

Clean Water State Revolving Fund (CWSRF)
Green Project Reserve Eligibility Determination

Name of System

The Locust Grove Public Works Authority

CWSRF Project Number/Loan Number

ORF-24-0033-CW

General Project Description:

The Authority is under consent order 25-047 (CO) for permit violations, electronic Discharge Monitoring Report (eDMR) violations, and exceeding permit limits for ammonia, total suspended solids, and E.coli from the Oklahoma Department of Environmental Qualities (ODEQ).

The Authority operates a wastewater collection system that is experiencing increasing inflow and infiltration (I&I) due to aging infrastructure, which is leading to sanitary sewer overflows (SSOs). Persistent maintenance issues and system overloading during wet weather events are contributing to elevated operational costs and reduced system reliability.

The proposed project is to perform a sanitary sewer evaluation study (SSES), developing an engineering report from the SSES, and other expenses related to the completion of the study. This help address the CO that is currently issued.

The estimated cost of the project is \$1,500,000.00, which will be fully funded through the Clean Water State Revolving Fund (CWSRF) Principal Forgiveness of \$1,500,000.00.

GPR Component Description:

Item	Category*
I/I Planning and Design	Energy Efficiency
	None
	None

Approved GPR Amount:

\$1,500,000.00

Approved Subsidy Amount (if applicable)

\$1,500,000.00

Approved by:
