

# THE BOARD'S BULLETIN

A Biannual Publication for Licensees of the Oklahoma State Board of  
Licensure for Professional Engineers and Land Surveyors

March - September, 2013 Volume 26 Issue 75

*In order to safeguard life, health and property, and to promote the public welfare, the practice of engineering and ... land surveying are declared to be subject to regulation in the public interest.*

## BOARD MEMBERS

**George T. Gibson, PE - Chair**  
Oklahoma City

**Ted Sack, PLS - Vice Chair**  
Tulsa

**Robert C. Zahl, PE - Secretary**  
Oklahoma City

**William A. McVey, Jr., PE**

## MESSAGE FROM THE CHAIR

George T. Gibson, P.E. - Chair

### Oklahoma Engineering Center – Past, Present & Future

The Oklahoma Engineering Center (OEC) is the 34 year old home to the State Board of Licensure for Professional Engineers and Land Surveyors, the Oklahoma Engineering Foundation, the Oklahoma Society of Professional Engineers and the American Council of Consulting Engineers. It started as an idea to house all engineering functions in one location. The building is located by the State Capital Building, near Northeast 27<sup>th</sup> St. and Lincoln Boulevard in Oklahoma City.

Until 3 years ago, the owner of the OEC was the Oklahoma Engineering Foundation. The building was built with funds donated from different resources, including many engineers from throughout Oklahoma, and was dedicated on January 25, 1979, under the watch of the following Officers and Trustees of the Oklahoma Engineering Foundation:

#### Officers:

Garth P. Kennedy, PE, President  
Gordon A. McCune, PE, Vice President  
Roy Thompson, PE, Treasurer  
Ira Oliver, Secretary

#### Trustees:

W. LeRoy Culbertson, PE  
L. L. Dresser, PE  
George T. Gibson, PE  
Delbert R. Hayes, PE

Charles Kimberling, PE  
Kenneth McCollom, PE

About 3 years ago, the State Board of Licensure purchased the Oklahoma Engineering Center from the Oklahoma Engineering Foundation. The Board was originally a tenant of the building, and the building was in need of significant repairs. Hard decisions were made at that time, and the Oklahoma Engineering Foundation decided that in order to protect the building, they would agree to sell it to the Oklahoma State Board – State of Oklahoma.

The Board made immediate repairs to the roof and skylight, and then took a little time to evaluate what would be the best use for the building space. In addition to the current occupants of the OEC, the Oklahoma Society of Land Surveyors showed an interest in some office space, and the Board of Governors of Licensed Architects, Landscape Architects, and Interior Designers also showed an interest. Therefore, the idea to house the “design professionals” all in one location was born. The space fit the needs of the societies and the boards.

One of our immediate needs was a new parking lot. The Board leased from the state the property to the north of the OEC and the architects came up with the current plan to basically turn the building around. Instead of the entrance being on 27<sup>th</sup> St., it will be on 28<sup>th</sup> St. with the new parking lot on the North side of the building entering off of 28<sup>th</sup> street. The parking lot would be much more accessible and meet all current ADA requirements.

Another improvement that was made during this time was running fiber optics to the building to tie the state offices into the state IT services and phone lines. Bill Wylie and OG&E worked with us to move a power pole that would have been right in the middle of our new parking lot.

At the July 11-12, 2013 meeting of the Board, we officially “broke ground” on the new parking lot and extensive building renovation. As a trustee of the Oklahoma Engineering

## NCEES NEWS RELEASE

September 19, 2013

Contact: Jerry Carter  
Chief Executive Officer  
jcarter@ncees.org

Bill Dickerson, P.E. of Edmond, Oklahoma, has been awarded the NCEES Distinguished Service Award with Special Commendation for his dedicated service to the engineering and surveying professions. Dickerson received the organization's highest honor at its 92nd annual meeting, held August 21-24, 2013, in San Antonio, Texas.

Dickerson also received the NCEES Distinguished Service Award in 2005. Since this time, he has continued to serve NCEES and the Oklahoma State Board of Licensure for Professional Engineers and Land Surveyors. Now an emeritus member and principal assistant to the Oklahoma board, he remains committed to the board's outreach efforts, including working with Oklahoma universities to promote the importance of licensure and giving ethics presentations. Dickerson's continued contributions to NCEES include serving as chair of the Committee on Examinations for Professional Engineers and the Committee on Examination Audit. He has been a volunteer with the Fundamentals of Engineering exam development committee since 1990, receiving the NCEES Distinguished Examination Service Award in 2011 for his contributions to the development and improvement of NCEES licensing exams.

