

Expand Your Learning

Professional Development Overview

A diverse and prepared staff is one of the nine key principles for expanding learning to support student re-engagement identified by the Afterschool Alliance.

“Successful expanded learning programs ensure that the staffing qualifications and on-going professional development are closely linked to program goals and activities and that the blending of teachers and non-teachers allows for a wide range of expertise and breadth of adult perspectives that can help youth feel comfortable learning and exploring and ultimately contribute to their success.”
