**NCEES Annual Meeting brings about changes to the Model Law**

*Theodore A. Sack PLS - Chair*

I have served as a board member of the Oklahoma State Board of Licensure for Professional Engineers and Land Surveyors for the past 17 years. This year I have the honor of serving as its Chair for the 3rd time during

my tenure as a board member. In my capacity as a board member, I have also been a member of the National Council of Examiners for Engineering and Surveying (NCEES) and served a 2-year term as NCEES Southern Zone Vice President. As such, I was also a member of the Board of Directors for NCEES. During all of these years of involvement with the Oklahoma Board and the NCEES, I have gained an appreciation as to how the 2 groups work with each other and complement each other's vision and mission statements to the betterment of both groups.

At the NCEES Annual Meeting held this August, one of the important topics discussed came about from a motion made by the Oklahoma board. This motion requested, in part, that the language referring to Model Law Engineer 2020 be eliminated from the NCEES Model Law and Rules. The language basically stated that beginning on January 1, 2020 the education requirements to become a licensed professional engineer would be an EAC/ABET B.S. engineering degree plus an M.S. degree in engineering or equivalent. In addition, to be considered a Model Law Engineer (MLE) beginning in 2020, you would have to meet this higher education standard.

The Oklahoma Board's rationale for offering this motion was two-fold. First and foremost, in the 8 years that the Model Law Engineer 2020

language was on the books, no jurisdiction had formally adopted the higher education standard in the Model Law. The Oklahoma Board's second rationale for offering this motion was the confusion this language created stemming from the uncertainty of students currently entering engineering programs without knowing what the educational standards for licensure would be upon their graduation. While the increased educational standard was only Model language (the NCEES best-practice models for state licensure laws and rules) and would not affect the specific requirements of each state's licensing laws, the fact that it was in the Model Law had created a groundswell of confusion among students as well as educators. In addition, a tangible unintended consequence was created within the NCEES Records Program relating to the definition of a Model Law Engineer beginning in 2020. Engineers who did not have the additional education requirement beyond the EAC/ABET B.S. engineering degree were concerned that they would no longer be considered "MLE's" within the NCEES Records Program, which would adversely affect their records and mobility.

The Oklahoma motion passed by a wide margin and was effective immediately. NCEES President David Widmer assigned to an NCEES Advisory Committee, the task of developing a position statement that reflects the concern of the NCEES pertaining to the overall reduction of core courses from engineering curriculum, the expanding body of knowledge required to be an engineer, and the need for reform in engineering education to ensure that graduates of engineering programs are prepared to enter the professional practice of engineering.

The Oklahoma board members and staff will continue to actively participate with NCEES to stay abreast of national issues and use the information to enhance licensure for engineers and surveyors in the state of Oklahoma.

## STAFF NEWS

### Sue Andrews Retires After 23 Years of State Service

Any of you who have applied for a license or examination in the past 23 years most likely had the privilege of speaking with Sue Andrews, Administrative Assistant for this Board. Ms. Andrews served the Board, its applicants and licensees with the utmost grace and professionalism from 1991 to 2014, when she retired to spend time with her husband, children, and grandchildren. On behalf of the board and staff, we would like to thank Sue for the privilege of working with her for these past years and wish

her the best in her retirement. If you would like to send Sue a retirement message, you may send to the Board office and we will make sure she receives your well-wishes.

### Teresa Parr Honored for 10 years of State Service

Teresa Parr was recently presented a certificate of appreciation by Past Chair, George Gibson, P.E., for 10 years of excellent service to the Board and its licensees. Ms. Parr is responsible for the license renewals for the Board's approximately 10,000 PE licensees, 650 PLS licensees, and 3,000 CA's. She is also congratulated upon recently receiving her B.S degree in Business Administration from Southern Nazarene University.

### Taylor Boswell Joins PELS Staff

Join us in welcoming Taylor Boswell, who recently joined our staff to serve as the Licensing and Examination Specialist. Taylor graduated from the University of Oklahoma in 2011 with a B.A. degree in International Studies. She formerly worked for W & W Steel, LLC and the Arts Council of Oklahoma City. Taylor will be responsible for reviewing all professional licensure applications and coordinating the professional examinations.

## In Memoriam - In Celebration of the Lives and Contributions of the following Professionals:

*William McVey, Jr. P.E.*

### McVey Appointed to Third Term

William “Bill” A. McVey, Jr., P.E. was recently appointed to a third term on the Board by Governor Mary Fallin. Mr. McVey is President of PSA Consulting Engineers, Inc. – an Oklahoma City based consulting engineering firm which primarily practices in the disciplines of Mechanical and Electrical engineering, and has extensive experience in the administration of Architectural, Structural, Civil, and Environmental projects as the prime professional.