**Pictured above: Bill Dickerson, PE (left) receiving the NCEES Distinguished Service Award with Special Commendation from NCEES President Gene Dinkins, PE, PLS**

**Pictured below: Bill Dickerson, PE, addressing the delegates and guests at the NCEES Annual Meeting Banquet.**

**Dickerson stated in his address, "A wise man named O. B. Curtis told me many years ago that this small group of board members gathered here today are the first line of defense for the health, safety and welfare of the 215 million (now 315 million) individuals who reside in this great nation of ours."**

*The National Council of Examiners for Engineering and Surveying is a nonprofit organization made up of engineering and surveying licensing boards from all U.S. states, the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands. Since its founding in 1920, NCEES has been committed to advancing licensure for engineers and surveyors in order to protect the health, safety, and welfare of the American public.*

## 2014 Exam Administration Dates and Application Deadlines

<u>Examination</u>	<u>Type</u>	<u>Exam Date</u>	<u>Application Deadline</u>
<b>PE Examinations:</b> Architectural, Chemical, Civil, Electrical & Computer, Environmental, Mechanical, Industrial, Naval Architecture & Marine, Software, 8 hour Structural Component - Vertical Forces 8 hour Structural Component - Lateral Forces	NCEES	April 11, 2014	December 1, 2013 (Jan. 3, 2014 deadline for Fall Graduates)
		April 12, 2014	Same as above
<b>Principles of Land Surveying (PS – 6 hr)</b>	NCEES	April 11, 2014	December 1, 2013 (Jan. 3, 2014 deadline for Fall Graduates)
<b>Oklahoma Law and Surveying (OLS - 2 hr)</b>	State	April 11, 2014	Same as above
<b>PE Examinations:</b> Agricultural, Chemical, Civil, Control Systems, Electrical & Computer, Environmental, Fire Protection, Mechanical, Metallurgical and Materials, Mining and Mineral Processing, Nuclear, Petroleum, 8 hour Structural Component - Vertical Forces 8 hour Structural Component - Lateral Forces	NCEES	October 24, 2014	June 1, 2014 (Aug 1, 2014 deadline for Summer graduates)
		October 25, 2014	Same as above
<b>Principles of Land Surveying (PS – 6 hr)</b>	NCEES	October 24, 2014	June 1, 2014 (Aug 1, 2014 deadline for Summer Graduates)
<b>Oklahoma Law and Surveying (OLS - 2 hr)</b>	State	October 24, 2014	Same as above

**Fundamentals of Engineering (FE) & Fundamentals of Surveying (FS) - Beginning January 1, 2014 offered by applying directly to NCEES and administered using CBT**

## CONGRATULATIONS EXAMINEES - APRIL 2013

### PE Examination:

Joshua M. Albert	Pedro J. Grijalva	Todd Parnian
Blake Ashcraft	Bryce R. Hanlon	Brian P. Reeves
Jesse Babb	Brian K. Kastl	LeAnna L. Reynolds
Wayne A. Bailey	Naji Khoury	Abderrezak E. Rhandour
Amanda Fay Baker	Jay F. Kindle	Jordan Rodich
T. Alec Bass	Xuyang Liu	Paul M. Romero
Nicholas Braddy	Lauren P. Ludwig	Richard C. Saucedo
Charlie Bright	Corey B. Massey	Mark Scheurer
Jeremiah D. Broyles	Michael J. McGill	Zaida L. Schuffert
Chris Cackler	Sean P. McGraw	Kevin Teakell
Dan Calvert	Aaron R. Mears	Gene A. Thomas
Jarvis L. Carter, Jr.	David R. Mercer	Shane A Thompson
Nathaniel R. Combes	Chris Miller	Kyle Wallace
Ashley E. Corker	Kamran Mokhtari	Ralph Wiles, Jr.
Bethany B. Deason	Aaron Morse	Tyler Williams
Greg D. Delano	Amanda Newberry	Nathan R. Willkom
Mark E. Ferguson	Martin H. Nguyen	Gene Wyckoff
Richard Fink	John Osborne	Jianpeng Yang
Ryan Francka	Tara L. Palmer	Eric Zellers

### Professional Land Surveyors licensed following examinations:

Brad Cypert  
 Marcus T. Heilman  
 Blake Huffman  
 Brandon D. Kaufman  
 Colby Moynihan  
 Billy Musick  
 Terra Rogers  
 Hank Tremmel  
 Aaron B. Vanderslice

