

Oklahoma State Board of Pharmacy  
2920 N Lincoln Blvd, Ste A, Oklahoma City, OK 73105

---

## **CE UPDATE**

The CPE Monitor™ service is a collaborative effort by the Accreditation Council for Pharmacy Education (ACPE) and the National Association of Boards of Pharmacy® (NABP®) to provide an electronic system for pharmacists and pharmacy technicians to track their completed continuing pharmacy education (CPE) credits.

Pharmacists who complete ACPE-accredited CPE programs will NOT receive a printed CPE certificate from CPE providers. To receive CPE credit, those pharmacists will first need to register and create an NABP e-Profile with CPE Monitor, if they have not done so already, and provide their unique e-Profile ID and date of birth (mmdd) to the ACPE-accredited CPE provider. The provider will then electronically report the information to ACPE, which will forward the information to NABP in order to record within CPE Monitor. They will then have electronic access to documentation of the credit(s) earned. If pharmacists wish to receive credit for ACPE accredited programs, they must register at [www.MyCPEmonitor.net](http://www.MyCPEmonitor.net) for their unique e-Profile ID. The ID number is a requirement of ACPE, not the Oklahoma State Board of Pharmacy.

Sponsors providing Oklahoma State Board of Pharmacy (“Board”) approved CE (non ACPE-accredited CE) will continue to provide a certificate of completion to pharmacists for CE programs.

The CE submission form may be found by clicking [HERE](#).

Oklahoma pharmacists will still be required to enter their CE information upon renewal of their license (*program, ACPE# or sponsor, date, hours*). If it is necessary to verify the license renewal information for Board CE Audit purposes, NABP, through CPE Monitor, will provide documentation of any ACPE accredited courses that the pharmacist has completed.