The Board appreciates Mr. McVey’s years of service and dedicated to the regulation of the practice of engineering and surveying in the state of Oklahoma

Fundamentals of Engineering (FE) & Fundamentals of Surveying (FS) are offered year-round by applying directly to NCEES and administered using Computer Based Testing. For more information or to Register for the Exam(s) Go to [ncees.org/exams/](http://ncees.org/exams/)

## DISCIPLINARY ACTIVITY OF THE BOARD

April 3 – 4, 2014

**In the Matter of THEWAY Corp., CA 3601, Marcus Oliver Durham, PE 10816 and Robert A. Durham, PE 18925, Case No. 2013-052; Through Consent;** For preparing, signing and issuing engineering documents outside of their designated area(s) of practice Marcus Durham and Robert Durham were found **Guilty**, assessed an administrative fine of \$3,000 each, **Reprimanded** and ordered to **Cease and Desist** from providing structural analysis reports and structural damage inspections as engineer until such time as they submit applications to the Board, and receive approval, for revision to his their enumerated area(s) of practice. For issuing residential structural inspections and analysis reports prepared by Marcus Durham and Robert Durham, which were services outside any of their designated areas of practice as submitted to the Board, together with the failure of Marcus Durham and Robert Durham to seal the residential structural inspection and analysis reports, and Robert Durham's failure to show the firm's contact information on the reports, THEWAY Corp. was found **Guilty**, assessed an administrative fine of \$3,000, **Reprimanded** and ordered to **Cease and Desist** from providing structural analysis reports and structural damage inspections as an engineering firm until such time as the engineers in responsible charge of these reports and inspections submit applications to the Board, and receive approval for revision to their previously enumerated areas of practice.

**In the Matter of Chad E. Binder, PE 24020, Case No. 2013-080; Through Consent;** For the entry of a plea of **Guilty** to crimes under the laws of the United States which were felonies, Chad E. Binder was found Guilty and his PE license No. 24020 is **REVOKED**.

**In the Matter of Design Dynamics, Inc. and Thomas Merle Shingler, PE 16346, Case No. 2013-111; Through Consent;** For offering and/or providing engineering services without a

Certificate of Authorization, Design Dynamics, Inc. was found **Guilty**, assessed an administrative fine of \$850 and ordered to **Cease and Desist** from offering and/or providing engineering services in the State of Oklahoma until such time as it has been issued a Certificate of Authorization to do so. For aiding and assisting Design Dynamics, Inc. in offering and/or providing engineering services in the State of Oklahoma without a Certificate of Authorization, Thomas Merle Shingler is found **Guilty**, assessed an administrative fine of \$850 and **Reprimanded**.

June 26 – 27, 2014

**In the Matter of LT Mapping Services, Inc., Larry Tucker and Steve Anglen, Case No. 2013-056; Through Consent;** For offering and/or providing land surveying services without a Certificate of Authorization, LT Mapping Services, Inc. was found **Guilty**, assessed an administrative fine of \$5,000 and ordered to **Cease and Desist** from offering and/or providing land surveying in the State of Oklahoma until such time as it has been issued a Certificate of Authorization. For offering and/or providing land surveying services in the State of Oklahoma without a Certificate of Licensure, Larry Tucker and Steve Anglen were found **Guilty**, assessed an administrative fine of \$5,000 each and ordered to **Cease and Desist** from offering and/or providing land surveying in the State of Oklahoma until such time they have been issued Certificates of Licensure.

**In the Matter of LIS Survey Technologies Corporation, Case No. 2013-084; Through Consent;** For offering and/or providing land surveying services without a Certificate of Authorization, LIS Technologies Corporation was found **Guilty**, assessed an administrative fine of \$4,000 and ordered to **Cease and Desist** from offering and/or providing land surveying in the State of Oklahoma until such time as it has been issued a Certificate of Authorization.

**In the Matter of Shiner + Associates, Inc., CA 6898 and David G. Paoli, PE 26848, Case No. 2013-092; Through Consent;** For offering and/or providing engineering services without a Certificate of Authorization, Shiner + Associates, Inc. was found **Guilty**, assessed an administrative fine of \$750 and **Reprimanded**. For failing to comply with the applicable statutes and rules when obtaining or attempting to obtain a Certificate of Authorization by certifying the Firm had not been disciplined in another jurisdiction when in fact it had been disciplined in the State of West Virginia, Shiner + Associates, Inc. and David Paoli were found **Guilty**, assessed an administrative fine of \$750 each and **Reprimanded**.

**In the Matter of Sonya Butts, TP 816, Case No. 2013-098; Through Consent;** For failing to submit a complete permanent Professional Engineer application to the Board within thirty (30) days of the date of issuance of the temporary permit, Butts was found **Guilty**, assessed an administrative fine of \$1,000 and ordered to **Cease and Desist** offering to practice engineering in the State of Oklahoma until such time as she has been issued a Certificate of Licensure. For failing, within thirty (30) days to provide information requested by the Board, Butts was found **Guilty**, assessed an administrative fine of \$1,000 and ordered to **Cease and Desist** offering to practice engineering in the State of Oklahoma until such time as she has been issued a Certificate of Licensure.

**In the Matter of Nangia Engineering of Texas, Ltd. (dba) Nangia Engineering, LLC / Chander P. Nangia, Inc. and Robert V. Nangia, PE 23959, Case No. 2013-110; Through Consent;** For offering and/or providing engineering services without a Certificate of Authorization, Nangia Engineering of Texas, Ltd. (dba) Nangia Engineering, LLC / Chander P. Nangia, Inc. was found **Guilty**, assessed an administrative fine of \$1,250 and ordered to **Cease and Desist** offering and/or practicing engineering in the State of Oklahoma until such time as it has been issued

a Certificate of Authorization. For affixing his professional engineer's seal to calculations and design drawings not prepared under his direct control and personal supervision, Nangia was found **Guilty**, and assessed an administrative fine of \$2,500. Nangia was further ordered to successfully complete the on-line Intermediate Studies in Engineering Ethics course offered by the National Institute for Engineering Ethics at Texas Tech University by December 31, 2014.

**In the Matter of William Powell Dahlin, PE, OK Geotechnical Engineering, LLC, and William Powell Dahlin, PE 14148 (I) Case No. 2013-113; Through Consent;** For offering and/or providing engineering services without a Certificate of Authorization, William Powell Dahlin, PE Geotechnical Engineering, LLC was found **Guilty**, and ordered to **Cease and Desist** offering and/or practicing engineering in the State of Oklahoma until such time as it has been issued a Certificate of Authorization. For offering and/or providing engineering services in the State of Oklahoma without a Certificate of Licensure, William Powell Dahlin was found **Guilty**, assessed an administrative fine of \$250 and **Reprimanded**.

**In the Matter of ENERGYneering Solutions, Inc., and Benjamin Benson, Case No. 2014-024; Through Consent;** For offering and/or providing engineering services without a Certificate of Authorization, ENERGYneering Solutions, Inc. was found **Guilty**, assessed an administrative fine of \$1,000 and ordered to **Cease and Desist** offering and/or practicing engineering in the State of Oklahoma until such time as it has been issued a Certificate of Authorization. For offering and/or providing engineering services without a Certificate of Licensure, Benjamin Benson was found **Guilty**, assessed an administrative fine of \$1,000 and ordered to **Cease and Desist** offering and/or practicing engineering in the State of Oklahoma until such time as he has been issued a Certificate of Licensure.

## DISCIPLINARY ACTIVITY OF THE BOARD (cont.)

**In the Matter of Thomas L. Shelmerdine, Case No. 2014-026; Through Consent;** For failing to certify in his Oklahoma application for comity Professional Engineer Licensing, that he had been disciplined for the unlicensed practice of engineering in South Carolina, Shelmerdine was found **Guilty**, assessed an administrative fine of \$350 and **Reprimanded**.

September 11 – 12, 2014

**In the Matter of Atwell, LLC, CA 6036 and Daniel Edward McNulty, PE 25618, Case No. 2014-013; Through Consent;** For failing to certify in their Certificate of Authorization application that Atwell, LLC had been disciplined for the unlicensed practice of engineering and surveying in Ohio, Atwell, LLC and Daniel Edward McNulty were found **Guilty**, assessed an administrative fine of \$750 each and **Reprimanded**.

**In the Matter of Sacramento Engineering Consultants, Inc., CA 3591 and Rickert Chris Henriksen, PE 19709, Case No. 2014-017; Through Consent;** For failing to certify in their Certificate of Authorization application that Sacramento Engineering Consultants, Inc. and had been disciplined for the unlicensed practice of engineering in South Carolina, Sacramento Engineering Consultants, Inc. Rickert Chris Henriksen were found **Guilty**, and assessed an administrative fine of \$750 each.