### Fundamentals of Surveying Examination :

Jason Harvey  
 Robert Jackson  
 Justin Smith

# CONGRATULATIONS FE EXAMINEES - APRIL 2013

## Fundamentals of Engineering Exam:

Ahmed Abdalla	Amanda Cruce	Zackary Hazelton	Andrew Mcfarlin	Robert Schwartz
Feven Abebe	Staci Cuccio	Heath Hendricks	Kelly McGaw	William Scott
Matthew Adair	Lina Da	Zachary Hensley	Jay McGrew	Vijayalakshmi Sethuraman
Gregory Adams	Melissa Davis	Cassandra Henson	Ryan McRae	Justin Sewell
Jonathan Adams	Taylor Davis	Mitchell Hesse	Jonathan Megli	Kent Sherwood
Tiera Adams	Samuel Denham	Heather Hibbard	Vinay Mekki Basavaraj	Yang Shi
Matthew Akins	Elizabeth Denning	Kurt Hibbard	Garrett Midgley	Meredith Shiflet
Ibrahim Al-Habbo	Zachary Dennis	Kristin Higgins	Andrew Milian	Richard Shipley
Adam Aleshire	Grant Detwiler	Robert Hills	Austin Miller	Charles Shull
Albert Alexander	Massimiliano Di Lonardo	Ivory Hitz	Bradley Misialek	Jennifer Siegmann
Caleb Atchley	Thai Dinh	Anh Ho	John Miskelly	Trey Simpson
Lee Bailey	Daniel Dixon	Matthew Hollen	Mohammadreza Firoozabad	Timothy Sisney
Danielle Baker	John Dougherty	Daniel Holman	Kaston Murrell	Mark Smith
Joseph Banks	Craig Durkee	Jacob Hoover	Vivek Nadig	Nicholas Smith
Anqi Bao	Gregory Eimen	Kyle Hoover	Tyler Nally	Timothy Smith
Joaquim Baptista	Moussa El-Hamati	Christina Hopson	Andrew Nelson	Eduardo Soto
Christopher Barnum	Matthew Elijah	Colton House	Katlyn Nelson	William Spafford
Ryan Baskin	Austin Elledge	Ting Huang	Kyle Newton	Ryan Spoering
Megan Baxter	Steven Elliott	Jacob Huchton	Lam Nguyen	Sarah Stephenson
Christian Bayless	Paul Eriksen	Brett Hutchens	Riley O`Hearn	Evan Stewart
John Bennett	Neal Etter	Nicholas Ibarguen	Sean Oakes	Richard Stokeld
Kirsten Berg	Buddy Evans	Deepika Iyer	Tomas Olivias	Matthew Summersgill
Michael Bernard	Westley Evans	John Jarred	Elizabeth Olusola	James Surber
Jonathon Beyer	Peter Everest	Bradley Jellison	Damilohun Omotehinse	Amirata Taghavi
Adam Blackwell	Moien Farmahini-Farahani	Alice Jeng	Caleb Osberghaus	Indira Tarazona Perez
Ian Blanski	Bonnie Fentem	Timothy Jennings	Chandler Osborne	Stephen Tesson
Nicholas Bosler	Logan Fitzsimmons	Ellynn Jespersen	Todd Otanicar	Mark Thomas
Luke Brandherm	Jenna Fleming	Lawrence Johnston	Ceara Parks	Ryan Thomas
Ian Brindle	Brad Folks	Francis Jordan	Saagar Patel	Anjana Thoroppady Kittu
Beau Bromley	Fahim Forouzanfar	Brian Joshua	Aaron Patterson	Matthew Trowbridge
Danica Brown	Brendan Fox	Christopher Keefer	Kristen Perry	Rustyn VanDeventer
Kendall Brown	Justin Frazier	Kyle Kern	Angela Pete	Rachel Vinson
William Brown	Joel Freeman	Aayush Khadka	Sara Pezeshkian	Nicholas Vinyard
Samuel Browning	Duncan Fugitt	Pratik Kharel	Lien-Anh Pham	Rocky Vo
Ben Bruce	Gregory Gannaway	Caleb King	Jacob Pickle	Patrick Voeller
Kyle Bruggemeyer	Yi Gao	Brett Kingsley	Tyler Pike	Abdalfaz Wahesh
Matthew Buck	Joel Gargus	Daniel Knight	Jeremiah Pine	Emily Walker
Kevin Buettner	Mary Elizabeth Geatches	Saebom Ko	Bradley Pirtle	Daniel Wallace
Aaron Bugher	Saba Gebretsadik	Yuvaraj Kondaswamy	Adam Polcha	Michael Wallace

