive account of my time away from practice.

I am grateful for the opportunity to complete this supervised re-entry process and respectfully request reinstatement of my full medical license without restrictions upon its successful completion.

Thank you for your continued guidance and consideration.

Respectfully,

Trisza L. Ray, DO

Executive Summary

This plan outlines my supervised re-entry into ambulatory family medicine under Dr. Gordon P. Laird, DO. It incorporates recommendations from my CPEP and UF evaluations, includes a phased supervision model with completion by December 5, 2025, and documents my continuing education and stable health status. Upon successful completion, I respectfully request reinstatement of my license without restrictions.

Health & Compliance

- **Primary Care Clearance:** [REDACTED]
[REDACTED]
- **ENT Evaluation (July 28, 2025 – David W. Hall, MD):**
 - Diagnosis: [REDACTED]
 - Treatment options discussed: [REDACTED]
[REDACTED]
 - [REDACTED]
 - [REDACTED]
- **Functional Status:**
 - [REDACTED]
 - [REDACTED]
- **Compliance:** Ongoing follow-up with PCP and ENT as needed; health updates will be submitted to OSBOE per Board Order.

Learning Goals (Aligned with CPEP Recommendations)

Based on the CPEP Clinical Skills Evaluation (Sept 2024) and OSBOE requirements, Dr. Ray's re-entry plan will emphasize the following ten areas:

1. Medical Knowledge (Family Medicine Core Topics)

- Update and reinforce outpatient management of diabetes, hypertension, CHF, COPD, BPH, hypothyroidism, osteoporosis, and obesity.
- Adapt prior emergency and urgent care experience toward continuity-based outpatient family medicine.
- Incorporate guideline-based pharmacology, including newer agents (e.g., GLP-1 agonists, SGLT2 inhibitors).

2. Behavioral Health Management

- Strengthen outpatient diagnosis and management of anxiety, depression, and substance use disorders.
- Apply screening tools and brief interventions in primary care settings.
- Enhance knowledge of safe pharmacologic and non-pharmacologic treatment options.

3. Controlled Substance Prescribing

- Incorporate safe opioid and benzodiazepine prescribing practices.
- Use risk assessment tools, prescription drug monitoring programs (PDMP), treatment agreements, and urine drug screening.
- Ensure alignment with state and federal guidelines for chronic pain management.

4. Cardiovascular Care & ECG Interpretation

- Refine evaluation and management of atrial fibrillation, chest pain, congestive heart failure, and other cardiovascular conditions.
- Strengthen skills in outpatient ECG interpretation, emphasizing recognition of subtle but clinically significant findings.

5. Endocrinology & Metabolism

- Modernize outpatient diabetes management (e.g., GLP-1 receptor agonists, SGLT2 inhibitors, insulin titration).
- Update thyroid hormone dosing protocols and osteoporosis management.
- Review evidence-based obesity management strategies.

6. Documentation / Record-Keeping

- Transition from concise emergency notes to comprehensive outpatient family medicine documentation.
- Ensure SOAP notes include PMH, medications, allergies, social history, differential diagnoses, and clear links between assessments and plans.
- Maintain documentation that supports continuity of care and interdisciplinary collaboration.

7. Physician–Patient Communication

- Use patient-centered communication strategies, including open-ended questioning and teach-back methods.
- Minimize interruptions and set clear expectations for follow-up and continuity.
- Strengthen skills in delivering anticipatory guidance and preventive counseling.

8. Pediatric & Geriatric Protocols

- Update knowledge of pediatric immunization schedules, growth and development milestones, and preventive care.
- Apply geriatric care principles, including fall risk assessment, polypharmacy management, and dementia screening.
- Integrate age-specific considerations into chronic disease management.

9. Preventive Care & Screening

- Apply USPSTF and ACIP guidelines for cancer screening, immunizations, cardiovascular risk reduction, and osteoporosis screening.
- Incorporate preventive health strategies into routine visits.

- Provide evidence-based patient education to support long-term health outcomes.

10. Systems Awareness & Professional Support

- Strengthen use of referrals, interdisciplinary collaboration, and community health resources.
 - Incorporate evidence-based resources (UpToDate, USPSTF, ACIP, Prescriber's Letter) into clinical workflow.
 - Emphasize cost-effective, preventive care approaches over episodic interventions.
-

Background and Credentials

- **Date last engaged in active clinical practice:** December 22, 2016 – **Appendix A**
 - **Summary of absence from practice:** Medical leave [REDACTED]
[REDACTED] Cleared by Neurology, ENT, and Primary Care for supervised re-entry and safe independent practice.
 - **Prior clinical practice and specialty/practice area:**
 - **Emergency Medicine:** 2005–2015 (Integris Mayes County, Cherokee Nation W.W. Hastings Hospital, Jack C. Montgomery VA Medical Center, Muskogee Emergency PLLC). Managed a wide range of acute and life-threatening conditions, trauma, critical care, and advanced procedures.
 - **Hospitalist:** 2009–2011 (Jane Phillips Medical Center, Bartlesville, Oklahoma).
 - **Urgent Care Lead Physician:** 2015–2017 (Warren Clinic, St. Francis Health System, Tulsa Hills). Provided direct urgent care, supervised clinical staff, and oversaw operations.
 - **Education:**
 - B.S. Biology and biochemistry, University of Tulsa (1994)
 - D.O., Oklahoma State University College of Osteopathic Medicine (2002)
Family Medicine Internship (2002–2003) and Residency (2003–2005), Tulsa Regional Medical Center
M.S. Healthcare Administration, Oklahoma State University HSC (2025)
 - **Licensure and Certification:**
 - **Oklahoma License #4143**, originally issued 2002, expired June 30, 2017
 - **Board Certification in Family Medicine (AOBFP), 2004–2017 (Certificate No. 14418)**
 - **OSBOE Order** (June 19, 2025) reinstated her license with restrictions pending completion of a structured reentry plan with an approved preceptor.
 - **Professional Licenses and Certifications:**

○ American Osteopathic Board of Family Physicians: Certificate No. 14418	2009-2017
○ Oklahoma State Board of Osteopathic Examiners: License No. 4143	2004-2017
○ OBND Registration No 32705	2004-2018
○ DEA Registration No. BR9111028	2004-2018
-

Assessment of Current Knowledge and Skills

Formal Assessments Completed:

- **CPEP Clinical Skills Evaluation (Sept 2024):** Safe to return with recommendations for updating knowledge in family medicine, behavioral health, controlled substance prescribing, ECG interpretation, and documentation.
- **UF Multi-Day Comprehensive Evaluation (Apr 2025):** Confirmed stable health status and ability to return to practice safely.

Self-Assessment:

- **Strengths:**
 - Broad acute care background (ER, urgent care, hospitalist).
 - Strong diagnostic skills.
 - Proficiency in procedures (laceration repair, I&D, intubation, central line placement, lumbar puncture, thoracentesis, FAST Exam Ultrasound, fracture repair and stabilization, foreign body removal and wound care).
 - Patient-centered communication and cultural competence.
- **Areas for improvement:**
 - Updates in family medicine (diabetes, obesity, osteoporosis, preventive guidelines).
 - Outpatient behavioral health and controlled substance stewardship.
 - Refined ECG interpretation and cardiovascular outpatient care.

Remediation Plan:

- CME in primary care, pharmacology, and guideline-based updates.
 - Case-based learning with a preceptor.
 - Direct observation with structured chart review and feedback.
-

Proposed Scope of Practice Upon Reentry

- **Specialty/practice area:** Family Medicine, possibly Urgent Care.
 - **Same as prior specialty/practice area?** Yes (urgent care and family medicine).
 - **Procedures:** Office-based family medicine and urgent care procedures: suturing, incision & drainage, abscess management, joint injections, immunizations, Pap smears, EKG interpretation.
 - **Patient population:** Pediatrics, adults, geriatrics.
-

Continuing Medical Education Plan – Appendix B

- **CME completed in the past 2 years:** >120 hours, including ACOFP Intensive Update and Board Review, Primary Care Updates (OSU Enduring Credits), and Documentation & Communication coursework.
 - **Planned CME activities prior to/through reentry:** Ongoing CME via UpToDate, Prescriber's Letter, OMED 2025 and pharmacology review, with focus on CPEP recommendations.
-

Clinical Skills Refresher Activities – Appendix B

- **Structured Supervision:** 3-4 months clinical re-entry under Dr. Gordon P. Laird, DO.
- **Observership/Shadowing:** Direct patient care with graduated responsibility.
- **Simulation training:** Not planned (skills refreshed through direct clinical practice).
- **Other activities:** Monthly case-based learning sessions, documentation review, and CME discussion.

Structured Clinical Re-Entry Plan (September–December 2025)

Timeline

- **Start date for supervised practice:** September 2, 2025
 - **Duration:** 3-4 months (Sept–Dec 2025)
 - **Proposed date for return to unrestricted practice:** January 1, 2026 (pending successful completion and Board approval).
-

Preceptor Information

- **Name:** Dr. Gordon P. Laird, DO
 - **Specialty:** Board-Certified Family Medicine
 - **Address:** 534 Illinois St, Pawnee, OK 74058
 - **Phone:** (918) 762-3602
 - **Role:** Provide direct observation, chart review, case discussions, and progress reporting to the OSBOE.
-

Phase 1: Sept 2–15, 2025

100% direct observation of all patient encounters; ≥15% of charts reviewed weekly.

- Shadow Preceptor to learn EHR, workflow, and referral systems.
 - 100% direct observation of patient encounters.
 - Begin documentation practice (SOAP notes with Preceptor review).
 - Daily debrief and weekly chart review.
-

Phase 2: Sept 16–Oct 15, 2025

Supervised participation; preceptor co-signs all notes; ≥15% of charts reviewed.

- Conduct patient visits with the Preceptor in the exam room.

- Preceptor reviews and co-signs all notes.
 - Weekly chart review of ≥10 cases.
 - Focus areas: diabetes, HTN, CHF, COPD, pediatrics, geriatrics, preventive screenings, ECG interpretation.
 - Begin structured communication skills practice.
-

Phase 3: Oct 16–Nov 15, 2025:

Graduated responsibility; independent encounters reviewed prior to final disposition; ≥15% of charts reviewed.

