Introduction: The State of Charter Schools in Oklahoma

Since the passing of the Oklahoma Charter Schools Act in 1999, there have been a total of 42 charter schools founded in Oklahoma, 31 of which are still in operation.

In 2015, along with the statewide expansion of charter schools, amendments to the Oklahoma Charter Schools Act (the “Act”) also brought a new level of accountability. According to the National Alliance for Public Charter Schools, Oklahoma made the biggest jump in state charter law rankings because of the overhaul of its law, including statewide expansion, school and sponsor accountability, and replication of high-quality charters. Further, upon the overhaul of Oklahoma's charter law, National Association of Charter School Authorizers (NACSA) stated that “Oklahoma now has one of the nation's strongest charter laws ... with a focus on school accountability and strong standards” for sponsors.

Oklahoma law now requires that the State, as well as charter sponsors, provide annual performance reviews of charter schools. In fact, the Act is replete with requirements that work to ensure that charter schools are meeting the terms of the school's charter, academic and/or operational goals and measurable achievement benchmarks.

Specifically, the Act grants a sponsor the affirmative power and duty to “provide oversight of the operations of the charter school ... through annual performance reviews of charter schools and reauthorization of charter schools for which it is a sponsor.”