## LONG ESTABLISHED PRACTICE FOR SURVEYORS - A THING OF THE PAST

By Bruce Pitts, PLS  
Director of Enforcement and  
Emeritus Board Member

In 2005, at the urging of this Board and the Oklahoma Society of Land Surveyors, the Legislature passed a law requiring that beginning July 1, 2014, Long Established Practice (LEP) as a path to licensure as a Professional Land Surveyor would be eliminated. LEP is essentially an apprenticeship program, based on obtaining at least 9 years of verified, progressive land surveying experience under a practicing professional land surveyor(s) to qualify for application for licensure. Since most professional land surveyors licensed in Oklahoma applied under the LEP licensure path, this transition to licensure has the potential to significantly impact the future of land surveying licensure in Oklahoma. Surveying licensure will now encompass the “three legged stool” that engineering licensure has encompassed for quite some time - Education, Experience, and Examination. (Board Chair, George Gibson, PE, has incorporated another “E” into this equation, and that is Ethics.)

Specifically the education requirements, which have been announced in *The Board's Bulletin* for the past several years, require at least 60 hours of college credit earned at a grade of “C” or better in the 27 hours of land surveying Core Curriculum (Core) classwork. By Board intention, the Core does not contain a list of specific land surveying classes that must be taken; but instead is divided into three (3) categories of classwork to be completed: *Elementary and Advanced Surveying (15 hours)*; *Boundary Surveying and Legal Principle (6 hours)*s; and *Mapping and Land Survey Systems (6 hours)*. The Core, with a

listing of surveying topics under each category, can be found on the Board website: [pels.ok.gov](http://pels.ok.gov) under the Future Licensees tab. This Board has the responsibility of approving courses, and assigning credit value to all courses submitted, including those earned within the traditional civil engineering curricula which may include some element of surveying.

The experience component of land surveying licensure is still, and will always be, an integral part of the licensure process. The Board recognizes that experience gained under the mentorship of a qualified and concerned professional land surveyor is one of, if not the most important, factor to one's success as a professional land surveyor. Candidates with a 4 year degree in Land Surveying will be required to have 4 years of progressive experience on surveying projects of increasing difficulty and greater responsibility. All other candidates will be required to have 6 years of the same type of experience. Experience requirements can be found in section 245: 15-3-8 (D) of the Board Rules.

Land ownership is one of the most cherished rights we have as citizens as evidenced by the protections granted in both the United States and Oklahoma Constitutions. Land surveying is primarily regulated in Oklahoma both to protect and perpetuate the boundaries within this state. Consequently, the public expects (and deserves) a high level of knowledge, ability and integrity from its professional land surveyors. This includes the ability to think critically, gather and analyze data and evidence, and most importantly, the use of professional judgment. These are academic skills learned in the classroom and perfected with experience under a qualified mentor. Uniform educational credentials will provide a much more consistent level of practice quality, thereby raising the levels of public trust and protection.

## DISCIPLINARY ACTIVITY OF THE BOARD

**April 25 – 26, 2013**

**In the Matter of Brian Schaller, P.E. 21225, Case No. 2012-086; Through Consent;** For being found guilty of violating the laws and rules of Arkansas by failing to provide information regarding the CPC audit; and in Kansas by preparing engineering documents that deviated from generally accepted engineering standards, Schaller was found **Guilty**, assessed an administrative fine of \$2,000.00 and is hereby **Reprimanded**.

**In the Matter of Marcus C. Gibson, P.E. 25369, Case No. 2013-003; Through Consent;** For being found guilty of violating the statutes and rules of North Carolina by failing to protect the public and failing to properly certify documents, Gibson was found **Guilty**, and is hereby **Reprimanded**.

**In the Matter of Zero & Associates, Case No. 2013-005; Through Consent;** For offering and/or practicing engineering in the State of Oklahoma without a Certificate of Authorization to do so, Zero & Associates was found **Guilty**, assessed an administrative fine of \$1,000.00 and is hereby ordered to **Cease and Desist**.

**In the Matter of Vortex Engineering & Architecture, Inc., Case No. 2013-006; Through Consent;** For offering and/or practicing engineering in the State of Oklahoma without a Certificate of Authorization to do so, Vortex Engineering & Architecture was found **Guilty**, assessed an administrative fine of \$2,000.00 and is hereby **Reprimanded**.