- See patients independently; review plan with Preceptor before patient discharge.
 - End-of-week review of ≥6 representative cases.
 - Documentation and differential diagnoses evaluated for completeness.
 - Continue CME and pharmacology review logs.
-

Phase 4 Nov 16 – Dec 5, 2025):

Transition to independence; biweekly 2-hour consultation meetings; preparation of final evaluation.

- Independent patient care with a Preceptor immediately available for consultation.
 - Twice-monthly 2-hour Preceptor meetings with chart and case review.
 - Complete required **documentation** and **communication** courses; submit certificates.
 - Final preceptor evaluation and report to OSBOE due December 6, 2025..
-

Compliance, Monitoring & Reporting

- **Monthly Preceptor Reports:**
 - The preceptor will submit monthly reports to OSBOE during the program. **Appendix D**
 - Structured form with case counts, chart review findings, competency assessment, and narrative progress.
 - **Case/Chart Review Forms:** Completed during each chart review session. **Appendix E**
 - **Compliance:** Monthly physician self-report to OSBOE and contact with Compliance Officer by the 10th.
 - The CME log will be maintained, and certificates will be submitted with the final report.
 - PCP health updates will be submitted if required.
 - **Final Report:**
 - A **final attestation and evaluation** will be submitted by **December 6, 2025**, ensuring the Board has all materials in advance of the December 11, 2025, meeting.
-

Mentorship Arrangement

Not applicable. (Preceptor supervision fulfills oversight requirements.)

Outcome Requested

Upon successful completion of the re-entry plan, I respectfully request **full reinstatement of my Oklahoma medical license without restrictions.**

Appendix A – Reasons for Absence (2017–2025)

I have not engaged in active clinical practice since December 22, 2016.

1. Initial Illness and Diagnosis (2016–2017)

[REDACTED]

2. Treatment and Recovery (2017–2020)

[REDACTED]

3. Chronic Stable Sequelae

[REDACTED]

4. Educational and Professional Development

During recovery, I pursued further education. I ultimately completed a **Master of Science in Healthcare Administration (OSU HSC, May 2025)**. I also engaged in CME, board review courses, and completed the **CPEP Clinical Skills Evaluation (2024)** and **UF Multi-Day Comprehensive Evaluation (2025)**, both of which confirmed my readiness to re-enter practice with supervision.

5. Family Responsibilities

In 2023, I also assumed **temporary caregiving responsibilities for my two granddaughters**, which contributed to delaying my clinical return. These responsibilities have since stabilized, and I am now able to fully commit to completing my re-entry program.

Summary

My absence from clinical practice was the direct result of a serious, well-documented medical illness and subsequent rehabilitation, compounded briefly by family caregiving responsibilities. Throughout this time, I remained committed to education, rehabilitation, and professional development.

My health is now stable, my condition is well-managed, and I am ready to complete the structured re-entry plan under OSBOE oversight in order to resume safe, independent practice in **ambulatory family medicine**.

APPENDIX B – Educational Activities (Completed or In Progress)

Dr. Ray has completed or is completing the following CME:

- ☐ **2025 ACOFP Intensive Update and Board Review – 18.75 AOA Cat 1-A **In progress****
- ☐ **2025 Emergency Medicine Review (OSU Enduring) – 16.25 AOA Cat 1-B**
- ☒ **2024 Emergency Medicine Review (OSU Enduring) – 18 AOA Cat 1-B **Completed****
- ☒ **2023 Primary Care Update (OSU Enduring) – 11.75 AOA Cat 1-B **Completed****
- ☒ **2023 Emergency Medicine Review (OSU Enduring) – 18.5 AOA Cat 1-B **Completed****
- ☒ **2024 Primary Care Update (OSU Enduring) – 13.75 AOA Cat 1-B **Completed****
- ☒ **2024 Virtual Emergency Medicine Review (OSU Enduring) – 20 AOA Cat 1-A **Completed****
- ☐ **2025 OSU Primary Care Update (November 2025)**
- ☐ **OMED 2025 (September 25, 2025 - September 28, 2025)**

These CME hours align with CPEP recommendations for systematic review and reinforcement of outpatient family medicine knowledge.

Certificates of completion will be submitted with final documentation.

Appendix C – Clinical Skills Refresher Activities

Dr. Ray will complete the following structured activities to reinforce practical clinical readiness, documentation, patient communication, and outpatient workflow. These activities complement the supervised preceptorship with Dr. Gordon Laird, DO, and align with OSBOE and CPEP recommendations.

Preceptor-Supervised Clinical Activities

(integrated into Phases 1–4 of the re-entry plan)

- **Direct Observation & Supervised Encounters:** 100% observation (Phase 1), graduated responsibility (Phases 2–3), ≥15% of charts reviewed.
 - **Case-Based Learning:** Weekly case discussions (chronic disease, pediatrics, geriatrics, preventive care, behavioral health).
 - **Documentation Practice:** Transition from urgent care notes to full family medicine SOAP notes with Preceptor review.
 - **Communication & Professional Skills**
 - Direct feedback on patient-centered communication, use of open-ended questions, and teach-back methods.
 - Structured sessions on setting expectations for continuity of care.
 - Emphasis on interprofessional communication within the clinic setting.
 - **Systems-Based Practice Integration**
 - Training in outpatient clinic workflow, including EHR navigation, referral pathways, and interdisciplinary coordination.
 - Utilization of evidence-based resources (UpToDate, Prescriber's Letter, USPSTF, ACIP).
 - Case discussions on cost-effective care, chronic disease management, and community resource utilization.
-

Appendix C – Clinical Skills Refresher Activities cont

Independent Coursework (Coursera & Professional Programs)

1. Documentation & EHR Systems

- *Data and Electronic Health Records* – Coursera
- *OMED 2025 Sessions* (Documentation series: Key Issues, SOAP Note, Chronic Disease Documentation, Patient Safety & Documentation, Effective Case Documentation)

2. Patient Communication & Professionalism

- *A New Communication Framework for Healthcare* – University of California San Diego
- *Professionalism in Allied Health* – Coursera
- *OMED 2025 Sessions* (Empathy & Advocacy, Building Trust, Narrative Medicine, Motivating Lifestyle Change)

3. Safe Prescribing & Behavioral Health

- *Responsible Medication Prescribing for Older Adults* – Mount Sinai
- *Addiction Treatment: Clinical Skills for Healthcare Providers* – Yale University

CME & Reflection Tracking

Date	Session Title	Focus Area	CME Hours	Notes / Reflection
Sept 28	Empathy and Advocacy	Communication	1-A	
Sept 28	Documentation: Key Issues	Documentation	1-A	
Sept 28	SOAP Note: Clinical Reasoning	Documentation	1-A	
Sept 29	Building Trust through Communication	Communication	1-A	
Sept 29	Chronic Disease Documentation	Documentation	1-A	
Sept 30	Narrative Medicine	Communication	1-A	
Sept 30	Patient Safety & Documentation	Documentation	1-A	
Oct 1	Case Documentation in Family Medicine	Documentation	1-A	
Oct 1	Clinical Conversations: Lifestyle Change	Communication	1-A	

Integration with Preceptorship

All independent coursework will be:

- Logged with certificates of completion.
- Reviewed with Preceptor during biweekly meetings.
- Applied directly to patient care encounters (documentation, communication, prescribing).

Appendix D – Completed FSMB / OSBOE Questions Template

Physician Name: Dr. Trisza L. Ray, DO

License Number: 4143

Date of Plan: September 2025

Background Information

- **Date last engaged in active clinical practice:** December 22, 2016
- **Reason for absence from practice:** [REDACTED]
- **Brief description of prior clinical practice and specialty/practice area:**
 - Emergency Medicine: 2005–2015 (Integrus, Cherokee Nation, VA, Muskogee Emergency PLLC).
 - Hospitalist: 2009–2011 (Jane Phillips Medical Center).
 - Urgent Care Lead Physician: 2015–2017 (Warren Clinic, St. Francis Health System).

Assessment of Current Knowledge and Skills

- **Formal Assessments:**
 - CPEP Clinical Skills Evaluation (Sept 2024) – safe to return with recommendations.
 - UF Multi-Day Comprehensive Evaluation (Apr 2025) – medically stable, safe to practice.
- **Self-assessment:** Strengths in acute care, diagnostics, procedures, and communication. Needs update in family medicine, preventive care, ECG interpretation, behavioral health, and controlled substance prescribing.
- **Plan for addressing gaps:** CME (Appendix B), skills refresher (Appendix C), case-based learning, chart reviews, and direct observation with feedback.

Proposed Scope of Practice Upon Reentry

- **Specialty/practice area:** Family Medicine (ambulatory/urgent care).
- **Same as prior specialty/practice area?** Yes.
- **Types of procedures:** Suturing, abscess drainage, joint injections, Pap smears, immunizations, and ECG.
- **Patient population:** Pediatrics, adults, geriatrics.

- **Practice setting:** Outpatient family medicine clinic (Pawnee, OK).

Continuing Medical Education Plan

- **Completed in the past 2 years:** >120 hours (see Appendix B).
- **Planned activities prior to/during reentry:** OMED 2025, OSU Primary Care Update, ongoing CME in pharmacology, family medicine core topics, behavioral health, and communication/documentation.

Clinical Skills Refresher Activities

- **Observerships/shadowing planned:** Direct patient care with Preceptor, graduated responsibility (Phases 1–4).
- **Simulation training planned:** None (skills refreshed in clinical setting).
- **Other clinical skills activities:** Case-based learning, documentation review, CME coursework (see Appendix C).

Supervision Plan

- **Supervisor:** Dr. Gordon P. Laird, DO – Board Certified Family Medicine.
- **Frequency/nature of supervision:**
 - Phase 1: 100% direct observation (Sept 2–15).
 - Phase 2: Supervised participation, co-sign notes (Sept 16–Oct 15).
 - Phase 3: Graduated responsibility, pre-disposition review (Oct 16–Nov 15).
 - Phase 4: Transition to independence, biweekly meetings (Nov 16–Dec 5).
- **Supervisor reporting:** Monthly progress reports to OSBOE; final evaluation submitted Dec 6, 2025.

Mentorship Arrangement

- Not applicable (Preceptor fulfills oversight role).

Timeline

- **Proposed start date:** Sept 2, 2025
- **Estimated duration:** 3 months (Sept 2 – Dec 5, 2025)
- **Proposed date for return to practice:** January 1, 2026, pending Board approval.

