Career Tech

Postsecondary Opportunity Programs & courses

2025-2026 CareerTech Programs and Courses for Postsecondary Opportunity Points

CareerTech courses combine classroom work with skill-based practices to train and develop students in preparation for the workforce. Courses may only be taught by CareerTech-certified instructors.

Local Student Information Systems (SIS)

Reporting Requirements:

The Instructional Level for all CareerTech Courses and Programs is 73044 or Accepted as a High School Equivalent*

CareerTech opportunities are provided through two channels:

8000+

Students are enrolled and complete courses at the local high school or embedded within a technology center program. At a high school or technology center, 8000 courses must be taught by a CareerTech-certified instructor.

9000+

Students enroll and complete a program at an Oklahoma technology center. These programs lead to "Industry Endorsed or Industry Aligned" certifications. To qualify for PSO and 3rd Math on Core, these programs must meet the full-time program requirement.

Important "Best Practices":

9000+ are full-year programs that may be taught year-long with two semester grades or in a block with two semester grades in one semester. (i.e. 1S grade and 2S grade in SIS)