**In the Matter of Ensoft, Inc., dba Lymon C. Reece & Associates, CA 6678, Case No. 2013-009; Through Consent;** For offering and/or practicing engineering in the State of Oklahoma without a Certificate of Authorization to do so, Ensoft, Inc., dba Lymon C. Reece & Associates was found **Guilty**, assessed an administrative

fine of \$1,200.00 and is hereby **Reprimanded**.

**In the Matter of Robert L. Davis, P.E. 23290, Case No. 2013-015; Through Consent;** For violating the terms imposed by the Board in Case No. 2011-009, Davis was found **Guilty**, assessed an administrative fine of \$250.00, ordered to complete the on-line Intermediate Studies in Engineering Ethics offered by the National Institute for Engineering Ethics at Texas Tech University and provide written proof of successful completion of said course within 90 days of order, and is hereby **Reprimanded**.

**In the Matter of C.A.T., Inc., dba Cooling and Applied Technology, Inc. and Don R. Johnston; Case No. 2013-007; Through Consent;** For offering and/or practicing engineering in the State of Oklahoma without a Certificate of Authorization to do so, C.A.T, Inc. was found **Guilty**, assessed an administrative fine of \$1,500.00 and is hereby ordered to **Cease & Desist**. For offering and/or practicing engineering in the State of Oklahoma without a Certificate of Licensure to do so, Don R. Johnston was found **Guilty**, assessed an administrative fine of \$1,500.00 and is hereby ordered to **Cease & Desist**.

**July 11 – 12, 2013**

**In the Matter of Stephen Phillip Maslan, P.E. 12955, Case No. 2013-027; Through Consent;** For being found guilty of violating the laws and rules of Kansas and Missouri, in which the violations are the same or substantially equivalent to the Oklahoma Statutes and Rules, Maslan was found **Guilty**. Maslan's P.E. license was **SUSPENDED** for a period of two (2) years, he was assessed an administrative fine of \$3,000.00, and is hereby **Reprimanded**. Maslan was also ordered to complete the on-line Intermediate Studies in Engineering Ethics Course offered by the National Institute for Engineering Ethics at Texas Tech University and to provide written proof of successful

## DISCIPLINARY ACTIVITY OF THE BOARD (CONT.)

completion of said course prior to applying for re-licensure at the end of the two (2) year suspension.

**In the Matter of United Consulting Group, LTD and Patrick J. Carr, P.E. 21196, Case No. 2013-033; Through Consent;** For offering and/or practicing engineering in the State of Oklahoma without a Certificate of Authorization to do so, United Consulting Group, LTD was found **Guilty**, assessed an administrative fine of \$1,000.00 and is hereby ordered to **Cease and Desist**. For aiding and assisting United Consulting Group, LTD in the offer and/or practice of engineering without a Certificate of Authorization Carr was found **Guilty**, assessed an administrative fine of \$1,000.00 and is hereby **Reprimanded**.

**In the Matter of DHO Engineering, LLC, CA 3955 and David Hugh O'Daniell, P.E. 17238, Case No. 2013-036; Through Consent;** For offering and/or practicing engineering in the State of Oklahoma without a Certificate of Authorization to do so, DHO Engineering was found **Guilty**, assessed an administrative fine of \$1,500.00 and is hereby **Reprimanded**. For offering and/or practicing engineering in the State of Oklahoma without a Certificate of Licensure to do so, O'Daniell was found **Guilty**, assessed an administrative fine of \$1,500.00 and is hereby **Reprimanded**.

**In the Matter of William W. Choate, P.E. dba Choate Engineering, CA 4429 and William W. Choate, P.E. 8530, Case No. 2013-040; Through Final Order;** For failing to respond to the Board's valid Subpoena Duces Tecum to provide information to the Board within 30 days, William W. Choate, P.E. d/b/a Choate Engineering and William W. Choate were found **Guilty** and Certificate of Authorization No. 4429 and P.E. Certificate of Licensure are hereby **Suspended** until such time as they provide the documents requested by the Board and certify under oath that all documents provided are all of the documents in his and/or Choate Engineering's possession which relate

to engineering services provided since April 24, 2011. *Suspension was lifted upon receipt of all required documentation.*

**In the Matter of Charles Harold Moss, P.E. 17501, Case No. 2013-029; Through Consent;** For preparing, signing and sealing engineering documents for two (2) Oklahoma projects outside of his areas of competence, Moss was found **Guilty**, assessed an administrative fine of \$1,500.00, ordered to **Cease and Desist** from practicing outside his areas of competence and is hereby **Reprimanded**.