Appendix D – Preceptor Monthly Progress Report

Preceptor Monthly Progress Report

Physician in Reentry: Dr. Trisza L. Ray, DO

Preceptor: Dr. Gordon P. Laird, DO

Month/Year: _____

Clinical Activities This Month

- Total patient encounters observed: _____
- Total patient encounters under supervision: _____
- Total patient encounters reviewed (chart/case review): _____

Subject: [EXTERNAL] Petition to Vacate 2007 Board Order No. 07-1

Bharat Mittal, DO, MBA
13630 Kluge Corner Lane
Cypress, TX 77429

Investigative No. 07-1

August 26th, 2025

Oklahoma State Board of Osteopathic Examiners
4848 North Lincoln Blvd., Suite 100
Oklahoma City, OK 73105

Dear Members of the Board,

I am writing to provide a detailed explanation regarding the 2007 Board Order that was issued early in my training, before my Oklahoma licensure.

The incident occurred while I was an intern in Texas. At the time, my fiancée (now my wife of 18 years) had recently undergone wisdom teeth extraction and developed a painful dry socket. She had tried multiple over-the-counter remedies without relief. I asked colleagues at the hospital what options might help her, and was told that prescription-strength medication would likely be needed. With good intentions but poor judgment, I wrote her a prescription.

The pharmacy reported this to my training program, which then notified the Texas Medical Board. The TMB conducted a thorough investigation and ultimately found no wrongdoing, taking no disciplinary action. Even before this incident, I had been reflecting on my training experience in Dallas and had begun exploring other residency programs that might be a better fit for me. After the event, I decided to leave that program

— not because of Board action, but because I knew I needed a different environment. Within a few months, I transitioned into a residency program in Oklahoma, where I found the support and structure that allowed me to thrive. When I later applied for my Oklahoma license, I fully disclosed the incident.

I fully acknowledge that, even with good intentions, it was a lapse in judgment to write that prescription. That experience forced me to reflect deeply on professional responsibility, boundaries, and the weight of the trust society places in physicians. In many ways, it helped me grow up, making me more accountable, respectful and careful of the work I do. It shaped me not just as a physician, but also as a husband, son, and man. I have never forgotten that lesson, and I hold myself to the highest standard because of it.

Since that isolated incident nearly 18 years ago, I have practiced emergency medicine continuously without a single complaint, investigation, or disciplinary action. I currently hold six unrestricted state licenses (Texas, Kansas, Oklahoma, Hawaii, Minnesota, and Nevada) and have served in both supervisory and medical director roles. I have worked hard to uphold the highest standards of ethical and safe practice throughout my career. This experience ultimately deepened my respect for the privilege of caring for patients and has made me more vigilant in safeguarding their trust.

My years in Oklahoma were some of the most meaningful of my life, which is why I have maintained my license there even after moving back to Texas. Family drove my return — my son was later diagnosed with autism, and we needed to be closer to extended family for support. This also influenced my career path: in addition to my emergency medicine practice, I expanded into utilization management, which has allowed me to work more from home to support my son's needs. For these reasons, I respectfully ask the Board to consider vacating the 2007 Board Order so that my professional record reflects the physician I have worked to become. Participation in the Interstate

Medical Licensure Compact would allow me to expand my utilization management work across multiple states, enabling me to provide safe, evidence-based care while also being more present for my family.

I sincerely thank the Board for taking the time to consider my request. It means so much to me both professionally and personally to have the opportunity to present my case. I am grateful for your service, for the chance to be heard, and for the possibility of having my record reflect the physician, husband, and father I have worked to become over the past 18 years.

Respectfully,

Bharat Mittal DO, MBA

Petitioner,

v.

**BHARAT MITAL, D.O.,
Osteopathic Medicine License No. 4487,**

Respondent.

Investigative No. 07-1

ORDER

This matter comes before the State Board of Osteopathic Examiners ("Board") at a regularly scheduled meeting of the Board held on December 20, 2007 upon a request by Bharat Mittal, D.O. ("Dr. Mittal") for modification of the probationary status placed on his license to practice osteopathic medicine in the State of Oklahoma. For good cause shown, this modification is **GRANTED**. The probationary status placed on the license issued by the Board to Dr. Mittal to practice osteopathic medicine in the State of Oklahoma is removed.

This Order is a matter of public record and subject to the Oklahoma Open Records Act.

IT IS SO ORDERED, ADJUDGED AND DECREED.

Dated this 20th day of December, 2007.

Cheryl A. Vaughn
President
State Board of Osteopathic Examiners

**BEFORE THE STATE BOARD OF OSTEOPATHIC EXAMINERS
STATE OF OKLAHOMA**

**STATE BOARD OF OSTEOPATHIC
EXAMINERS,**

Petitioner,

v.

**BHARAT MITTAL, D.O.,
Osteopathic Medicine License No. 4487,**

Respondent.

Investigative No. 07-1

ORDER

This matter comes before the State Board of Osteopathic Examiners ("Board") at a regularly scheduled meeting of the Board held on March 15, 2007 upon the licensure application of Bharat Mittal, D.O. ("Dr. Mittal"). Dr. Mittal appeared by himself. Upon hearing the testimony from Dr. Mittal and having reviewed the evidence offered, the Board approves the application upon the following terms and conditions:

1. The license issued by the Board to Dr. Mittal to practice osteopathic medicine and surgery in the State of Oklahoma is placed on **PROBATION** for a period of two (2) years.
2. Dr. Mittal will not be able to seek modification of this Order for a period of one (1) year from the date this Board adopts this Order.
3. During each of the two years of probation, Dr. Mittal will be required to attend and complete a course, approved by the Board, in the proper prescribing and handling of controlled dangerous substances and a course, approved by the Board, in ethics. Dr. Mittal will be required to report to the Board the successful completion of said courses.
4. During the first year of probation, Dr. Mittal's practice will be limited to the

residency program and he will be prohibited from any “moonlighting” practice of osteopathic medicine.

5. Dr. Mittal will provide the Board with regular progress reports from the residency program director. These reports will be provided to the Board each six months.

6. During this period of probation, Dr. Mittal will notify the Board immediately of any change in address, either business or residence and any changes in business phone number(s), facsimile and e-mail.

7. During this period of probation, Dr. Mittal will permit any representative of the Board to enter his office for official duties.

8. During the first year of probation, Dr. Mittal will appear before the Board at each regularly scheduled meeting of the Board. During the second year of probation, Dr. Mittal will appear before the Board upon request.

9. If Dr. Mittal leaves the State of Oklahoma to practice osteopathic medicine or for residential purposes during this period of probation, the period of probation will be tolled for the period of time he is outside the State of Oklahoma and will not apply to the two years of probation.

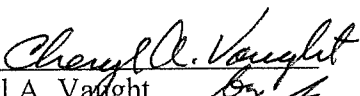

10. If Dr. Mittal is found to have violated any terms and conditions of this Order, the Board may, at its discretion, take disciplinary action against Dr. Mittal for said violation. Said disciplinary action will be conducted after notice to Dr. Mittal and hearing.

11. Nothing in this Order shall preclude the Board from initiating another disciplinary action against Dr. Mittal for matters which were not a part of this Order.

12. This Order is a matter of public record and subject to the Oklahoma Open Records Act.

IT IS SO ORDERED, ADJUDGED AND DECREED.

Dated this 6th day of ~~March~~^{April}, 2007.

JOINT PROVIDER BRIDGE PROPOSAL

Oklahoma State Board of Osteopathic Examiners

MEMORANDUM

FROM: Kate Mayberry
TO: OSBOE Board Members
DATE: 09/09/2025
SUBJECT: ProviderBridge

ProviderBridge is a federally funded initiative hosted by the Federation of State Medical Boards (FSMB) supported by the US Health Resources and Services Administration. It is designed to mobilize verified clinicians (Physicians, Physician Assistants and Nurses) during emergencies and natural disasters by streamlining credential verification and enabling rapid deployment.

Program Benefits:

Verified Credentialling: Clinicians create a digital “passport” with verified credentials, including license numbers, specialties, and disciplinary history.

Nationwide Access: Healthcare entities can search for and contact registered clinicians across state lines to support emergency response efforts.

Free and Fast Registration: Registration takes only minutes and is free for clinicians.

Portable Documentation: Clinicians can generate a certified PDF of their credentials for use at emergency sites.

We would like to add a question to the License Application and Renewal Forms. If the applicant selects “Yes,” they will be prompted to visit ProviderBridge.org to register.

The US experienced 27 individual weather and climate disasters in 2024 alone. By making enrollment with ProviderBridge available to our physicians we help to build a ready-to-deploy clinical workforce which enhances our Board’s visibility and leadership in emergency preparedness.

Anne Lawler, JD, RN, will now present the operational framework and impact of ProviderBridge.

KSTAR Final Report
Richard Troy Lehman, DO #R00302L

July 22, 2025

TAMU-ARCHI, KSTAR Program

KSTAR Assessment Executive Summary
Richard Troy Lehman, DO KSTAR # R00302L
July 22, 2025

The physician was referred by the Oklahoma State Board of Osteopathic Examiners for an assessment of his clinical competence in obstetrics and gynecology. His stated objective was to demonstrate his ability to practice safely within his current group setting, despite concerns raised by the Board.

The KSTAR Committee concluded that the physician's performance during the comprehensive assessment reflected sound medical judgment, an adequate knowledge base, and sufficient technical skills to practice safely in his specialty. However, the Committee determined that he should commit additional time and effort to developing and implementing a continuous professional development plan. Recommendations for this plan are outlined below.

Recommendations

1. The KSTAR Committee concluded that the physician's performance in the comprehensive assessment demonstrated sound medical judgment, an adequate knowledge base, and sufficient technical skills to practice safely within the specialty of obstetrics and gynecology.
2. It is recommended that the physician pursue recertification in Obstetrics and Gynecology and participate in a Board Review course to reinforce core clinical knowledge.
3. The physician should develop a structured monthly plan to obtain CME focused on areas of identified deficiency, as indicated by board certification test results, Board Review course performance, and findings from this assessment. Emphasis should be placed on topics related to obstetric complications, female reproductive system, and general medical issues associated with women's health. The plan should ensure the completion of 50 to 75 CME hours annually.
4. The physician is advised to complete the KSTAR Pharmacotherapeutics Module for Reentry Physicians as part of the educational plan. A minimum score of 75% is required on the post-test following completion of the readings. Multiple attempts are permitted, with no additional testing fees.
5. The physician should complete the Ethics and Professionalism review module, including all assigned readings. A post-test score of at least 75% is required, with multiple attempts allowed.

KSTAR Assessment and Final Report

Richard Troy Lehman, DO #R00302L

July 22, 2025

INTRODUCTION AND BACKGROUND

Evaluators

The KSTAR Evaluation Committee for this clinical performance assessment included physicians who are experienced in evaluating post-licensure physicians. In addition to the committee, a specialty consultant provided input regarding this physician's performance.

Timeline of the Assessment

Inquiry to Program: April 2, 2025
Application to Program: April 28, 2025
Testing Dates: June 23 & 24, 2025
KSTAR Meeting and Determinations: July 9, 2025
Final Report: July 22, 2025

Introduction

The KSTAR committee convened via video conference on July 9, 2025, to review the preliminary report findings on examinee #R00302L. The evaluation committee received the assessment materials and the recorded video components before the meeting. Dr. Bell, the facilitator for the KSTAR assessment, introduced the applicant, including education, past work history, future goals, and reason for referral to the KSTAR program.

Background

This physician is a licensed osteopathic physician specializing in Obstetrics and Gynecology with over 20 years of experience in both private and hospital-based practice. He earned his B.S. in Biology from East Central University in Ada, Oklahoma, in 1995, and received his Doctor of Osteopathy degree from the Oklahoma State University College of Osteopathic Medicine in 1999. From 1999 to 2003, he completed his OB/GYN internship and residency at Metropolitan Hospital in Grand Rapids, Michigan.

He began his professional practice in June 2003 as a partner at Southern Oklahoma Women's Health in Ardmore, where he remained until February 2007. From June 2011 to June 2024, he operated a private practice under his name in Woodward and Ardmore. Simultaneously, he founded and ran New Life Med Spa, LLC, in Woodward from March 2019 to June 2024. In July 2024, he joined The Women's Clinic (Central Oklahoma Family Medical Clinic) in Ada as part of a group practice.

Board certified by the American College of Osteopathic Obstetricians and Gynecologists from 2010 to 2016, this physician also holds certifications in Basic and Advanced Cardiac Life Support, Neonatal Resuscitation, and is a certified BioTE (*bio identical hormone provider using subcutaneous pellets*) and InMode provider (*provides a range of aesthetic and medical devices utilizing technologies like radio frequency (RF) and laser treatments*).

Despite his experience, his career has included regulatory challenges, such as a 2010 probation related to inadequate solo practice coverage and a December 2024 State Board of Osteopathic Examiners State of Oklahoma (OK) interim order. The 2024 order involved a review of records from 2017 to 2020 concerning the management of uterine cancer patients. The order also contained concerns included in a National Practitioner Data Bank alert regarding his handling of multiple birth scenarios, which resulted in a temporary suspension from practice at Integris Health Woodward Hospital in OK. The order mandates a board-approved competency assessment to evaluate his clinical capabilities.

This physician wants this assessment to outline his competency to safely practice obstetrics/gynecology in his current group practice.

ASSESSMENT COMPONENTS AND PERFORMANCE

Standardized Patient Encounters

The physician completed two standardized patient encounters and three simulated deliveries at a simulation center. The scenarios were designed to replicate service settings such as an emergency room, outpatient clinic, hospital inpatient room, or hospital delivery room.

Summary of Standardized Patient Scenarios and Performance Comments:

- a) Status Post Hysterectomy, Day 2 – Uncomplicated (live patient)
- b) Third Trimester Bleeding and Pain / Possible Abruption (live patient)

Live Patient Scenario Evaluation:

The physician demonstrated a business-like approach when interacting with the patients yet was still able to establish a trusting and empathetic rapport in both cases. His questioning style was entirely closed-ended; however, it remained respectful, non-judgmental, and sensitive to the patients' level of understanding. He made appropriate efforts to clarify medical terminology when he detected confusion.

While his physical examination skills were adequate and appropriately addressed the chief complaint in the third-trimester bleeding case and the surgical site in the post-hysterectomy patient, his history-taking lacked structure and raised concern for potentially omitting critical clinical details. Although a more organized and explicit verbalization of actionable management steps would have been preferred, he did identify and explain most of the necessary actions in each scenario to the patients. Both patients rated this physician highly and outlined that they felt “well cared for” during the simulation.

- c) Uncomplicated Vaginal Delivery (SimMom®)
- d) Vaginal Delivery with Shoulder Dystocia (SimMom®)
- e) Vaginal Delivery with Postpartum Bleeding (SimMom®)

SimMom® Simulation Evaluation:

The consultant observing these simulations reported that the physician demonstrated more than adequate clinical performance across all three obstetrical scenarios. His management of normal vaginal delivery, shoulder dystocia, and postpartum hemorrhage was calm, deliberate, and technically competent. He maintained composure and communicated clearly throughout the simulations. Additionally, he was receptive to feedback and engaged openly in discussion regarding alternative management approaches.

In the postpartum hemorrhage scenario, he participated in a productive discussion concerning the timely activation of a massive transfusion protocol (MTP) once the estimated blood loss reached 1,500–2,000 milliliters. He demonstrated a clear understanding of the clinical benefits of early MTP initiation and its role in optimizing resource utilization through delegation to ancillary staff such as emergency department nurses and nursing supervisors. Despite this, he did not activate the protocol during the simulation.

Conclusion: The KSTAR committee determined that the physician’s performance met the expected standard for this portion of the assessment.

Peer-Reviewed Record Presentations

In this exercise, the physician was provided five redacted hospital charts that had undergone peer review by a designated committee. The examinee received the charts in advance of the assessment and was instructed to review them thoroughly, noting both pertinent positive and negative findings. During the assessment, the physician was required to present each case to the KSTAR facilitator in a manner consistent with an effective clinical hand-off to a colleague. Following each presentation, the physician was asked to comment on strengths and areas for improvement related to the care documented in the record.

The clinical cases reviewed included the following presentations:

- Vaginal delivery with sterilization, complicated by acute posthemorrhagic anemia and postpartum bleeding
- Full-term pregnancy with cesarean delivery, complicated by diabetes mellitus and cephalopelvic disproportion secondary to fetal macrosomia

- Repeat cesarean delivery with breech presentation and intrauterine growth restriction, complicated by pregnancy-induced hypertension
- Hysterectomy complicated by inadvertent bladder injury and postoperative wound dehiscence
- Ruptured ectopic pregnancy initially misdiagnosed as a urinary tract infection

The physician demonstrated thorough chart review and successfully extracted relevant information from all sections of each record. The presentations were organized, concise, and appropriately highlighted the key findings. His critiques were relevant and constructive.

According to the consultant involved in this portion of the evaluation, the physician presented the cases in a manner consistent with reporting to a supervising attending and performed satisfactorily across all five cases. He effectively identified critical clinical concerns and, when appropriate, noted deficiencies in medical or surgical management. He also exhibited familiarity with evidence-based alternative management strategies and discussed them competently.

Consultant's Conclusion: The physician's performance during this module was more than satisfactory. He demonstrated sound clinical judgment, appropriate clinical knowledge, and a willingness to learn and improve consistent with professional expectations. No concerns were identified that would limit his ability to safely continue practicing clinical obstetrics.

The KSTAR Committee determined that his performance met—and at times exceeded—the expected standard for this component of the assessment.

NBME Subject Examination Program

Obstetrics and Gynecology Examination: The subject examination score is reported as an equated percent correct score, which reflects the examinee's mastery of the content domain. The National Board of Medical Examiners (NBME) calculates this score as the percentage of items answered correctly across the content domain, adjusted for item difficulty. For recent administrations, the mean score for first-time examinees from LCME-accredited U.S. and Canadian medical schools was approximately 79, with a standard deviation of 7.

The physician achieved a total equated percent correct score of 75. His strongest performance areas were in Applying Foundational Science Concepts and within the Inpatient site of care. His lowest performance area was Obstetric Complications.

	Your EPC Score	Comparison Group Average EPC Score	Score Comparison: Lower Same Higher	% of Questions
Performance by Organ System/Topic				
Female Reproductive System & Breast	67	79		40 - 45%
Obstetric Complications	59	73		10 - 15%
Performance by Physician Task				
Health Maintenance, Prevention & Surveillance	73	74		13 - 17%
Applying Foundational Science Concepts	86	80		8 - 12%
Diagnosis	72	79		45 - 50%
Pharmacotherapy, Intervention & Management	71	75		20 - 25%
Performance by Site of Care				
Ambulatory	69	77		70 - 75%
In-Patient	89	78		15 - 20%

The KSTAR Committee considered his overall score to be adequate. However, the lower performance in Obstetric Complications and Female Reproductive System & Breast indicates a need for focused improvement in this domain to ensure comprehensive clinical proficiency in obstetrics.

KSTAR Pharmacotherapy Module Test

KSTAR developed a 40-item multiple-choice examination to **evaluate current pharmacotherapy knowledge across the primary care spectrum**, including topics in infectious disease, hypertension, endocrinology, dermatology, pulmonology, behavioral medicine, and complementary and alternative medicine.

The physician correctly answered 12 questions, achieving a score of 30%. In comparison, most physicians score between 47% and 58% on this assessment. Individuals scoring below 75% are typically required to complete the KSTAR Pharmacotherapeutics Module.

The KSTAR Committee determined that this score reflects a deficiency in general medical pharmacotherapy knowledge. The Committee recommends that the physician complete the KSTAR Pharmacotherapeutics Module for Reentry Physicians as part of the educational plan. Following completion of the module readings, a post-test score of at least 75% is required. Multiple attempts are permitted, and there is no additional fee for the testing.

KSTAR Ethics and Professionalism Knowledge Test

KSTAR assembled a 50-item multiple-choice test that covers various contemporary topics in Medical Ethics and Professionalism. Physicians who score above 75% achieve a passing score. We suggest that those scoring below 75% complete a set of readings and then reattempt the test or add Ethics & Professionalism topics to their plan for ongoing professional development. He answered 60% of the

questions correctly, which is an average score for physicians who complete this test as part of their KSTAR assessment.

The KSTAR Committee agreed this physician scored lower than most physicians who complete this test as part of their assessment. We suggest he complete the Ethics & Professionalism review reading. After completing the reading, a post-test score of 75% or greater is required, with multiple attempts allowed.

