Oklahoma Social Studies Instructional Materials Evaluation Rubric

Instructional materials selection is an important district decision, and conducting a thorough review of instructional materials at the local level is essential in ensuring the adoption of high-quality instructional materials that meet the needs of students within a district. This evaluation rubric is designed to offer an evaluation that districts can utilize to determine how well instructional materials align with the Oklahoma Academic Standards for Social Studies (OAS-SS) and other criteria for high-quality instructional materials for social studies. The evaluation rubric includes key considerations for high-quality instructional materials and outlines three **Gateways** for evaluating materials. Each Gateway provides **criterion** and related **indicators** along with **guiding/key questions**. Additionally, **priority indicators** are indicated with an asterisk (*) as they have been deemed most essential to a quality program. Each **indicator** is evaluated as Not Representing Quality, Approaching Quality, or Exemplifies Quality using a 0-1-2 or 0-2-4 scale score.

All scores should be based on evidence directly observed in the instructional materials, not inferences. The evaluation rubric helps reviewers determine whether the materials meet the quality thresholds for each Gateway. If the materials meet the thresholds for **Exemplifies Quality** or **Approaching Quality** for the Gateway, reviewers proceed to the next Gateway. If the materials do not meet these thresholds, reviewers stop and do not advance to the next Gateway.