August 1 & 13, 2013

**In the Matter of Glenn Briggs & Associates, Inc., CA 544 and Philip Ray Briggs, P.E. 18954, Case No. 2009-116; Through Final Order;** For failing to exert adequate oversight to ensure that the project was constructed according to the plans approved by the Oklahoma Department of Environmental Quality (DEQ), for preparing design plans that were bid and constructed that did not meet DEQ standards, and for inadequate oversight and accompanying remediation during construction which constitutes *Gross Negligence*, Glenn Briggs & Associates, Inc. was found **Guilty** and assessed an administrative fine of \$5,000.00. For failing to notify DEQ of the changes in the design and construction of the project which constitutes *Misconduct*, Glenn Briggs & Associates, Inc. was found **Guilty** and assessed an administrative fine of \$5,000.00. For failing to exert adequate oversight to ensure that the project was constructed according to the plans approved by the Oklahoma Department of Environmental Quality (DEQ), for preparing design plans that were bid and constructed that did not meet DEQ standards, and for inadequate oversight and accompanying remediation during construction which constitutes *Gross Negligence*, Philip Ray Briggs was found **Guilty** and assessed an administrative fine of \$5,000.00. For failing to notify DEQ of the changes in the design and construction of the project which constitutes *Misconduct*, Philip Ray Briggs was found **Guilty** and assessed an administrative fine of \$5,000.00.

# THE PATH TO COMPLIANCE

## DIRECT CONTROL & PERSONAL SUPERVISION

Questions continue to be generated regarding direct control and personal supervisions because signing and sealing is not as black and white as it used to be. Electronic signing and sealing of documents, increased mobility of licensees from state to state, plans being created in one state and being signed and sealed by a licensee in another, licensees moving from firm to firm with projects in various stages of completion, and the creation of prototypical plans for national chains are all issues that over the last few years have required Board Rule changes to keep pace with the practice. Then there are the questions about the biggest sealing issue of all: direct control and personal supervision of the work.

One of the most consistent principles through the more than 75 years of this board's existence is that the signing and sealing of documents, whenever presented to a client or any public agency, *represents that the engineering or land surveying work thereon was done by the licensee or under the direct control and personal supervision of the licensee*. This ensures that the public can rely upon the documents as being truly the product of professional analysis and judgment of a licensed engineer or land surveyor.

Because of the advancements in technology and the nature of the changing practice of these professions, the definition of direct control and personal supervision has evolved to reflect the state of the practice. Since licensees are charged with having knowledge of the Board Rules, a timely review the current requirements for those terms, which can be found in the Board Rules in Section 245: 15-17-2 (c) for engineers and 245: 15-17-2 (d) for land surveyors, is recommended. Specifically when it comes to enforcement, the sections of the rules that are most often violated are subparagraphs (1) and (5) under the aforementioned rules for engineers which read as follows:

1. The licensee supervises the preparation of the plans, specifications, drawings, reports, or

**Bruce Pitts, PLS**  
**Director of Enforcement**

other documents and has input into their preparation prior to their completion and reviews the final plans, specifications, drawings, reports, or other documents prior to signing and sealing the work; and

5. The intent of the law shall not be met if an unlicensed person independently performs engineering work, to then be reviewed, signed and sealed by a professional engineer. An unlicensed person may only be used if the professional engineer is personally directing the unlicensed person and the work is performed concurrent with the supervision.

Many non-licensed individuals believe that they are capable of designing or performing engineering and surveying services simply by applying design software purchased online. In fact, many times they are encouraged to do so by clients who want to avoid the cost of hiring a licensed engineer or land surveyor except to review, sign and seal engineering and land surveying documents when required by a governmental jurisdiction. Those same individuals also know that they are probably going to be able to find a licensee who is willing to take the risk of signing those documents. But Board Rules make it perfectly clear that being willing to assume responsibility for a project is not the same as being in direct control and personal supervision of the project. The public has the right to expect that seal on the plans truly means that a Professional Engineer or Land Surveyor performed or was in direct control or personal supervision of the project. These Rules were created by the Board to protect the health, safety, property and welfare of the public and will continue to be strictly enforced.