Cognitive Screening

The physician completed a cognitive screening evaluation consisting of the MicroCog, Wisconsin Card Sorting Test (WCST), Trails A and B, and the Rey-Osterrieth Complex Figure Test. This battery is not diagnostic but serves as a preliminary screening tool to determine the need for more comprehensive neuropsychological testing.

The MicroCog assessed attention, concentration, memory, perceptual abilities, abstract reasoning, and calculation. The WCST, Trails A and B, and the Rey-Osterrieth Complex Figure Test evaluated executive function. Except for the MicroCog—which includes both age-based and physician-specific norms—the remaining tests rely solely on age-based norms.

On the MicroCog, the physician's performance consistently exceeded physician group norms. Relative to age-based cohorts, cognitive skills were in the average to above-average range. Performance on Trails A was exceptionally high compared to age-matched peers, and the score on Trails B, which assesses attention-switching, was also in the exceptionally high range. On the WCST, the physician successfully completed all six categories, indicating strong strategy formation and sustained focus. On the Rey-Osterrieth Complex Figure Test, the copy was accurate, and both immediate and delayed recall scores were in the exceptionally high range.

The interpreting clinical neuropsychologist concluded that the physician performed at an exceptionally high level across all measures. No additional cognitive testing is recommended.

Review of Documentation

The examinee was required to write encounter notes for both of his standardized patients. The notes were legible and followed SOAP (Subjective, Objective, Assessment, Plan) format. The notes conveyed the essential components of the evaluations and supported his clinical decisions.

The KSTAR committee concluded that his documentation, as done for the standardized patient encounters, was acceptable.

Review of Recent Professional Development

This physician was asked to submit evidence of the continuing medical education that he had received in the 12 months leading up to his assessment. He submitted a certificate from the CPEP: Medical Records Keeping Seminar, earning 10.50 AMA PRA Category 1 Credits. The KSTAR Committee concluded that

his current plan for professional development needs to be significantly enhanced. His performance on the NBME Obstetrics and Gynecology examination indicated a clear deficit in the area of obstetric complications. Additionally, results from his pharmacology assessment suggested a potential knowledge gap in general medicine.

The KSTAR Committee agreed that his current plan for professional development is inadequate. He is advised to develop and implement a structured monthly CME plan that specifically addresses identified areas of deficiency, including obstetric complications, female reproductive system and breast, and general medicine topics relevant to women's health.

KSTAR Evaluation Committee Conclusions: Core Competencies

- 1) **Medical Knowledge:** His in-specialty medical knowledge appears very good as demonstrated by his performance on the peer-reviewed charts and the standard patient exercise. His scores on the NBME suggest possible deficiencies in both obstetric complications and female reproductive system topics. Additionally, his knowledge of general medicine may have some gaps that need to be addressed.
- 2) **Patient Care:** This appears to be an area of relative strength for this physician. He demonstrated the ability to efficiently interview, diagnose, and develop reasonable clinical management plans for standardized patients. His performance in the SimMom® Simulation outlined a good technical knowledge regarding obstetric procedures.
- 3) **Interpersonal and Communication Skills:** The physician demonstrated a respectful and empathetic communication style and effectively explained his clinical impressions and management plans to the standardized patients.
- 4) **Professionalism:** The physician was on-time and appropriately dressed for all components of his assessment. His communications were always respectful with the standardized patients and KSTAR staff. He demonstrated very good insight into his past problems with state regulatory agencies.
- 5) **System-Based Practice:** This physician showed an appreciation of how system factors affect patient care and outcomes when he performed the peer-reviewed chart presentations.
- 6) **Practice-Based Learning and Improvement:** The physician reported that his current group practice setting has enhanced his ability to seek input and advice from colleagues. In addition, he successfully completed the peer-reviewed chart review exercise. These actions demonstrate his capacity to engage effectively in quality improvement activities.

FORMULATION AND RECOMMENDATIONS

Discussion

The physician was referred by the Oklahoma State Board of Osteopathic Examiners for an assessment of his clinical competence in obstetrics and gynecology. His stated objective was to demonstrate his ability to practice safely within his current group setting, despite concerns raised by the Board.

The KSTAR Committee concluded that the physician's performance during the comprehensive assessment reflected sound medical judgment, an adequate knowledge base, and sufficient technical skills to practice safely in his specialty. However, the Committee determined that he should commit additional time and effort to developing and implementing a continuous professional development plan. Recommendations for this plan are outlined below.

Recommendations and Suggestions

1. The KSTAR Committee concluded that the physician's performance in the comprehensive assessment demonstrated sound medical judgment, an adequate knowledge base, and sufficient technical skills to practice safely within the specialty of obstetrics and gynecology.
2. It is recommended that the physician pursue recertification in Obstetrics and Gynecology and participate in a Board Review course to reinforce core clinical knowledge.
3. The physician should develop a structured monthly plan to obtain CME focused on areas of identified deficiency, as indicated by board certification test results, Board Review course performance, and findings from this assessment. Emphasis should be placed on topics related to obstetric complications, female reproductive system, and general medical issues associated with women's health. The plan should ensure the completion of 50 to 75 CME hours annually.
4. The physician is advised to complete the KSTAR Pharmacotherapeutics Module for Reentry Physicians as part of the educational plan. A minimum score of 75% is required on the post-test following completion of the readings. Multiple attempts are permitted, with no additional testing fees.
5. The physician should complete the Ethics and Professionalism review module, including all assigned readings. A post-test score of at least 75% is required, with multiple attempts allowed.

Note: KSTAR assessments should be viewed as part of the process for determining the ability of a Physicians to return to the unrestricted practice of medicine. It is not a certification of competence or licensure, but rather an assessment of an applicant's performance on a specific set of standardized examinations, processes, peer-reviewed chart reviews, NBME-prepared tests, and other assessment tools as deemed appropriate.

This Final Report represents a consensus of the participating KSTAR Committee members, and a copy of this report will be distributed to the Committee members, the assessed clinician, and all parties designated by the assessed clinician by the signed release of information.

Sincerely,

Charles E. Bell, MD

KSTAR Medicine Program
Rural and Community Health Institute
Texas A&M University Health

malignancies by knowingly performing the incorrect procedure. These incidents put each patient's long-term survival at risk and constitute multiple instances of negligence, malpractice, and incompetence under the circumstances.

4. On July 9th, 2024, Board investigators received a National Practitioners Data Bank ("NPDB") alert for Dr. Lehman indicating that his clinical privileges at Integris Woodward had been suspended. Documentation provided by Integris Woodward to Board investigators indicated that Dr. Lehman was initially given a fourteen (14) day summary suspension effective June 6, 2024. The suspension stemmed from a review of his handling of multiple birth scenarios. Dr. Lehman was notified of this suspension via letter and email.
5. Dr. Katherine Shepherd, DO, FACOG, appeared as an expert witness at the December 12, 2024 hearing and gave the following testimony which the Board finds is authoritative and correct in stating the facts and appropriately states the relevant medical standards:
 - a. It was Dr. Shepherd's opinion that Dr Lehman was practicing outside the scope of practice of a general obstetrician and gynecologist. He was putting the women of Oklahoma at unnecessary risk and practicing outside the standard of care.
 - b. In the case of patient, Patient K, Dr Lehman practiced outside the scope of his practice as a general gynecologist. He initiated a workup that was appropriate for postmenopausal bleeding after the patient presented to the Emergency Department in 7/4/2020. The ultrasound that was obtained showed an 11cm uterus with an endometrial thickness of 4cm. Evidence based practice would dictate a biopsy of the lining of the uterus, as anything beyond 4 mm in a postmenopausal patient is considered abnormal. Dr Lehman proceeded with a hysteroscopy D&C, which he noted in his dictation that the lining did not appear normal and likely consistent with cancer. He also noted in the hysteroscopy

operative report that her introitus was not conducive to a laparoscopic assisted vaginal hysterectomy due to narrowing. The pathology from the hysteroscopy showed malignant mixed mullerian tumor. At this point, the appropriate treatment would have been a referral to gynecology oncology for hysterectomy with staging. Instead, Dr Lehman proceeded to schedule the patient for a laparoscopic assisted vaginal hysterectomy with pelvic washings. It was noted in his office notes that he knew the patient had a cancer and still proceeded.

- c. When he performed the hysterectomy of Patient K, it was converted to a total abdominal hysterectomy due to the narrow introitus and limited vaginal access. Again, standard of care, would be a hysterectomy with staging procedures, which would include lymph node dissection. He did not counsel the patient that his plan was inadequate staging nor that she might need a further surgery.
- d. Post operatively, after the hysterectomy, Patient K was sent to OU Gynecology Oncology where she was informed that she had been inadequately staged. They recommended chemotherapy and radiation oncology with vaginal brachytherapy. This was a blatant mismanagement of a known cancer diagnosis with improper surgical staging.
- e. In the case of Patient H, Dr Lehman practiced outside the scope of his practice as a general gynecologist. He initiated a workup for postmenopausal bleeding that was appropriate and standard of care in June 2017. An ultrasound that showed a thickened endometrium at 19mm. Again, evidence-based practice would dictate a biopsy if greater than 4mm. Dr Lehman completed a hysteroscopy D&C which pathology showed high grade endometrial adenocarcinoma. He then recommended the patient have a hysterectomy with pelvic washings, which is not standard of care for endometrial adenocarcinoma. Standard of care would be a hysterectomy with staging and lymph node dissection.