**In the Matter of Abb, Inc., CA 6986, Case No. 2014-019; Through Consent;** For offering and/or providing engineering services without a Certificate of Authorization, ABB, Inc. was found **Guilty**, and assessed an administrative fine of \$4,000. For failing within thirty (30) days to provide information requested by the Board, ABB, Inc. was found **Guilty**, assessed an administrative fine of \$7,500 and **Reprimanded**.

**In the Matter of Kurtis R. Webb, PLS 1553, Case No. 2014-020; Through Agreement;** Kurtis R. Webb has surrendered his Certificate of Licensure to the Board in lieu of administrative action and *is permanently barred from reissuance of licensure as a professional land surveyor in Oklahoma.*

**In the Matter of Thompson Company, Inc., Case No. 2014-029; Through Consent;** For offering and/or providing engineering services without a Certificate of Authorization, Thompson Company, Inc. was found **Guilty**, assessed an administrative fine of \$1,250 and **Reprimanded**. For failing to disclose that they had an executed Agreement Between Architect and Consultant in the Certificate of Authorization application, Thompson Company, Inc. was found **Guilty**, assessed an administrative fine of \$1,250 and **Reprimanded**.

**In the Matter of Gateway Services Group, LLC, CA 4091 and Lindy Frank Glenn, PLS 1424 (Suspended), Case No. 2014-035; Through Consent;** For aiding and assisting Lindy Frank Glenn in offering and/or practicing land surveying with a suspended Certificate of Licensure, Gateway Services Group, LLC was found **Guilty**, assessed an administrative fine of \$1,200.00 and **Reprimanded**. *Lindy Frank Glenn has surrendered his Certificate of Licensure to the Board in lieu of administrative action and will be permanently barred from reissuance of licensure as a professional land surveyor in Oklahoma.*

**COMPLIANCE WITH THE OKLAHOMA TAX COMMISSION REQUIRED FOR RENEWAL OF ALL PROFESSIONAL LICENSES...**

*Oklahoma Statutes require that a licensee must be in compliance with the Oklahoma Tax Commission to qualify to renew their professional license. If you are notified by the tax commission that you are in non-compliance, please act immediately. The Board does not have the authority to waive this requirement, so CONTACT THE OKLAHOMA TAX COMMISSION if you are contacted.*

## THE PATH TO COMPLIANCE

### WHICH DIRECTION DOES YOUR MORAL COMPASS POINT?

It has taken generations for professional engineers and professional land surveyors to create the level of public trust that they have been afforded. Unfortunately, years of competent and ethical conduct can be destroyed very quickly by one unethical decision.

***Bruce A. Pitts***

One such serious breach of the public trust happened in Oklahoma just a few years ago. A city's Public Works department was racked with a bribery scandal involving one of its own professional engineers and other professional engineers in the private sector. After pleading guilty to the charges, the professional engineers were sentenced to jail time and assessed large fines. Following disciplinary investigations and hearings, the Board revoked each of their PE licenses. As a way of explanation for this unethical and illegal behavior, the attorney for one of the engineers told the court that his client had "lost his moral compass".

We all bring our own sense of right and wrong, our "moral compasses", to the workplace where we are daily confronted with difficult ethical decisions. Often those decisions are complex and involve conflicting ethical mores – sometimes they are simple, but costly ethical decisions. In the ideal workplace, the leader understands the importance and benefits of ethical behavior and both encourages and models that behavior for employees. It is imperative that this behavior is clearly communicated to young engineers and surveyors who may not be familiar with professional ethical conduct. That effective leader is familiar with the codes of ethics produced by national engineering and surveying societies, and knows the Rules of Professional Conduct promulgated by this Board.

The Board's Rules of Professional Conduct can be found on our website at the following link: [http://www.ok.gov/pels/Regulations/Administrative\\_Rules/Chapter\\_15\\_By\\_Laws,\\_15-9.html](http://www.ok.gov/pels/Regulations/Administrative_Rules/Chapter_15_By_Laws,_15-9.html) The feedback we receive from licensees strongly suggests that these Rules offer helpful guidance to the myriad of ethical decisions that arise in the workplace, and give support to those licensees who want to make good ethical decisions. Conversely, these Rules are effective tools in the disciplining of unethical professional practice. It stands to reason that these Rules do not cover every unethical situation that arises. At times we receive calls from a concerned citizen or licensee about a potentially unethical situation, and we must explain that while the situation may be unethical, it is not necessarily within the Board's jurisdiction to prosecute such an act if it isn't specifically outlined in our Rules.

The Rules of Professional Conduct cover many topics, but the ones that are most often violated are those where a licensee has affixed their signature and seal to surveying or engineering documents dealing with subject matter in which they lack competence, or to documents not prepared under their direct control or personal supervision. Professional engineers are required to list their area(s) of competence with the Board and practice only within that area(s). Professional surveyors also may not practice within areas of surveying in which they lack competence. In other words, if you have expertise in construction staking and you are asked to perform an ALTA/ACSM survey or someone asks you to divide a subdivision for them which is not within your area of competence, you must make the proper ethical decision and decline the project.

Signing and sealing work not done under the licensee's direct control and personal supervision often occurs when the client must submit a signed and sealed document to a governmental agency for approval. This Board has had many disciplinary actions where the client or the contractor may have used engineering software to perform the

## THE PATH TO COMPLIANCE (cont.)

calculations and design. The engineer then steps in after the design process is complete and reviews, signs and seals the work that is not within his/her area of competence, depending entirely on the software to ensure the design is correct. This is a violation of Board laws and rules.

Other ethical violations involving dishonesty occur during the licensing or license renewal process. Licensees and applicants are asked if they have been found guilty of a crime or been disciplined by another licensing board. It is surprising how often the answer “No” has been selected when in fact the honest answer was “Yes”. PE and PLS state licensing boards DO communicate with each other

and DO perform background checks. From the Board’s perspective, it is much better to answer honestly than to face a charge of fraud and deceit in the licensing or application process.

Honesty and ethical behavior are essential for licensees to be worthy of the public trust and are recognized as being fundamental virtues of professional standing. Professional engineers and professional land surveyors are trusted by the public and must hold paramount the safeguarding of the life, health, property and welfare of the public.

### **NCEES Engineering Award – 2015 Call for Submissions**

In 2009, NCEES introduced this award to recognize college engineering programs for engaging their students in collaborative projects with licensed professional engineers.

The NCEES Engineering Award for Connecting Professional Practice and Education was established to promote understanding of the value of licensure and to encourage partnerships between the engineering profession and education.

EAC/ABET-accredited programs from all engineering disciplines are invited to submit projects that integrate professional practice and education. Projects must be in progress or completed by March 16, 2015.

The NCEES Engineering Award includes six cash awards: the Grand prize is \$25,000 and Five Awards for \$7,500 each. Use of the funds awarded is at the discretion of the winning engineering departments/colleges. NCEES encourages their use for the advancement of projects connecting professional practice and education.

The grand prize winner will be recognized at the NCEES annual meeting in August 2015. All award-winning submissions will be exhibited at the event and featured on the NCEES website, in NCEES publications, and in other related professional publications.

## BOARD NEWS

### COMPUTER BASED TESTING (CBT) FOR FE AND FS EXAMINEES

The Fundamentals of Engineering (FE) and Fundamentals of Surveying (FS) examinations converted from paper and pencil examinations to CBT effective January 2, 2014. Enrollment is continuously open and the exams are offered in two month increments as follows: January-February, April-May, July-August, and October-November. Students or applicants for the FE or FS exam no longer apply to this office prior to sitting for the examination. Registration for the examinations is located at [www.ncees.org/exams/](http://www.ncees.org/exams/)

Once an applicant has passed the FE or FS examination and meets the qualifications for certification as an intern, the applicant may go to our website at [www.pels.ok.gov](http://www.pels.ok.gov) and follow the directions to apply for certification.

Questions regarding signing up for the FE or FS examinations, or certification as an EI or LSI may be directed to Mark Kirk at [mkirk@pels.ok.gov](mailto:mkirk@pels.ok.gov)

### NEW LICENSEES HONORED AT CERTIFICATE PRESENTATION CEREMONY

On June 29, 2014, 33 recently licensed PE's and PLS' joined the Board Members and staff at the Oklahoma Gaylord-Pickens Museum in Oklahoma City to be presented their professional licenses. This event is held biannually to honor the new licensees and to remind them that the health, safety, property and welfare of the public are now in their hands as they practice their professions.

Newly licensed professional land surveyor David Woody (pictured above right) with board member Glen W. Smith, PE, PLS (pictured above left) at the Certificate Ceremony

Newly licensed professional engineer Diane R. McCoy (pictured above right) being presented her certificate of licensure from Past Board Chair George Gibson, PE (pictured above left)