## FE & FS Exam Conversion to Computer Based Testing (CBT)

The FE & FS Exams are undergoing significant changes that will affect the format and administration of the exams. Listed below are some key points about the conversion to Computer Based Testing (CBT):

- ∅ The October 26, 2013, FE & FS Exam administrations will be the last time these exams will be offered as pencil-and-paper exams.
- ∅ Beginning **November 4, 2013**, all candidates who wish to take the FE or FS Exams will register online directly with NCEES at **www.ncees.org through the My NCEES account**. A \$225 payment to NCEES for the exam will be required at the time of registration (MasterCard or Visa).
- ∅ Candidates will **not** be required to submit an application or pay a fee to the Oklahoma State Board of Licensure for Professional Engineers and Land Surveyors prior to registration with NCEES.
- ∅ Beginning **January 2, 2014**, the FE & FS Exams will only be offered via CBT and will be administered only at approved Pearson-VUE testing centers. Approved Pearson-VUE testing centers are located in Stillwater, Norman, Tulsa, Oklahoma City and over 250 other locations throughout the United States. Exact locations can be found at **www.ncees.org/cbt**.
- ∅ A candidate may take these exams at **any time that an approved Pearson-VUE testing center is open and seating is available**. For example, if space is available, a candidate could take the exam in Dallas in January if that best fits his/her schedule.
- ∅ **Seating is limited, so candidates may need to register a month or more in advance to obtain a seat at the selected Pearson-Vue testing center.**
- ∅ There will be four testing windows annually for the FE Exam. Each of these windows will last two months, with a month between the windows when testing will not be available.

### Testing Open

**January and February**

**April and May**

**July and August**

**October and November**

### Testing Closed

**March**

**June**

**September**

**December**

- ∅ Candidates may take the exam only one time per testing window and no more than three times in a 12-month period.
- ∅ The exams will be 6 hours in length, including a tutorial, breaks, the exam and a brief survey. For the FE Exam, candidates will choose one of the following disciplines in which to be tested: Chemical, Civil, Electrical, Environmental, Industrial, Mechanical and Other Disciplines.
- ∅ A pass/fail notification from NCEES will be sent directly to the candidate within 10 days after taking the exam.
- ∅ The exams will continue to be closed book. Supplied reference material for the exam will be electronic and will be available for review or purchase on the NCEES website.
- ∅ Examinees will be allowed to bring and use NCEES approved calculators on CBT exams.
- ∅ Sample exams for CBT will be available for purchase on the NCEES website after the October 2013 exam administration.
- ∅ Candidates registering for the October 26, 2013 FE or FS Exams, but who are unable to sit for the exam or do not pass the exam, will be required to register directly with NCEES to sit for a future FE or FS Exam via CBT.
- ∅ Once a candidate has passed the FE or FS Exams and has met the requirements for certification, they may file an application with this Board for certification as an Engineer Intern (EI) or Land Surveyor Intern (LSI). **The FE and FS Exams are nationally accepted exams**, but each state has different requirements for certification, so check with the state board in which you will be residing for their requirements.
- ∅ Please go to **www.ncees.org/cbt** or contact Mark Kirk at **mkirk@pels.ok.gov** if you have questions about CBT.

***In Memoriam - In Celebration of the Lives and Contributions of the  
Following Professionals:***

**Remembering Leslie Judd, Jr., P.E., P.L.S. -**

**F**ormer Board member and two term Board Chairman Leslie Judd, Jr., P.L.S. 40, P.E. 11568 passed away October 2, 2013 at the age of 87. Mr. Judd was the first licensed land surveyor appointed to the Board after the law was changed in 1968 to include the registration of land surveyors. His pioneering efforts and supervision were crucial in establishing the guidelines for administering the registration of land surveyors, which included the creation of new by-laws, application forms, new rules and the preparation of the first examination land surveyors administered in December 1969. His active participation in all facets of that process is credited with ensuring a smooth transition through a very challenging period for the Board which he served from 1968 until 1979. Mr. Judd began his distinguished engineering and land surveying career in Texas in 1944 as an Engineer's Aide for the Bureau of Reclamation. In 1946 he began an association with the R. W. Thomas firm in Oklahoma City where he would remain the rest of his career. Under Mr. Judd's leadership, the firm evolved into Judd-Grayson-Cunningham and Associates and finally into its present designation as JGVE, Inc. Mr. Judd was a Charter Member of the Oklahoma Society of Land Surveyors and served as its President from 1983-1984. He was also an active member of CECO/ACEC, ACSM and AWP. He represented this Board by serving NCEE as a member of the Examinations for Land Surveyors Committee, the Constitution and By-Laws Committee and the Land Surveyor Committee. His exemplary service was recognized by NCEE in 1976 when he was awarded the NCEE Southern Zone Distinguished Service Award.