- f. After the hysterectomy of Patient H, he then referred the patient to OU gynecology oncology. It is unclear if the patient followed through with the initial referral but was seen at OU in 2020 for recurrence of her cancer.
- g. In the case of Patient Y, Dr Lehman practiced outside the scope of his practice as a general gynecologist. The patient was seen for acute anemia and found to have an enlarged uterus in June 2019. She had an ultrasound that showed endometrial thickness of 5.6cm. Per standard of care for thickened endometrium, Dr Lehman completed a hysteroscopy and the pathology showed endometrial adenocarcinoma. At this point, Dr Lehman scheduled the patient for a hysterectomy with pelvic washings. The standard of care for an endometrial adenocarcinoma is hysterectomy with staging and lymph node dissection. The hysterectomy pathology resulted on July 11, 2019, and showed invasive adenocarcinoma with positive washings for malignancy.
- h. Dr Lehman then referred Patient Y to Dr Jeffrey Smith, gynecology oncology in Oklahoma City.
- i. On August 1, 2019, Dr Lehman released Patient Y to have an elective orthopedic surgery, even though she had a known endometrial malignancy and needed further surgery for the malignancy. Later that month, she had imaging that showed a DVT along with enlarged lymph nodes and right hydronephrosis. At some point, she was then referred to OU Gynecology Oncology as Dr Smith closed his practice.
- j. Patient Y was seen in November 2019 by Dr Richards who explained to the patient that she was inadequately staged, and it had now been 4 months since her hysterectomy. Dr Richards documented that the standard of care should have at least been lymph node dissection and all adjuvant therapy should have been started within at least 12 weeks. Dr Richards recommended vaginal brachytherapy and deferred the lymph node dissection due to the lymphedema already present in her lower extremity. The patient did complete vaginal cuff brachytherapy through OU.

- k. In the case of Patient S, Dr Lehman practiced outside the scope of his practice as a general gynecologist. He initiated a workup in September 2019 that was appropriate for postmenopausal bleeding with an ultrasound that showed an endometrial thickness of 17mm. He performed a hysteroscopy D&C with the pathology showing endometrial adenocarcinoma. At this time, appropriate treatment would have been a hysterectomy with full staging and lymph node dissection. Dr Lehman did not do that, but instead he performed a hysterectomy on October 31, 2019, with pelvic washings and the pathology showed endometrial carcinoma.
 - l. Patient S, was then referred to OU gynecology oncology. The patient was seen, had a CT of the pelvis to assess node status since lymph node dissection was not completed at the time of the hysterectomy. She had a port placed and received chemotherapy.
- 6. It is the finding of the Board, after reviewing all the evidence presented, that in all four cases presented that Dr Lehman was practicing outside the standard of care when managing known uterine malignancies.
 - 7. It is the finding of the Board, that Dr Lehman knowingly did the incorrect procedure on these patients, which put their long-term survival at risk due to improper staging for an endometrial malignancy. It is standard of care to perform a hysterectomy with staging including lymph node dissection on a patient with a known endometrial malignancy.

CONCLUSIONS OF LAW

- 8. The Board has jurisdiction over the subject matter and is a duly authorized agency of the State of Oklahoma empowered to license and oversee the activities of osteopathic physicians in the State of Oklahoma. 59 O.S. § 620 et seq. and Okla. Admin. Code §§ 510: 1-1 -1 et seq.
- 9. The Board is authorized to suspend, revoke or order any other appropriate conditions against the license of any osteopathic physician holding a license

to practice medicine in the State of Oklahoma for unprofessional conduct.
59 O.S. §§ 637.1.

10. The Board finds that Dr. Lehman is in violation of the Oklahoma Osteopathic Medicine Act (the "Act"), Tit. 59 O.S. § 637(A)(2) and (A)(4), which states:

A. The State Board of Osteopathic Examiners may ... suspend or revoke any license issued or reinstated by the Board upon proof that the applicant or holder of such a license:

...

2. Has engaged in the use or employment of ... unethical conduct or unprofessional conduct, as may be determined by the Board, in the performance of the functions or duties of an osteopathic physician, [or] ... 4. Has engaged in repeated acts of negligence, malpractice or incompetence[.]

ORDER

IT IS HEREBY ORDERED, ADJUDGED AND DECREED by the Board that Dr. Lehman's license to practice osteopathic medicine in the state of Oklahoma is subject to the following terms and conditions:

1. The Board Orders that Respondent shall complete within six (6) months, at his expense, an assessment for physician competency in a program approved in advance by the Board Staff. Programs such as the Center for Personalized Education for Physicians (CPEP), KSTAR (Knowledge, Skills, Training, Assessment and Research), or Physician Assessment and Clinical Education Program (PACE) would be appropriate for this evaluation.
2. Dr. Lehman shall sign any and all authorizations necessary to release the findings of the evaluation directly to the Board.
3. Following receipt of the requested documentation and information, Dr. Lehman shall appear before the Board at the next scheduled meeting.
4. This Order is not a final determination of this Board and is therefore not appealable as a final order.

5. The Board has not reached any final determination, and any violation of this Order may result in further discipline of Dr. Lehman's license to practice osteopathic medicine in the State of Oklahoma.

This Order is a public record and therefore subject to the Oklahoma Open Records Act. Further, this Order may be reportable to the National Practitioner Data Bank ("NPDB") pursuant to federal law, including but not limited to, 45 CFR Part 60.

IT IS HEREBY ORDERED AND EFFECTIVE this 12th day of DECEMBER 2024.

Chelsey Gilbertson, D.O.

Chelsey Gilbertson, D.O. (Dec 16, 2024 15:18 CST)

Chelsey Gilbertson, D.O.
Board President
State Board of Osteopathic Examiners

wrongdoing, and the Board found by clear and convincing evidence that he failed to provide call coverage, falsified medical records, and committed patient abandonment.

4. As a result, the Board levied a punishment on December 9, 2010, for one (1) year probation, and required Dr. Lehman to complete medical ethics training, proper medical record, charting courses, address any issues raised by a CPEP investigation, instruct hospitals where he enjoyed privileges to report any incidents to the board, and pay the investigative costs of \$4,148.

5. Dr. Lehman received an Order Terminating Probation on September 22, 2011, for good cause shown three (3) months prior to completion of a full calendar year.

6. Dr. Lehman became board-certified in obstetrics and gynecology in 2011 but allowed that certification to lapse in 2016. He has not renewed board certification since that time.

7. On December 12, 2024, the Board issued an Interim Order Directing Competency Evaluation in OSBOE-2021-201. The Board found Dr. Lehman violated the Oklahoma Osteopathic Medicine Act (hereinafter referred to as “the Act”), Tit. 59 O.S. § 637(A)(2) and (A)(4), which states:

A. The State Board of Osteopathic Examiners may ... suspend or revoke any license issued or reinstated by the Board upon proof that the applicant or holder of such a license:

...

2. Has engaged in the use or employment of ... unethical conduct or unprofessional conduct, as may be determined by the Board, in the performance of the functions or duties of an osteopathic physician, [or] ...

4. Has engaged in repeated acts of negligence, malpractice or incompetence[.]

8. The Board found Dr. Lehman was practicing outside the standard of care when managing known uterine malignancies.

9. The Board found Dr. Lehman knowingly did the incorrect procedure on the patients identified in OSBOE-2021-201, which put their long-term survival at risk due to improper staging for endometrial malignancy.

10. At the expense of Dr. Lehman, The Board Ordered him to complete an approved physician competency program within six (6) months.

11. Dr. Lehman has multiple new violations of the Act as it relates to two new investigations not previously considered for action by the Board. The first investigation stems from a suspension of privileges from Integris Health Woodward Hospital in June 2024 and a failure to report this action. The second investigation stems from his treatment and failure to report a malpractice action in CJ-2023-52.

A. Suspension from Integris Health Woodward Hospital

12. At all relevant times, Dr. Lehman had clinical privileges at Woodward Hospital.

13. On July 9, 2024, Board investigators received a National Practitioners Data Bank (hereinafter referred to as “NPDB”) alert for Dr. Lehman indicating his clinical privileges at Integris Health Woodward Hospital (hereinafter referred to as “Woodward Hospital”) had been suspended.

14. Documentation provided by Woodward Hospital when requested by the Board in response to the NPDB alert, indicates Dr. Lehman was initially given a fourteen (14) day summary suspension effective June 6, 2024. The suspension stemmed from a review of multiple cases of sub-par OBGYN care provided at the time of multiple births.

15. When Dr. Lehman applied for a licensure renewal on July 2, 2024. He did not report his suspension to the Board or disclose his suspension in his renewal application.

16. On June 6, 2024, Woodward Hospital's Medical Executive Committee ("MEC") suspended Dr. Lehman's clinical privileges due to concerns related to the care he provided to Patient K.O., Patient T.B., and Patient M.D. on or about June 1, 2024.

17. On October 4, 2024, the MEC conducted an external review of the cases mentioned above.

18. With regard to Patient K.O., the MEC found Dr. Lehman exceeded the maximum time limit for utilizing the Kiwi device and his charting was inadequate for Patient K.O.

19. With regard to Patient T.B., the MEC found Dr. Lehman's charting documentation was inadequate.

20. With regard to Patient M.D., the MEC found Dr. Lehman maintained an inadequate medical record due to poor charting. Additionally, they found he did not adhere to widely accepted guidelines suggesting a lower target level of hemoglobin as a goal for post-transfusion in a non-hemorrhaging patient who is also not at high risk for coronary artery disease.

21. The MEC also found it has been engaged in efforts to address Dr. Lehman's inadequate documentation since at least 2015, and his lack of documentation and lack of efforts to improve his documentation constitutes a risk to patient care and safety.

B. Named Defendant in CJ-2023-52

22. The Board received an NPDB alert indicating a January 2025 settlement of a 2023 lawsuit related to Dr. Lehman's patient care.

23. Dr. Lehman received notice of this lawsuit in August of 2023 but failed to report it on his 2024 Board renewal application or report it to the Board at the Hearing in December of 2024.

24. CJ-2023-52 in the District Court of Woodward County, involved the death of an infant shortly after its birth on July 31, 2022. One in which Dr. Lehman waited over thirty-nine (39) hours to see Patient L.I. after being made aware she had presented to Woodward Hospital for premature membrane rupture and contractions. Records indicate Dr. Lehman used a vacuum device to assist with delivery. The infant was found to have suffered from chorioamnionitis, pneumonia, and skull fractures and died within a day of birth.

CONCLUSIONS OF LAW

1. The Board has jurisdiction over the subject matter and is a duly authorized agency of the State of Oklahoma empowered to license and oversee the activities of osteopathic physicians in the State of Oklahoma. 59 O.S. § 620 et seq. and Okla. Admin. Code §§ 510: 1-1 -1 et seq.
2. The Board is authorized to suspend, revoke or order any other appropriate conditions against the license of any osteopathic physician holding a license to practice medicine in the State of Oklahoma for unprofessional conduct. 59 O.S. §§ 637.1.
3. The Board finds that Dr. Lehman is in violation of the Oklahoma Osteopathic Medicine Act (the "Act"), Tit. 59 O.S. § 637(A)(1), (A)(2)(f), and (A)(4), which states:

- A. The State Board of Osteopathic Examiners may ... suspend or revoke any license issued or reinstated by the Board upon proof that the applicant or holder of such a license:
1. Has obtained a ...license renewal ...through... deception, [or] misrepresentation ... or has been granted a ...license renewal ...based upon a material mistake of fact;
 2. Has engaged in the use or employment of ... unethical conduct or unprofessional conduct, as may be determined by the Board, in the performance of the functions or duties of an osteopathic physician, including but not limited to the following:
...
f. acting in a manner which results in final disciplinary action by any professional society or association or hospital or medical staff of such hospital in this or any other state, whether agreed to voluntarily or not, if the action was in any way related to professional conduct, professional competence, malpractice or any other violation of the Oklahoma Osteopathic Medicine Act[.]
...
4. Has engaged in repeated acts of negligence, malpractice, or gross incompetence[.]

ORDER

IT IS HEREBY ORDERED, ADJUDGED AND DECREED by the Board that Dr. Lehman's license to practice osteopathic medicine in the state of Oklahoma shall be temporarily suspended subject to the following terms:

1. The Board Orders that Respondent shall complete his KSTAR (Knowledge, Skills, Training, Assessment and Research) evaluation, as scheduled, for June 23 – June 24, 2025, at his expense.
2. Respondent shall ensure his KSTAR evaluation is focused on the practice of Obstetrics and Gynecology (OBGYN) and his clinical competency.
3. Dr. Lehman shall sign any and all authorizations necessary to release the findings of the evaluation directly to the Board.

4. Following receipt of the requested documentation and information, Dr. Lehman shall appear before the Board at the next scheduled meeting for further consideration regarding his temporary suspension.
5. This Order is not a final determination of this Board and is therefore not appealable as a final order.
6. The Board has not reached any final determination, and any violation of this Order may result in further discipline of Dr. Lehman's license to practice osteopathic medicine in the State of Oklahoma.

This Order is a public record and therefore subject to the Oklahoma Open Records Act. Further, this Order may be reportable to the National Practitioner Data Bank ("NPDB") pursuant to federal law, including but not limited to, 45 CFR Part 60.

IT IS HEREBY ORDERED AND EFFECTIVE this 19th day of JUNE 2025.

Katie Templeton, J.D. (Jun 20, 2025 15:06 CDT)

Katie L. Templeton, J.D.
Board Vice President
State Board of Osteopathic Examiners

JOINTLY PROPOSED ORDER

STEPHEN
TREADWELL,
D.O.

2909

ELIZABETH SCOTT, J.D.

6. As a result, investigator Fullbright traveled to Healdton, Oklahoma that evening. Dr. Treadwell was given notice of the allegations and informed of his required attendance at the June 2025 Board Hearing.

7. During the conversation between Dr. Treadwell and investigator Fullbright, Dr. Treadwell made various incriminating statements that appear to be in violation of the Act.

8. An investigation was initiated regarding the allegations in the initial complaint.

II. CAUSES OF ACTION

9. Dr. Treadwell has violated Tit. 59 O.S. § 637(A)(2); Tit. 59 O.S. § 637(A)(2)(d); Tit. 59 O.S. § 637(A)(9); and Tit. 59 O.S. § 725.2 (G) which state:
§637(A).

The State Board of Osteopathic Examiners may institute disciplinary action, enforce sanctions, ...may suspend or revoke any license issued or reinstated by the Board upon proof that the applicant or holder of such a license:

...

§637(A)(2).

Has engaged in the use or employment of...unethical conduct or unprofessional conduct, as may be determined by the Board, in the performance of the functions or duties of an osteopathic physicians including, but not limited to, the following:

...

§637(A)(2)(d).

delegating professional responsibilities to a person who is not qualified by training, skill, competency, age, experience or licensure to perform them, noting that delegation may only occur within an appropriate physician-patient relationship, wherein a proper patient record is maintained including, but not limited to, at the minimum, a current history and physical.

...

§637(A)(9).

Has been guilty of advertising by means of knowingly false or deceptive statements [.]

§ 752.2 (G) et seq.

It shall be unlawful for any medical doctor, doctor of osteopathic medicine, ...to make any deceptive or misleading statement, or engage in any deceptive or misleading act, that deceives or misleads the public... regarding the training and the license under which the person is authorized to practice.

A. 59 O.S. § 637 (A)(2)

10. Upon information and belief, Dr. Treadwell has shown a pattern of engaging in unethical or unprofessional conduct.

11. Dr. Treadwell's personal behavior interferes with his ability to soundly practice medicine and provide quality care for patients.

B. 59 O.S. § 637 (A)(2)(d)

12. Upon information and belief, Dr. Treadwell has allowed a non-licensed professional to provide care for patients in his clinic.

13. Dr. Treadwell has allowed students to provide care to patients without proper supervision.

14. Dr. Treadwell has allowed a non-licensed physician to conduct testosterone pellet procedures in his clinic without oversight.

C. 59 O.S. § 637 (A)(9)

15. Dr. Treadwell has falsely claimed on multiple occasions to possess five (5) board certifications in various areas of practice.

16. Dr. Treadwell does not possess board certifications in any area of practice.

D. 59 O.S. § 752.2 (G) et seq.

17. Dr. Treadwell mislead the public by purporting to add “Dr. Jaine Queiroz... another general practitioner...” to his clinic in Healdton, Oklahoma.

18. Dr. Treadwell intended to deceive the public by deceptively advertising through his website the addition of an “M.D.” to the staff.

III. VIOLATIONS OF THE ACT

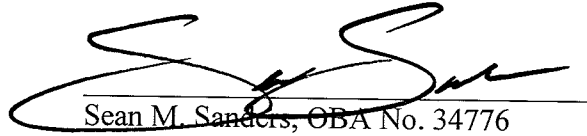

19. Dr. Treadwell has violated the Act by:

- a) *“Has engaged in the use or employment of...unethical conduct or unprofessional conduct,...”* Tit. 59 O.S. § 637(A)(2);
- b) *“delegating professional responsibilities to a person... not qualified...”* Tit. 59 O.S. § 637(A)(2)(d);
- c) *“advertis[ed] by means of knowingly false or deceptive statements”*; Tit. 59 O.S. § 637(A)(9); and
- d) *“mak[ing]... deceptive or misleading statement[s]... that deceives or misleads the public... regarding the training and the license under which the person is authorized to practice.”* Tit. 59 O.S. § 752.2 (G) et seq.

WHEREFORE, premises considered and pursuant to Tit. 59 O.S. § 637 et. seq., Deputy General Counsel, Sean M. Sanders, asks the board find Dr. Treadwell has violated the Act, and as a result, requests he be required to attend a proper assessment related to his unethical or unprofessional conduct, CME classes be required related to acceptable delegation of responsibilities, fees be assessed and levied with regard to the false statements in violation of the Act, and the statutory maximum be levied for violations of Tit. 59 O.S. § 752.2 (G).

Furthermore, Counsel asks that Dr. Treadwell be found responsible for the fees and costs associated with prosecution of these violations, and/or any other relief the Board finds equitable and just.

Respectfully submitted by:

A handwritten signature in black ink, appearing to read 'Sean M. Sanders', is written over a horizontal line.

SUB COMMITTEE REPORTS

OSBOE Mental Health Subcommittee Meeting

Date: August 29, 2025

Time: 11:00 AM

Location: Hybrid Meeting In-Office / Teams

Attendance

Present:

Chelsey Gilbertson, D.O. – Board President
Katie Templeton, J.D. – Board Vice President
Dennis Carter, D.O. – Board Member
Layne Subera, D.O. – Board Member

Background Discussion

Board Deputy Director, Beth Vincent, announced that the reason this subcommittee was formed was to discuss the suggestions made by the Lorna Breen Heroes' Foundation regarding the reporting of mental health/health related information related to licensure.

Review of Lorna Breen Suggestions

The subcommittee reviewed the suggestions made by the Lorna Breen Heroes' Foundation and then went through the proposed response by OSBOE staff to these suggestions.

Additional Discussion / Comments

No additional comments were made.

Action Items

1. Board staff was directed to implement the proposed changes to the initial licensure application questions by removing and editing questions that pertain to the reporting of current physical ailments or mental health.
2. Board staff was directed to complete the edits to the Post Graduate Training verification form and Medical School Verification. These forms are to be filled out by respective agencies before being sent to OSBOE.
3. Deputy Director Vincent informed the subcommittee the suggestion regarding addition of the Fitness to Practice Attestation was completed during the transition to the newer licensing platform.

OSBOE Reinstatement / Re-Entry Subcommittee Meeting

Date: August 28, 2025

Time: 1:00 PM

Location: Hybrid Meeting In-Office / Teams

Attendance

Present:

Chelsey Gilbertson, D.O. – Board President
Katie Templeton, J.D. – Board Vice President
D. Matt Wilkett, D.O. – Board Member

Absent:

Duane Koehler, D.O. – Board Secretary

Background Discussion

Board Deputy Director, Beth Vincent, announced that the reason this subcommittee was formed was to discuss the Reentry to Practice Report (LINK) the Federation of State Medical Boards (FSMB) adopted at their annual House of Delegates meeting in April 2025. As a result of this report, it was suggested the current Board guidelines for Re-Entry and Reinstatement be edited to remain in line with FSMB's findings.

Review of Staff Suggestions

The subcommittee reviewed the staff suggestions to edit the current guidelines and provided feedback on edits of their own.

Items for Consideration

1. The subcommittee agreed that board staff collecting information from the licensee base on physicians who would be interested in hearing about Preceptor/Mentorship opportunities would be helpful in situations where one is required. Board staff will begin collecting this data at the next renewal.
2. The subcommittee agreed that the roadmap for those considering a temporary leave from medicine (Appendix A, page 17) would be a useful resource for physicians. Board staff will add it to the website and to the end of the reinstatement / re-entry policy.
3. The subcommittee stated that identifying clinically inactive physicians would be useful in return to practice scenarios. Board staff will begin collecting this data at the next renewal.

4. The subcommittee discussed the merits of premade preceptor / mentor applications and determined that gathering of the initial data should be uniform through the use of a form/template and the preceptor progress reports should be tailored to each specific board approved preceptor plan.

Additional Discussion / Comments

1. The subcommittee determined that adding a provision to the Reinstatement and Re-Entry policy regarding physicians currently on probation or paying restitution should be left to the board's discretion.

Action Items

1. The proposed policy with edits from staff and the subcommittee will be presented for board review and possible approval at the September 18, 2025 meeting.
2. Board staff will work on new data to be gathered at the next renewal period.
3. Board staff will add the roadmap for physicians considering a temporary leave from medicine to the website.
4. Board staff will work to create relevant templates for physicians in need of a preceptor.

OSBOE Mid-Level Supervision Subcommittee Meeting

Date: August 29, 2025

Time: 9:30 AM

Location: Hybrid Meeting In-Office / Teams

Attendance

Present:

Chelsey Gilbertson, D.O. – Board President
Katie Templeton, J.D. – Board Vice President
LeRoy Young, D.O. – Board Member
Sheila St. Cyr, M.S., R.N. – Board Member

Background Discussion

Board Deputy Director, Beth Vincent, announced that the reason this subcommittee was formed was to discuss guidance to Oklahoma osteopathic physicians regarding recent legislation allowing for independent practice of Physician Assistants and Advanced Practice Registered Nurses.

Review and Discussion of Proposed Scope Policy Statement

The subcommittee reviewed the proposed Recommendations on Scope of Practice Legislation presented by Board staff and discussed edits to be made.

Additional Discussion / Comments

The subcommittee also discussed the possible edits that need to be made to the Osteopathic Medicine Act and the Administrative Rules.

Action Items

1. Board staff was directed to finalize the draft of the Recommendations on Scope of Practice and present before the Board on September 18, 2025, for discussion and possible action.
2. Board staff was directed to ensure statute and rule have been updated according to this legislation.

Licenses

195
Advanced
Resident

206 Resident
Training

4 Temporary
Resident

10 Volunteer
Licenses

25 Emeritus
Licenses

2025 Renewal Statistics

3,932 (including IMLC) Renewals Approved (roughly 93% of eligible licenses, and an increase of 5.5% from last year)

197 Manually Reviewed

133 Sent for Investigations

188 Dispensing Permits Issued (this is a 75% decrease from September 2024)

Licensing Activity – 6/13/2025 to 9/9/2025

106 Applications Reviewed – Every new application is manually reviewed

1 Temporary Resident Training Applications Reviewed

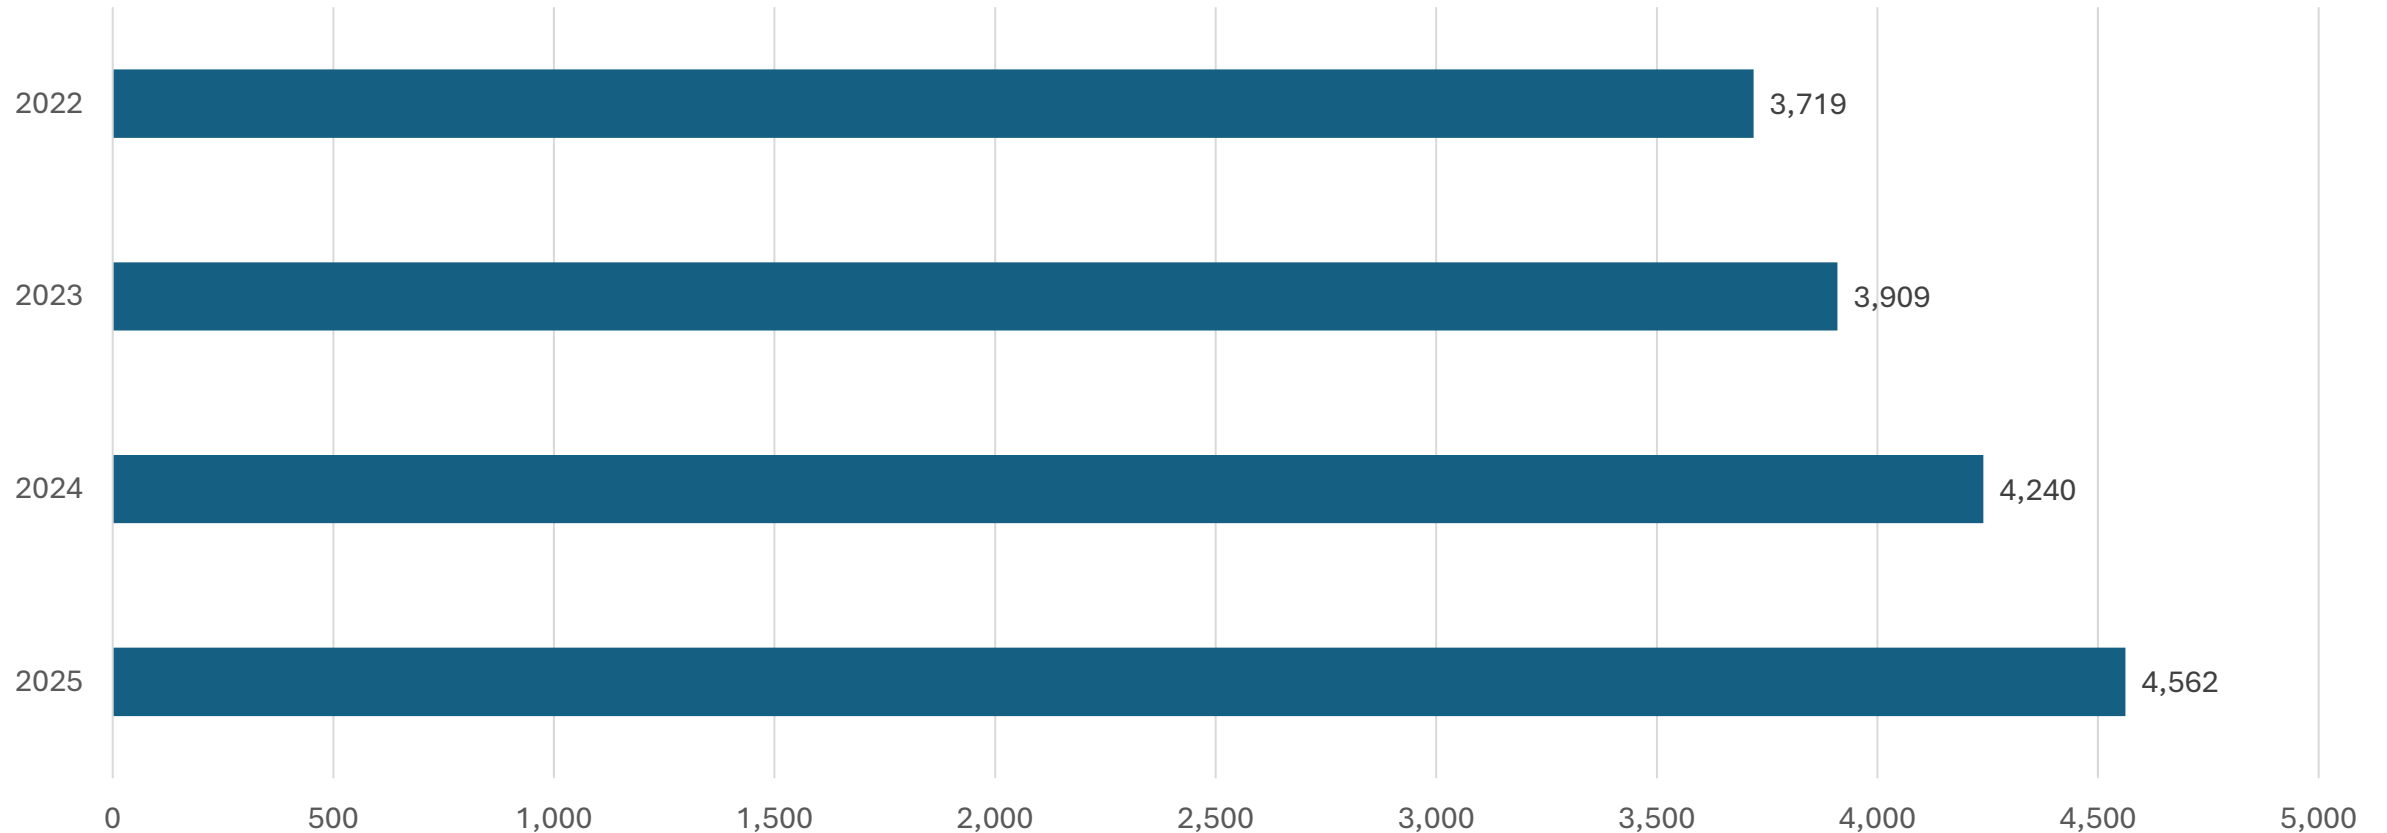

400+ Document Submissions Reviewed

114 Administrative Document Requests Processed

License Increase – September 2022 – September 2025

Additional Activities / Training

Licensing Director Aquino and Deputy Licensing Director were both accepted into the Certified Medical Licensure Board Specialist program and will obtain their CMBL by the end of 2025.

OSBOE Licensing hosted the first annual meeting of Residency Directors and coordinators from all over the state to discuss licensure and updates to legislation.

The licensing department continued to travel to Residencies to train residents on the licensure process.

OSBOE June 2025 – September 2025 Settlements

OSBOE-2025-L121 (\$2,000)
OSBOE-2025-L123 (\$2,000)
OSBOE-2025-L125 (\$2,000)
OSBOE-2025-L127 (\$2,000)

OSBOE-2025-L122 (\$2,000)
OSBOE-2025-L124 (\$2,000)
OSBOE-2025-L126 (\$2,000)
OSBOE-2025-L128 (\$2,000)

Several physicians self-reported they had not completed their statutorily required continuing medication education (CME). Board staff extended a settlement offer that included a fine of \$100 per day without the required CME with a maximum of \$2,000 and private letter of concern, or alternatively, to appear before the Board to provide an explanation for their noncompliance. The cases above chose to settle the matter.

OSBOE-2025-L129 (\$450)
OSBOE-2025-L131 (\$850)

OSBOE-2025-L130 (\$250)

OSBOE staff received reports from a few residency programs that there had been Residents that had practiced without having received their license yet. Board staff extended a settlement offer that included a fine of \$50 per day for each day the resident practiced without a license and private letter of concern, or alternatively, to appear before the board to provide an explanation for their noncompliance. The cases above chose to settle the matter.