**OAC 245:15-1-3** defines “Professional Engineer, Retired” and “Professional Land Surveyor, Retired” respectively as “...an individual who has been duly licensed as a professional engineer [professional land surveyor] by the Board and who chooses to relinquish or not to renew a license and who applies to and is approved by the Board to be granted the use of the title “Professional Engineer, Retired [Professional Land Surveyor, Retired]”.

**OAC 245:15-7-1(c)** states, “When a professional engineer or land surveyor in good standing desires to retire his or her license, he or she may do so upon application to the Board, subject to reinstatement and continuing education requirements by the Board.”

**OAC 245:1507-5** states, “...Offering or practicing engineering or surveying with a ... retired license ...is a violation of Title 59, Section 475.1 et seq and the Rules of this Board.”

**License Expirations**

**EXPIRATION/REVOCATION** - Licenses may be revoked by the Board for non-payment of renewal fees. Licensees will be notified of revocation by mail. Typically this notification is mailed 10 days following expiration.

**RENEWALS** - Each license issued by the Board expires on the last day of the month in which renewal fees are due, and becomes invalid on that date unless paid. One notice of the renewal is sent by first class mail to the address of record in the board files. This in effect provides notice two months prior to revocation.

**REINSTATEMENT** - Former licensees whose certificates have expired and were revoked for failure to pay renewal fees and desire to reinstate shall make application for reinstatement within 180 days after expiration and pay the prescribed renewal fee and penalty. After 180 days, a new application will be required, which shall be considered specifically by the Board, both from the standpoint of competency and of character.

Tanner, Barry W.	24067
Teakell, Albert Keith	14892
Teng, Albert R.	17452
Thomas, Kenneth J. P.	13899

Reddin, James J.	1510
Thomas, William McKinley, III	1342

## UPDATES....

---

New features described below have been added to the online renewal system for your convenience and to allow the Board office to **GoGreen**. It is imperative now more than ever for you to keep your contact information current with this office. To update your information go online to [www.pels.ok.gov](http://www.pels.ok.gov) - Applications/Forms - Change of Address. Or you may e-mail [tparr@pels.ok.gov](mailto:tparr@pels.ok.gov).

### *Wallet Cards*

When renewing online, licensees will now be prompted to print a current wallet card at the end of the online renewal process. Also, licensees may go online at any time to print a duplicate wallet card by logging into their online renewal account. Wallet cards will only be mailed to those who have opted to receive hard copy mailings and those who renew by mail. Retirees will receive a wallet card by mail.

### *Receipts*

As in the past, receipts may be printed at the end of the online renewal process. In addition, a receipt will now be automatically e-mailed to your e-mail address of record with the Board.

### *License Renewal Notifications*

As of January 1, 2013, all renewal notices are being sent via e-mail, unless you have Opted Out of the GoGreen initiative. The first e-mail notice will be sent approximately 60 days prior to the date of your license expiration. A second e-mail notice is sent the last week of the month prior to your license expiration if payment has not yet been received. Letters of expiration will continue to be sent on the 10th of the month, following expiration, via US mail.

If you wish to “Opt out” and receive a paper notification, please e-mail [tparr@pels.ok.gov](mailto:tparr@pels.ok.gov) and she will assist you with this process.

---

## Legal Notifications....

### *Compliance with the Oklahoma Tax Commission required for renewal of professional licenses.....*

Title 68, Section 238.1 of the Oklahoma Statutes requires that a licensee must be in compliance with the Oklahoma Tax Commission to be allowed to renew a professional license. Therefore, this Board is required by law to notify the tax commission prior to renewing professional licenses. If you are notified by the tax commission that you are in non-compliance, please act immediately. The Board does not have the authority to waive this requirement, so contact the tax commission immediately if you are contacted. Once you have been cleared by the tax commission they will notify the Board office and you will be allowed to renew your license.

### *Law change requires 10 year record retention.....*

Title 59, Section 475.15 of the Oklahoma Statutes was amended in 2012 to include the following language,

*“A professional engineer, land surveyor or firm shall retain a hard copy or electronic copy of all technical submissions produced for a minimum of ten (10) years following the date of preparation.”*

Oklahoma State Board of Licensure for  
Professional Engineers and Land Surveyors
